LECTURED BY JUDGE AND THEN RELEASED

The Boys Who Made the Raid Upon Party Being Held by Class of Smaller Children.

From Saturday's Daily.

A half dozen youngsters of varying ages were complained against by Night Policeman Henry Trout yesterday for disturbing a party of children who were holding festivities in a dwelling belonging to Mrs. W. T. Cole. The complainants informed the policeman that the party was much disturbed by the boys hanging about the dwelling in which the party was given until they had learned the secret, "three taps," to get in and thereby gaining admission to the party, much against the wishes of those giving the party. After gaining admission the intruders proceeded to partake of the refreshments and making themselves a nuisance generally. Some of the indignant little folks hustled down for Mr. Trout, who appeared on the scene and proceeded to eject the unwelcome guests.

Mr. Trout did not throw the youthful lawbreakers in, but exacted a promise from each to appear at the office of Judge Archer at 9 o'clock Friday morning, but when the hour arrived the boys were all hard at work over their studies. Mr. Trout was very much disappointed and felt the sting of disappointment so keenly that he immediately made a complaint under oath, informing the court of the depredations.

Warrants were issued and the youthful delinquents brought before the court. The boys admitted getting in at the party, but denied any overacts of discourtesy, and emphatically denied getting anything to eat. The court lectured the youths who promised to be law-abiding in the future, and on consideration of this promise the court allowed the boys to go without a fine.

New Garage Probable.

Along with the other new enterprises in the city the newest proposition is a garage of the latest pattern, and with modern appointments in every way. This home for automobiles will probably be put in by Messrs. C. C. Parmelee and V. V. Leonard at the building recently purchased from the Ambrose Patterson estate, located on Pearl near Sixth street. It is contemplated to overhaul the building, which is of brick, put in a concrete floor and a hot water heating plant of the very latest design. There is a good opening here for another garage, and one will be badly needed as soon as the new bridge is completed and the Omaha-Plattsmouth route to Kansas City is opened.

MANY APPEAL FOR CHARITY

Des Moines Societies Have Numerous Calls for Aid.

MARKET HOUSE PLAN TO STAY

Grocers of Iowa Capital City Are Keeping Up Fight, but City Council is Determined to Make the Project a Lasting Affair.

Des Moines, Nov. 4.—With the first touch of winter weather the charity organizations of the city were called upon this week for assistance from the unemployed and the statement given out is that the appeals for help are more than double at this time than they were a year ago.

Never before in the history of Des Moines have these organizations been so overwhelmed with appeals for aid. The pinch of winter has brought to the attention of charity workers much distress. Lack of work and the large class of transients who came to Des Moines in the hope of securing employment, are given as the causes of the present situation.

Market House Permanent.

The city council of Des Moines took steps to make permanent the market place plan which has proved a great success the last fall. Orders were given for the immediate remodeling of the old city hall, now soon to be vacated for a new one and to utilize it for a market house during the winter. Some additions will be made and the building will be ready for use in a few weeks.

The grocers' association of the city has not yet given up a bitter fight on the market place, but the open market will be continued all winter.

INSANITY PLEA FOR VETERAN

Defense in Trial of Charles Owen intimates its intention.

Davenport, Ia., Nov. 4.—Questions of attorneys for the defense indicate that an effort will be made to show that Charles Owen, the veteran of the civil war, who is charged with murdering James Kane, was not in his right mind when the deed was committed. The first witnesses for the state, George Neafus and Harry Coefield, were the only two persons who saw the shooting. Neafus was in Owen's shanty when Kane and Coefield came there. Coefield claimed on the stand that Kane spoke to Owen pleasantly, but that the old man backed up to a shelf and, reaching for a revolver, advanced two steps and shot Kane in the abdomen.

Five of the jurors hearing the Owen case are men who sat in the jury box at the last trial of Rudolph Brandebere, charged with murder, and acquitted him.

PROBE FOR NATION'S ILLS

Chicago, Nov. 4.—A business congress will meet Dec. 11 to consider what is the matter with the country and what remedial legislation will be asked of congress at the next session.

TAFT WILL VOTE IN HIS HOME CITY

President Will Make Necessary Affidavit in Cincinnati.

Hot Springs, Va., Nov. 4.—President Taft will get a vote at the Cincinnati and Hamilton county elections after all. For two weeks there has been doubt as to whether he would have an opportunity to cast a ballot in his home city next Tuesday.

The president sent his registration papers to Cincinnati too late and the election board decided he could not vote unless he appeared in person next Monday and swore that he was a qualified elector. Mr. Taft had intended leaving Hot Springs Monday night, arriving in Cincinnati early election day, but he changed his plans. As a result he will leave here tomorrow night, make the necessary affidavit before the election board that day and he prepared on Tuesday to register his preference not as the titular head of the Republican party, but as a citizen of Ohio.

