### Farm Implements and Wagons and Harness!

With a large crop of corn to market many farmers are in need of a new wagon, extra box or harness, which we have in stock and invite your inspection before you buy. We pride ourselves in handling the "Birdsell" wagons and "Birdsell" extra boxes, built from genuine yellow poplar and hand painted with lead and oil, which insures your wagon against cracking and peeling when exposed to the elements. The "Birdsell" has in many distinctive features not found in any other wagon and the boxes are the only "yellow poplar" sold in this territory. We carry a full line of Farm Machinery in our new 24x66 building and are prepared to fill your requirements for the Spring work. Call and give us a chance to demonstrate this fact to you. We'll appreciate the favor. Our Harness, Collars, Pads and Extra Parts to put your old harness in shape. "Eureka" Harness Oils, Curry Combs and Brushes are all ready for your inspection.

Hugh Nickels ended the week's show in Cedar Creek Saturday and it was well attended, but deserved a much better house than was present Tuesday night. The show was the finest that ever came to this part of the county. A good, clean show, the motion pictures were as good as can be found anywhere. The prize given for the most graceful waltzer was awarded to Miss Anna Thomsen, and the watch that was given to the most popular lady was rewarded to Miss Florence Gauer. But the best of all was on Wednesday night when Chester Elesman won the twenty-ninth prize. It was with regret that we watched the trunks and baggage hauled to the depot, as all would like to have seen the troupe stay another week, and if Mr. Nickels and company ever come this way he will always be sure of a good crowd, as the show is always welcome to our town.

### BUSY TIME WITH THE MARRIAGE LICENSE CLERK

Another busy day in the marriage license market was recorded yesterday in the office of Judge Beeson, when two more of the valued permits to connubial happiness were turned out to do their part in making four hearts beat as one.  
Orest P. Cook and Miss Elsie Turner, both of Elmwood, were among those asking for a license, but these two young people are not to be wedded until next Wednesday, when they will wed at the home of the bride's parents.  
Thomas E. Malone of Palmyra, Nebraska, and Miss Elica C. Smith of Elmwood were also among those who will join their lives and hearts in the future, and will be married today at the home of the bride in Elmwood.  
Oscar W. Zaar, one of the prominent residents of South Bend, was in the city today for a few hours looking after some matters at the court house, and will remain over for the democratic banquet tonight.  
William Moore and Charles Epperson, of near Glenwood, were in the city yesterday for a few hours looking after some trading and visiting with friends.  
Richard Umland of Eagle came in last evening to spend a few hours here today attending county court, where the Henry Umland estate was before the court.  
J. C. Zimmerman of Avoca arrived this afternoon to be present this evening at the democratic banquet at Coates' hall.

### NEBRASKA IDEAL LOCATION FOR MILITARY BASE

In these days of agitation of military preparedness Nebraska deserves more than ordinary consideration as an ideal location for a munition plant and a base of supplies of grains, metals, lumber and other military requisites.  
Military authorities acknowledge the necessity of scattering munition plants throughout the country instead of mobilizing them on the Atlantic Coast. In selecting locations for these plants the foremost factor under consideration is accessibility to raw materials as well as rail facilities, over which the supplies may be transported and placed at any point of vantage, particularly on the Pacific Coast.  
The geographical center of the United States is in Nebraska and the War Department has recognized the importance of its location by establishing and maintaining two military posts, Forts Omaha and Crook.  
In case of invasion Omaha would be the last city the enemy could reach even should the Coast defenses of both the Atlantic and Pacific be captured. Nebraska is practically self-supporting as far as its agricultural, live stock and manufactured products are concerned. In the selection of a location for a central munition plant the government is considering both Salt Lake City and Denver in addition to Omaha.  
The Union Pacific Railroad claims distinction of being the greatest defensive factor next to the navy and the Panama Canal should any international complication arise that would jeopardize the safety of American lives and property particularly by way of the Pacific Coast.  
This railroad is carrying on a public utility campaign with the end in view of influencing the citizens of Nebraska to demand recognition as the most favorable location for a munition plant and military base, and in this task deserves encouragement of every Nebraskan.  
C. S. Wortman of Claremore, Oklahoma, is here enjoying a short visit with his relatives in this county and looking after some legal matters for his family while in the city and county.

