Crown Prince Hurls His Legions in Wave After Wave Against Allied Line at Lens Without Avail.

Bitter attacks by the troops of Crown Prince Ruprecht and the German crown prince are being made against the positions vital to the defenses of Lens and Laon, held by the British and French.

Field Marshal Haig and General Nivelle are holding their recent gains, and throwing back the attacking Germans with heavy losses.

South of the Souchez river, one of the natural barriers to Lens, the Germans have made a third attempt to recapture the positions taken by the British Thursday and for a third time have been thrown back.

A momentary footing was won by Prince Ruprecht's men aided by liquid fire against the new British positions, but a brilliant counter attack recovered the lost trenches and left the British line unchanged.

Around Cerny-En-Laonnais, on the plateau overlooking the Ailette river and only nine miles south of Laon, an important link in the German defensive system in France, the German crown prince is expending his man power freely, but ineffectually, in an attempt to regain lost ground.

Throwing his men in waves against the French on both sides of the village, he succeeded only in gaining about 300 yards of an advanced element, but his gain was short lived, as a French counter attack immediately evicted the Germans.

On the lengthy front in Macedonia the entente forces continue their offensive with success between Doiran and the Cerna river. The British have checked Bulgarian attacks southwest of Doiran and hold their recently gained positions with a tenacious grip.

West of Doiran and west of the Vardar river, French troops have carried by storm an important position south of Humm on the Serbo-Creek border and withstood violent counter attacks by the Bulgarians.

Twenty miles to the west and also near the border the Serbians have captured two Bulgarian works north of Pojar. In addition to inflicting heavy losses on the Germans and the Bulgarians, the entente forces in the Macedonian theater on Thursday and Friday captured 300 prisoners.

The British government has issued a grave warning to munition workers now on strike and gives notice of punishment for the inciters of the strikes, which were not authorized by the trades union of England.

Voluntary recruiting, the British war office announces, soon will be extended to men up to 50 years of age, both single and married.

HOUSE VOTES TO LET ROOSEVELT RAISE AN ARMY

Lower Chamber Instructs Conferees to Restore Senate Volunteer Amendment to Military Measure.

Washington, May 12.—By a vote of 215 to 178 the house today, after a stormy debate, voted to instruct its conferees on the army bill to restore the senate amendment to permit Colonel Roosevelt to lead a division to France.

When the house action on the Roosevelt amendment was reported officially to the senate Chairman Chamberlain without debate secured permission to withdraw the report from the senate and resume conferences on the bill.

T. R. Is Delighted. Oyster Bay, N. Y., May 12.—Colonel Theodore Roosevelt made no secret tonight of his delight over the action of the house, but he refused to discuss his plans for putting a military force in the field until his authorization to do so becomes official.

"I am deeply grateful at what the house has done," Colonel Roosevelt said. "I feel they have taken a step which is eminently wise and patriotic toward enabling us to utilize an element in the country we would otherwise not utilize at all."

"This will enable a mixed force of regulars and volunteers to be put at the front during the time necessary for training the great army raised under the selective draft."
