THAT youth and energy are great assets none will deny. They help a lot in the battle of life. Frequently, however, men who possess both youth and energy suddenly discover that they need a little capital. A business opportunity finds them without any cash.

Young man, don't be caught this way. The successful business men of the country freely declare that they owe their success mainly to the fact that they opened a bank account early in life. Then when the chance for an investment came along they were ready for it. Youth and energy make a fine combination. But youth, energy and capital are invincible.

YOUNG MAN, BE INVINCIBLE. START A BANK ACCOUNT WITH US TODAY.

Commercial Club Meets.

The Murray Commercial club held its regular monthly meeting on Tuesday evening of this week. There was quite a large attendance, and all members seem to be taking a great deal of interest in the work of the club for all things that will be better for Murray and the community. They have accomplished a great deal this spring, and this means the success of the club as it interests the old members and makes new ones. The success of the commercial club means a greater and better Murray, and a greater and more prosperous Murray means a great deal to us all. There were quite a number of matters that came before the meeting Tuesday evening, but the one requiring the greatest amount of attention at the present time is the roads leading to Murray, and also that of making needed repairs on the Murray streets. They will immediately take up the grading on the street around the school building, and as soon as possible all streets will receive their share of the work, as well as all roads leading into Murray.

IRISH SECRETARY BIRRELL IS SAID TO HAVE RESIGNED

Disposition to Be Made of Rebels By Government Still Unknown.

IRELAND IS NORMAL AGAIN

London, May 4.—Rumors that Augustine Birrell, chief secretary for Ireland, has tendered his resignation to Premier Asquith because of the Dublin rebellion, were in general circulation here following Birrell's return from Dublin.

The Daily Chronicle's parliamentary correspondent reported a rumor in the house of commons lobbies that not only Birrell but General Friend, commander of the forces in Ireland, and several other officials have resigned. Birrell is certain to be under heavy fire when the motion for his resignation is called for debate in the house of commons.

The course the government will pursue toward the rebel prisoners who have been brought to England is not known. It was pointed out, however, that in the Boer revolt early in the war and the recent mutinies near Lahore, India, only the leaders were executed.

Resistance by isolated bands of rebels engaged the attention of government forces in Ireland yesterday, but as rapidly as troops reached villages where the rebels had concentrated they surrendered. Scarcely any sniping occurred in Dublin.

179 Buildings Destroyed.

Dublin, May 4.—A total of 179 buildings were destroyed or damaged during the seven days' rebellion, the chief of the Dublin fire department states. He estimates the fire loss in the Sackville district alone at over \$8,000,000.

Painting—repairing—replacing screen—those are the expenses which make inefficient wire cloth a source of annoyance and money loss. When you screen with genuine G. & B. PEARL you do away with painting, repairing, replacements—simply because PEARL is rust-proof as metal can be made, consequently makes a screen that's practically wear-proof.

G. & B. PEARL represents true screen economy. It outwears all imitations so far that no other similar appearing wire can be placed in the same class. From points of appearance—sanitation—durability and economy G. & B. PEARL is the one choice of the man who wants permanent protection.