Women's Votes Protected.  
Senator George W. Norris has amended the resolution introduced by him proposing to abolish the electoral college so that the language limiting the ballot to qualified voters of each state will not deprive the women of Illinois, and perhaps of New Jersey, Maine and some other states, of the right to vote on president which has been conferred on them by the legislatures of their states.

### WOULD GET POSTAL SAVINGS FOR FARM

Shallenberger to Ask Rural Credits Bill Amendment for Easier Agricultural Loans.

### CAPITAL IS NOW NECESSARY

Washington, D. C., Feb. 8.—Congressman A. C. Shallenberger has notified the house he will offer an amendment to the "official rural credits" bill, by which he will seek to provide that the postal savings funds shall be deposited in the federal farm banks instead of in the commercial banks, as now. He says:  
"The ability to obtain capital at a low rate of interest is essential to the success of any business. The large corporations are notoriously big borrowers and at low rates, for they command the whole field of credit. They must be able to obtain large volumes of money or credit when needed at low rates of interest, or failure results. Though some people seem to believe the contrary, the farmer is no exception to this rule.  
Capital is Needed.  
"In Nebraska the man who would own and successfully operate 100 acres needs more capital and has a larger investment than the average capital of the 800 state banks in Nebraska.  
"In Nebraska the farmers have purchased and erected many silos for the purpose of storing forage crops. Lincoln has one of the largest silo-selling concerns in America, and just before the European war broke out it was borrowing money at 3 1/2 per cent on company notes in New York. That was the common New York rate then, but I know the farmer who had purchased the silo and given his note was paying 8 to 10 per cent."

Lauds Omaha Warehouse.  
In the debate on the urgent deficiency bill, Congressman C. O. Lebeck paid tribute to the efficiency of the Omaha warehouse, which has since been abolished. He said:  
"The Omaha warehouse during its existence had a record for handling the merchandise assembled there for trans-shipment to Indian schools and agencies which will compare favorably with any Indian warehouse in the country for efficiency in service and cost of maintenance, and there has been no showing made that cost of supplies was less at any other city or warehouse."

### Yellow People.

People suffering from jaundice have a yellow complexion. Some believe that this sickness is nothing serious and that it will pass away without treatment. That is a great mistake. Jaundice may be the symptom of a serious disease of the liver and should always be promptly treated. Use Triner's American Elixir of Bitter Wine. It will regulate your bowels and strengthen your body. The yellow color will gradually make room for a healthy complexion. It will also give you a good appetite and banish your weakness. In diseases complicated with constipation it should always be used. Price \$1.00. At drug stores. Jos. Triner, Manufacturer, 1333-1339 S. Ashland Ave., Chicago.  
In colds apply Triner's Liniment to your chest and throat, in rheumatism and neuralgia to the muscles and joints affected. Price 25c and 50c, postpaid 35c and 60c.  
NOW FEELS ENTIRELY WELL.  
A. H. Francis, Zenith, Kas., writes: "I had a severe pain in my back and could hardly move. I took about two-thirds of a 50c box of Foley Kidney Pills and now feel entirely well." Middle-aged and older men and women find these safe pills relieve sleep disturbing bladder ailments. Sold everywhere.

### MRS. FRANK CUMMINS ENTERTAINS IN HONOR OF HER LADY GUESTS

Mrs. Frank L. Cummins entertained very delightfully Tuesday at dinner in honor of Mrs. Claire Howland of Chicago, who is a guest at the Cummins home for a time. The guests were a number of the old and intimate friends of Mrs. Howland, who was formerly Miss Claire Coleman of this city, and a young lady immensely popular in the social life of the city for a number of years. The rooms of the handsome Cummins home were arranged very prettily in a color scheme of pink, which made a most pleasing setting for the gathering of old friends, who enjoyed the occasion of meeting their former schoolmate and friend to the utmost. The dinner was most delicious and tempting and thoroughly enjoyed by the members of the jolly party.

It's only the paper line that will be found at the Journal office, but this line will be found complete. Come in and see.
