

FIRST DRAWING IN THE BIG DRAFT

The Following is a Complete List of Those From Which the Ninety-Two Are to Be Selected From Cass County.

We are indebted to the genial deputy county clerk, and who is also a member of the "Dandy Sixth," for the compilation of the first one hundred and eighty-five names which were drawn, and which will nearly comprise those which will be required to fill the ninety-two from this county. No one can tell until the exemptions have been granted how many will be required to fill the 92 which this county must furnish. The list shows the one hundred and eighty-five names in the order in which they were drawn, the first number being the draft number and the second number the serial number:

DIED FROM HARDENING OF THE ARTERIES

The Last Sad Tribute to All That Was Mortal of the Late V. V. Leonard, a Most Estimable Citizen.

Yesterday at the late home of V. V. Leonard on North Sixth street, was held the last sad rites over his mortal remains. The ceremony was conducted under the auspices of the Masonic order, of which he had been a member for the past thirty-five years. The rites were celebrated, with Frank E. White acting in the capacity of worthy master, for and in the stead of W. J. Streight, who is the present master of this lodge. Rev. W. S. Leete, rector of the Episcopal church of this city, offered prayer, both at the home and at the cemetery. The pall bearers were, Henry R. Gering of Omaha, J. W. Burnie, J. M. Robertson, J. C. Peterson, George W. Snyder and O. A. Rawls. The burial being in Oak Hill cemetery, west of the city.

Veseco V. Leonard was born in Susquehanna county, Pennsylvania, September 12, 1840, passing away Tuesday, July 20, 1917, and was nearly 77 years of age. Here he lived until he volunteered as a soldier in the civil war. When the call came for boys to defend the Union, Mr. Leonard, who was then in school, was among the first to offer his services, enlisting in September, 1861, in the Fifth Pennsylvania Infantry. He enlisted for four years, or during the continuation of the war. While fighting under General Grant, he was taken prisoner at the Battle of the Wilderness. From that time to the close of the war he was a prisoner in Andersonville, one of the famous rebel prisons which caused so many deaths and wrecked so many prisoners' health. After the war, Mr. Leonard returned to his old home, and for two years was engaged in teaching school. Later he went to St. Charles, Minn., where, with his brother, Lorenzo Leonard, he engaged in business, being partner in a grocery store, which they conducted in the room on the ground floor, and while in the upper room they engaged in the photograph business. Mr. Leonard remained at this place until he came to Plattsmouth in 1869, when he engaged in the photograph business, continuing therein until the 18th day of May, this year, when he sold his business and retired from active business. Mr. Leonard, 35 years ago, joined the Masonic order, and for fourteen of the thirty-five years was the master of the lodge here. He was a member of the Methodist church, and was for some time the superintendent of the M. E. Sunday school in this city. Some years ago he was elected a member of the city council, and after serving one term was requested to become a member of the Board of Education, which he consented to do, and was chosen to that place, remaining therein for eight years.

In 1871 he was united in marriage with Miss Rosa White, from which union there were born to them Carroll V. Leonard, now engaged in the photograph business at Kansas City, Mo.; Verna V. Leonard, who makes her home with her mother in this city; Mrs. Nellie Bulger of Omaha, Mrs. J. E. Worley of Lincoln, Theodore Leonard of Omaha, and Don Leonard of Lincoln.

ADJUDGED INSANE BY BOARD.

Yesterday afternoon, John M. Schwartz, a painter from Nehawka, who has worked all over the eastern portion of Cass county at one time or another, was brought before the insanity board, and after a thorough hearing was adjudged insane by the board and sentenced to the asylum at Lincoln for treatment. Sheriff Quinton, in whose charge he was given, immediately took him in an automobile to Lincoln, where he was turned over to the state for treatment.

INTERESTING LETTER FROM CHARLES DOVEY IN THE NAVY

July 18, 1917.

Dear Mr. Bates—I get the Journal regularly and through that source learn much of what is happening in Plattsmouth. Not only do I get enjoyment from your paper, but the boys all like to read the news from the home town of one of their shipmates. I see where a lad wrote to the Journal from the naval training station, and of course that is fine, but the life on the ship is ten fold better than that at the training station. I wish the censor would permit me to tell you my duties aboard, but that will have to be done later, as soon as the war is over.

I can just say the navy is fine, and there are many opportunities for a man to learn much; also for a man to serve his country and do his bit in upholding the standards of "Old Glory," and to help overcome all those who oppose Uncle Sam, so as a gentle hint from one who knows the navy is the real life for one patriotic enough to serve his country.

