

PLAN FOR ATTACK TO BEAT WILSON

It is Not Thought That Americans Are Implicated in the Scheme Under Way.

Washington, D. C., Oct. 27.—Mexican bandits are planning an attack upon the American border or upon the American troops in Mexico, Secretary of War Baker has declared.

It is charged that the attack as promulgated by a Mexican, not an American, is an effort to swing public sentiment against the present administration's Mexican policies. The information gained indicates that the attack is planned to take place at some time before election.

With the plans of the bandits known to both the American and Carranza military leaders and all in readiness for the attack, it is thought that the contemplated attack will be discouraged.

Americans Not Implicated.

It is not thought that Americans are implicated in the scheme.

Secretary Baker announced today that he may have another statement to make later on this charge.

Administration officials indicated the considered Baker's statement a warning to the Mexican government's good faith. The administration expects the Carranza government to take final and effective measures for the suppression of Mexican banditry.

Secretary Baker returned today from Martinsburg, W. Va., where he spoke last night.

Belief of Officials.

The belief of other administration leaders as well as Baker's own was expressed in the startling statement of last night. The administration, by making public its knowledge of a danger threatening the relations between this government and the Carranza government, expects Carranza to fully realize this government's unselfish purpose and, in consequence, hopes for more active co-operation between the military forces of the two countries for common action against the Mexican bandits.

Should the Carranza government ignore the opportunity presented and fail to bring about a better condition in Mexico, the American government will consider independent action toward that end.

Important Effect.

Baker's statement is expected to have an important effect in checking the reported conspiracy on the American side of the border. While no definite statement could be obtained today the impression was given that these conspirators are Mexican scientists of the Diaz regime and their agents, who have headquarters in several large eastern cities and in border towns.

The financing of the Villistas and other bandits is being done by leaders in the east, through agents along the border in Mexico. Attention was first called to the possibility of the plot by the paying of the bandits in silver, which is scarce in Mexico, even the government lacking it.

Working on Reports.

The war department has been working on reports received from the interior of Mexico by army officers, agents of state and justice departments, and the secret service. The source of supply of the silver was traced to the American side of the border, it is now said.

Officials declare Baker's characterization, "enemies of the administration's policy toward Mexico," does not implicate Americans of any prominence.

Whether any American capital was involved in the plot, no direct answer could be obtained. Neither would officials say what offensive steps had or would be taken toward checking or apprehending the alleged conspirators in the United States. The same government agents who have been working on the plot are understood, however, to be actively engaged in running down the members.

SENATOR JOHN MATTES IS OUT CAMPAIGNING

From Saturday's Daily.

Senator John Mattes, who is perhaps the most popular senator this district has ever had, was in town Monday calling on his many friends. Mr. Mattes is making no extensive campaign this year, being content to rest his case upon his past record. A legislator who has ever stood and worked for constructive legislation, he can present his record to his constituents fearlessly, and ask them to approve or condemn as they choose. He has nothing to hide, nothing to explain—he wants your support on the strength of what he has shown himself capable and willing to do as the senatorial representative of this district. There is no doubt as to his honesty of purpose and no question as to his ability, and more than that it would be hard to find in any candidate and that he has the courage of his convictions in all things is shown in his past record as legislator. No voter will make a mistake in casting his ballot for Senator Mattes.—Talmage Tribune.

THOSE ELIGIBLE TO VOTE AT THE COMING ELECTION

Any Foreign-Born Citizen, Who Has Taken Out First Papers and In State Six Months.

From Saturday's Daily.

Under the constitution of Nebraska, any person born in a foreign country who has at any time in the past taken out his first naturalization papers, and who has resided in Nebraska for six months, will be entitled to vote at the coming election. The fact that he has permitted seven years' time to lapse without completing his naturalization, thereby making it necessary to renew his first papers in order to become a citizen of the United States, is not a bar to his voting in Nebraska.

These facts have been stated to Chairman Thompson of the Nebraska Dry Federation in an official opinion by Attorney General Reed. Mr. Thompson requested the attorney general for an interpretation of the state constitutional provision, which reads as follows:

"Every male person of the age of twenty-one years or upwards belonging to either of the following classes, who shall have resided in the state six months, and in the county, precinct, or ward for the term provided by law shall be an elector.

"First—Citizens of the United States.

"Second—Persons of foreign birth who shall have declared their intention to become citizens conformably to the laws of the United States, on the subject of naturalization, at least thirty days prior to an election."

The Dry Federation chairman inquired whether an alien, whose rights of citizenship had become dormant or void by failure to complete naturalization in seven years could still qualify as a voter in Nebraska. Attorney General Reed thinks that under the second clause of the constitutional section above quoted there is no question as to the right of such foreign born residents to vote, inasmuch as that clause applies particularly to persons who are not citizens of the United States.

Nebraska is one of the few states of the union, which permits persons who are not fully naturalized citizens to vote.

Catarrrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. CHENEY & CO., Toledo, O.
