THREE SMALL BOYS ARRESTED AND ARE CHARGED WITH THEFT

From Tuesday's Daily.
For some time past there has been several brass castings and other articles missing from the Western Foundry & Machine Works plant on Third street, and they were at a loss to know what had become of them, and yesterday it was found that an automobile which had been stored there had been carefully robbed of everything that could be sold as junk. It was thought to keep a watchout to locate the robbers, if possible, and last evening the watchmen were rewarded by locating the parties who had taken the stuff, when three small boys appeared to carry off the spoils of their raids, which they had concealed near the premises until a time when they could make way with them. The boys, who are none of them over 10 years old, were taken in hand and questioned by the deputy sheriff and this afternoon they will be brought before the county attorney to see what should be done in their cases. A lock on the tool box of J. H. McMaken at the new ice plant building was also forced open, but there was nothing taken from the box, as the tools evidently did not look good to the young robbers.

From Wednesday's Daily.
The three boys, Ernest Verhule, Frank March and Arthur Harness, who were charged with taking brass and other articles from the plant of the Western Machinery and Foundry company, in this city, will be given a hearing tomorrow on a complaint that will be filed against them. The boys were examined yesterday by County Attorney Taylor and gave over the statement that they had disposed of articles amounting to some \$25 to a junk dealer in the past few weeks. The boys are quite young, but are onto the ropes of the business, and if the statements of the boys in regard to the disposal of the stolen property are true it may go hard with the man who purchased it if he cannot prove his innocence in the matter of knowing how the stuff was obtained. The lads should be placed where they can be kept in the straight, narrow path and become useful citizens, but at their present gait they are fast acquiring habits that will in time result most serious for them.

Spring Wagons Exchanged.
On last Saturday evening there was a mistake made in the spring wagon line at the Parmele barn. The mistake was made during the rush at the barn in hitching the wrong team to one of our patron's wagons, and the error was not discovered until the second team was called for. The parties having the wrong wagon will kindly notify Mr. Parmele, so the same may be adjusted by Mr. Parmele calling for the wagon or the parties returning same to the barn at an early date.

Motors to Union.
From Wednesday's Daily.
There was quite a part of the legal talent of the city today that decided to spend the day close to the heart of nature and accordingly Judge Beeson, Judge Douglass, County Attorney C. H. Taylor, J. M. Leyda and A. O. Moore motored to Union with the intentions, so they stated, of hunting truffles. The other members of the bar have been greatly excited over the large supply of the toothsome truffles that the county judge recently secured while out on a trip, and will endeavor to beat his record. Mr. Moore will act as an arbitrator in case any disputes arise between the legal gentlemen over the division of the spoils.

ENJOY A DELIGHTFUL TIME AT THE GARFIELD PARK IN PICNICKING

From Tuesday's Daily.
Yesterday afternoon the members of the primary department of the Junior League of the Methodist church enjoyed a very delightful time at Garfield park in a picnic and general good time. The event was in charge of Frank Frank Gobelman, superintendent of the Junior League, and Miss Hermie Windham, teacher of the class, and these ladies saw that the little folks enjoyed themselves to the utmost in the hours they spent at the park. Games that are so much enjoyed by the little hearts were played for a time and then the invitation was given to gather round and take part in the daily lunch prepared for the occasion, and it is needless to say that this was most thoroughly enjoyed by all of the twenty-eight members of the class present, and when the home-going hour arrived they departed feeling that their teacher and superintendent had certainly provided them with a royal time.

AIR DOME OPENS WITH FINE ATTRACTIONS AND A LARGE AUDIENCE

From Tuesday's Daily.
The opening of the fine new air dome just erected by R. M. Shlaes, which was held last evening, attracted a very large crowd and the capacity of the open air theater, which is 800 to 1,000, was filled with a well pleased audience to enjoy the excellent program which was offered by the management. The Hawaiian Five, a singing and dancing vaudeville company, was secured for the opening attraction, and they will appear again this evening, and this company is one of the best vaudeville attractions that has appeared here for some time, and their splendid entertainment was one that was thoroughly enjoyed by everyone, and Manager Shlaes certainly provided a treat for his patrons in the Hawaiians. They are excellent musicians and both in playing on the different instruments and in their vocal selections they were very pleasing. Four reels of pictures were shown in addition to more than usual merit. Tonight there will be a complete change of pictures and the Hawaiians appear in a new program. On Wednesday night the talking movies will be shown.

ARRANGING FOR WATER MAINS TO OAK HILL CEMETERY

From Tuesday's Daily.
During the past few days there has been considerable discussion among the citizens over the question of having a man or supply pipe placed from the hydrant on Locust street, which is the one nearest to Oak Hill cemetery, in order that the proper supply of water may be had to take care of the cemetery in proper shape. At present the only water supply available at the cemetery is from a large well, and this is not only inconvenient to get the water, but at times is dry, and thereby the grass and flowers planted at the cemetery cannot receive the proper nourishment that they should. The cost of putting in the supply pipe from Locust street on out to the cemetery would not amount to a great deal, and already quite a number have signified their willingness to take what steps may be necessary to make the burden as light as possible by personal donations to the cause. One gentleman has offered to contribute \$100 in order that the water service may be extended, and there are a number of others who are willing to contribute sums to see that the work is carried out.
