ELLWOOD FENCE

SIMPLE—SCIENTIFIC—STRONG

THAT IS ALL THERE IS TO ELLWOOD FENCE—

Heavy steel cables lapped about and held together by steel wire, forming uniform meshes. Simple, isn't it? No chance for weakness in any part, uniformly strong. The reasons for the superiority of ELLWOOD FENCE are not hard to find. This company owns and operates its own iron mines and furnaces; its own wire mills and six large fence factories—either one of the six being larger than any other fence factory in the world. These facts should be convincing.

JOHN H. CREAMER.

The Logical Candidate.

A. F. Sturm, republican candidate for state senator for Otoe and Cass counties, was born of German parentage on a Cass county farm just a mile and a half from Nehawka. At 24, after spending a short time in the study of law, he started in the lumber business at Nehawka. That was in 1887, and he has been there ever since. His whole record is there and is open to all. Reared on the farm, he has the farmers' interests at heart. Experienced in business, he has the training necessary to make an efficient law-maker. Such a combination of these essential qualifications in the one candidate is seldom found, and it would seem that Mr. Sturm is the logical man for the place.—Adv.