With the arrival in Hot Springs of Secretary Hilles, Mr. Taft will have data which he expects to use in his third annual message to congress. According to persons close to the president some of the important questions to which he will call the attention of congress are the tariff, the trusts, the second class postage rates, stock watering and over-capitalization, conservation, currency reform and navy reorganization. The peace treaties, for which the president has spoken often on the trip west, will not be referred to in the message, it was said, since they are now before the senate. A special message to that body alone is believed to be in prospect later.

GETS COMPENSATION IN COLGO

Terms of Treaty Produce Dissatisfaction at Berlin and Secretary of State for the Colonies and Councilor Tender Their Resignations.

Paris, Nov. 4.—The contents of the Franco-German accord, officially given out, show that Germany recognizes the right of France to establish a protectorate in Morocco and both nations engage to obtain the adhesion to this accord of the other signatories to the Algeiras agreement.

France, as compensation for German recognition of its protectorate in Morocco, cedes to Germany about 270,000 square kilometers in northern French Congo, touching the German Kameruns.

The territory ceded is inhabited by about 1,000,000 negroes, and has a commerce valued at \$2,400,000 annually. In reference to Morocco, France agrees to safeguard the economic quality and commercial liberty for which provision is made in existing treaties.

Dissatisfaction in Germany.

Berlin, Nov. 4.—Revelations of dissensions in the government on the eve of the Morocco debate in the reichstag has greatly weakened the positions of Chancellor von Bethman-Holweg and the foreign secretary, Herr von Kiddeim-Waechter. The councilor of the colonial office, Herr von Danckelmann, also resigned.

ATROCITIES OF ITALIANS

British Officer Tells of Slaughter of Noncombatants.

London, Nov. 4.—The agitation against alleged atrocities by Italians in Tripoli received fresh impetus through a telegram received by a news agency from Lieutenant Herbert Montagu, a British officer with the Turkish army, in which he says:

"As you know already about the ferocious resistance which the Turks and Arabs are offering the Italians, I will only express my admiration for their bravery.

"Imagine my feelings when on entering and driving the Italians out of Arab houses, which they had fortified and were holding, we discovered the bodies of some 120 women and children with their hands and feet bound, mutilated, pierced and torn. Later on we found a mosque filled with bodies of women and children, mutilated almost beyond recognition. I could not count them, but there must have been three or four hundred. "Even now we are getting news of further massacres of women and children. The idea of the Italians when they slaughtered the innocents obviously was one of revenge for their heavy losses in battle. "We are at this moment under a heavy shrapnel fire. There is also an aeroplane circling over our position and directing the enemy's gun fire on us."

INTEREST IN WATERWAYS

Sioux City Wants 1912 Meet of Commercial Congress.

Kansas City, Nov. 4.—Reports from the upper Missouri river country to the headquarters of the Transmississippi Commercial congress indicate more interest than ever before in the waterways movement, big delegations from every important town coming to the meeting of the congress here, Nov. 14 to 17, as the result of a better feeling now existing toward the improvement of the Missouri from St. Louis to Kansas City.

Upper river towns realize that the lower portion of the river must be navigable before they can hope for appropriations for work there. Sioux City is in the fight for the 1912 session of the congress and will have a strong delegation here. Congressman Borland expects eleven members of the national rivers and harbors committee here for the congress.

In reacting for the letter he pulled the revolver out, which fell to the floor and exploded, the bullet passing through his leg and striking Mrs. Bangs on the right cheek, below the eye. The bullet penetrated the brain and she died almost instantly.

MRS. VERMILYA HELD FOR POISONING MAN

Chicago Woman Charged With Murder of Policeman.

Chicago, Nov. 4.—Mrs. Louise Vermilya was formally charged with the murder of Policeman Arthur Bissonette by poisoning him with arsenic, following the report of toxicologists who had examined the viscera of the dead roomer at the widow's home. Coroner Hoffman announced that he will have exhumed the bodies of at least two of the other eight persons who have died in her home during past years.

Professor Walter L. Haines, Dr. Ralph W. Webster and Dr. E. R. Leconte reported to the coroner they found more than enough arsenic in the liver and other organs of Bissonette to have compassed his death.

Chief of Police McWeeny, who, with State's Attorney J. W. Wayman and several police officers, had listened to the toxicologists' report to the coroner, immediately swore out a warrant for the woman, who had been under close police surveillance ever since the long list of deaths occurring under her roof came up before the investigators for classification as coincidents or otherwise.

She had been ill with pneumonia and her condition was such that Captain Herding, the police officer in charge of the investigation, agreed to delay service of the warrant, but added several men to the guard watching the suspected widow.
