PLATTSMOUTH SEMI-WEEKLY JOURNAL.

Bulletin No. 7

Aren't the People Entitled to Know All the Facts?

The House of Representatives in appropriating \$11,000,000 to build a Government armor plant, voted down a proposal that books be kept so the public could know exactly how much Government-made armor will cost.

Advocates of a Government plant expect to get armor cheaper. Why then refuse to look facts in the face?

> We can and will make armor for the Government cheaper than it can do it for itself-and we-want to prove it.

If our offer to do so is to be rejected, aren't the people entitled to know exactly what the Government-made product costs?

That question is now before the Senate of the United States.
