May 22, from H. H. Tresner, better known as "Arkansaw," states the family arrived at Fayetteville safely. The men folks, who drove through in a jitney, covered the distance in two and a half days, arriving there one hour ahead of the train on which the ladies traveled.

FLAG STICKERS.

The Journal has just received a new line of American flag stickers that are so popular over the country at present. Call in at once and secure your supply while they last.

All the novelties in patriotic designs are carried by the Journal office. Call at the Journal office and look over the line when making your selections.

The Pullford

is a simple attachment to go on Fords (or other cars) to convert them into practical tractors.

The price of the attachment is \$145 on Fords and \$155 on other cars, much cheaper than any other similar attachment.

The Pullford does the work of four horses and will do it in the hottest weather when horses can't stand the gaff.

The Pullford will do the work of four horses and does not eat when it is not working. If you could buy four good horses for \$145 you'd think they were mighty cheap.

For practical work on the average farm the Pullford is the very best investment the farmer can make.

It will pull your binder, do your plowing, discing, harrowing, pull your manure spreader, haul your heavily loaded wagons to town; in fact, it will do about all the work your horses will do except planting and cultivating your corn.

The Pullford will pull any load that your two best teams will pull and do it easy.

We will demonstrate the Pullford in a few days. Watch the Plattsmouth Journal for the Notice.
