IN PLATTSMOUTH FORTY YEARS AGO.

General John R. Clerk returned home to Plattsmouth on Tuesday.

Hon. E. Barnum of Union Mills called on us yesterday.

We had an assault and battery case last week. One fellow sent to the Murphy hotel for ten days.

Doc Jones, the livery man, keeps good, smooth traveling teams; and has one of the easiest riding buggies we ever got into.

One of Sam Chapman's thoroughbred short-horn, chester white Percheron, full blooded hunter pups has been poisoned, and, oh, Sam's mad.

Dr. Latta, formerly of Rock Bluffs, this county, is about to erect bath houses at Lincoln, in order to test the virtue of the mineral water in the artesian well.

The school apportionment for this county is larger than it has been for some years and is over \$9,000. This comes partly from the many licenses Judge Ellison has executed these two years.

Alex Schlager came home Friday looking as brown and as hairy as a Texan Ranger. He has wonderful stories to tell of the great west, and says he never was so glad to see the little Herald before. Alex returns this week to finish up his work.

Nothing like going away from home to hear the news. We find by several papers published further east, that our townswoman, Mrs. Spurlock, is a sister of the confederate expressman, Jeff Davis; something we never knew before, and we think the lady didn't either.

Liggett-Minard—On the 18th inst., at the residence of Mr. J. J. Roberts in Greenwood, Cass county, by the Rev. Mr. Farwell, Mr. J. H. Liggett to Miss Frankie Minard.

That's what's the matter, we wasn't "eggsactly" aware when this thing was to come off; but knew it was hovering in the atmosphere. Now that Leggett's gone and done it, and Alex Schlager and the boys are happy, we give our consent, and wish the new landlord and landlady all the good luck possible, both matrimonial-ly and hotelly.

Our temperance friends gave us a very pleasant evening's entertainment the other evening. The tableaux were

fine, especially the shoemaker one and Do the Boys Hall. We think Smike could make his fortune on any stage with that face on. The boy that was swallowing the sulphur hasn't got his mouth together yet, and his mother says that Mrs. Squeers stretched it an inch or more. Old Mother Squeers was horrid. The singing was good and Mrs. Spurlock's address was listened to with profound attention. The financial results were also pleasing, we are informed. The entertainment was rendered more effective by the use of the fine piano kindly loaned for the occasion by Mr. Mueller of Council Bluffs.

WESLEY PARKER SEVERELY INJURED BY BEING THROWN FROM A BUGGY

From Tuesday's Daily. Wesley Parker, who was injured so severely a few days ago, is reported this morning as being slightly improved, although still in quite serious condition. Mr. Parker received a very severe shaking up as the result of being thrown from his buggy on the Louisville road near Chicago avenue last Friday, and since that time has been laid up at his home, as he received several injured ribs, and it is thought was badly injured internally. He was driving down from his home to the city and as his horse turned into Chicago avenue the animal became frightened at the form of another horse which was lying near the side of the road. Mr. Parker did not notice the animal and the first he knew of the matter was when his horse became frightened and reared up and started to break away to run off, and in doing so tipped the buggy in such a manner that he was thrown out, alighting on his head and shoulders. He was then taken to his home and medical assistance summoned to care for him. It was feared at first that he might have sustained even more severe injuries than was apparent, but examination failed to reveal any, although Mr. Parker, who is quite well advanced in years, suffered very much pain.

ST. JOHN'S CATHOLIC SCHOOL MADE MODERN IN EVERY PARTICULAR

From Tuesday's Daily. The school belonging to St. John's Catholic church of this city has just been provided with a strictly modern system of plumbing and fittings, which adds greatly to the value of the building. The building throughout has been provided with toilet rooms, which are strictly up-to-date, and will be found very much better and far more convenient than heretofore. The work of installing the plumbing was carried out by the firm of Warga & Scholdice and is one that is very complete in every way. This work has long been needed and the members of the parish are to be commended on their enterprise in looking after it.
