you buy here means just that much good building. Your wife cannot make good bread with poor flour, neither can you build a good house unless you employ good materials. For those materials you will find it safe to come here. For, as we handle only reliable building materials, you stand no chance of getting those you'll be sorry for.

When a druggist makes a mistake in putting up medicine it is not a laughing matter. Error has no place in the pharmacist's vocabulary. We crossed it out of ours at the start. No danger of carrying home the wrong package.

**THE LIGHTING COMPANY HAS INSTALLED ANOTHER ARC LIGHT**

The electric light company has started preparations for the installing the new electric arc light which was ordered some weeks ago by the city council for the corner of Fifth and Main streets. The light has long been needed there as it is very dark on this intersection when the lights in the store fronts are put out at night, and the persons coming from the Air Dome or along Fifth street find it very disagreeable, indeed, to get along in the dark. With this light and the one moved up from Richey to Third street it makes the main street of the city much better appearing than formerly, as well as proves more convenient to the persons traveling along the street at night.

**Without a Rival.**

It is hard to find many preparations having no rival, but we can, with pride, point to Triner's American Elixir of Bitter Wine, which stands alone. It has many imitations, but no real rival which could show the same medicinal qualities. People found this out in a short time and since then reject the imitations. Triner's American Elixir of Bitter Wine is a dependable medicine; it quickly cleans out the intestines, strengthening it at the same time. In many diseases of the stomach, the liver and the intestines it is without a rival, because its action is mild, painless, without any discomfort. At drug stores, Jos. Triner, Manufacturer, 1333-1339 So. Ashland Ave., Chicago, Ill. For stiff muscles and joints, for rheumatism and neuralgia, for swellings and sprains, try Triner's Liniment.

**A FINE IMPROVEMENT FOR PERKINS HOUSE NOW BEING BUILT**

The steel work on the new veranda that is being placed on the front of the Perkins House by John Cory, the proprietor, was completed yesterday and the work of finishing up the job and placing of the concrete top on the veranda will be started as soon as possible. The veranda stands some seven-teen feet above the sidewalk and is supported by steel pipes, while the cross sections are imbedded in the walls of the building itself, making it absolutely safe. It is twenty-two feet wide, covering the entire front of the office of the building and covers some twenty feet to the edge of the walk. It will add greatly to the appearance of the building and will be found a most pleasant spot on hot days to rest. The hotel building looks very fine with the new addition and Mr. Cory is to be congratulated on his enterprise in putting on the veranda.