Yours truly,
CHARLES S. DOVEY.

PLENTY OF MEN, BUT WON'T WORK IN HARVEST FIELDS

From Friday's Daily.

Last evening Earnest Nelson, who farms on the Roberts' place, was in town looking for hands to assist in the harvest field, and succeeded in getting some, who wanted to work and would, but at the same time there appeared a large crowd of travelers of the "holo" specie, thirteen in all, and a large majority colored men, looking for work but not wanting it. One was asked if he would take a job pitching hay, when the query was, "How much?" When told to come and see the man who wanted the help the man said, "I guess I will go on up the Missouri Pacific." But they did not go, but made for the resident portion of the city to get a handout. The police rounded them up and landed them in the city jail. Later the most of them "scouted" out of town. One man went to the bakery and bought bread, paying for it and receiving change. This man seemed anxious to work and no doubt would have done so, but the rest did not seem to agree in the matter of working.

NUMBER OF IMPROVEMENTS AT THE PICTURE THEATER

From Friday's Daily.

With the advancement in other things, let us not overlook the improvements which have recently been made in the picture shows, both with regard to the Air Dome and the picture theater uptown. One cannot help but notice the tasty appearance which the recent decorations have added to the front of the Gem theater at the entrance of the show room. While at the rear, the building has been enlarged, and extended to the ally, making the theater building now 140 feet deep. Stages have been added in the rear for players, and the seating capacity has been greatly enlarged so that it is possible to seat about twice as many as formerly. The show-going public should appreciate this added convenience, which has only come about by the expenditure of considerable sums of money.

NEWS FROM MID-PACIFIC.

From Friday's Daily.

Robert B. Windham, of this city, has just received a letter from his son, Samuel Windham, who is located at Honolulu, in the Sandwich islands, and the young Mr. Windham says that they would at the time of the writing of the letter, be out of quarantine in a few days. It seems that on the arrival of a detachment of troops, that they are segregated for a certain time, that if possibly there might be some infection or contagious disease in the new squad arriving, it would not be transmitted to the others.

THE SOX GET IT IN THE NECK SUNDAY

Contest Between the Home Team and Beselins, of Omaha, Resulted in a Score of 5 to 1, in Favor of the Visitors.

Baseball! Yes; that is, we were at the game yesterday; made our first attempt at reporting a game. We walked down, paid our two bits, took a seat in the top row of the amphitheatre, and those there told us to go down to the corner and some one would tell us what to do. We dropped down and got the names of both teams and we were given over for instruction to Bubbins Martin, who is the mascot for the Red Sox—knows more about the game in one minute than we have learned in fifty-eight years.

He instructed us and the game began with the visitors, the Beselins, at bat. Stitt could not find the ball when Hay of the Red Sox tossed it up to Pete Herold, and he had to go sit down. He was followed by Stacy, who as usual to find first. Atkinson trotted around the circle, while Lesmond got as far as third, when Young hew out and our boys tried the bat. Salsburg struck at something in the air three times and missed it. Smith, who played on first base, got that for but did not get away, while Herold and Edwards followed Salsburg, who never touched the ball. In the second Richter was credited with one run, and the other boys failed to get back to the home plate. When our boys came to bat Hay and Grassman got around to third, where they could view the home base, but to get there was refused them by the visitors. In the third Atkinson struck out, and Lesmond tallied, making the score read three for the visitors, but, do you know they would not let our boys have any. They allowed Smith and Salsburg to run around to third but no farther. Then the game was stopped for about five minutes while we listened to an oratorical contest, and a number of the congregation went home. Then the game was on again, and the Red Sox shut out the visitors with three successive strike-outs credited Stacy, Atkinson and Lesmond. The compliment was returned when the other half of the fifth came by striking out Rhoades, Salsburg and Smith. In the sixth Supernois, the pitcher for the visitors, got a tally, and one, two, three, out went Stitt, Stacy and Atkinson because they did not understand what Hay, the Red Sox pitcher, had up his sleeve.

This placed the visitors to the good with four runs and Plattsmouth none. Then Grassman, Pavlec and McCarthy had it slipped over on them. Things were not looking the best and the visitors were not given anything more until the eighth, when Lesmond tallied again, making five runs, with nothing for the home boys. Herold and Hay, by a combination, made a single run, which looked big to us.

Herold by placing the ball down by Cory's pasture fence, got around to second, and Hay, who is an athlete, backed up and took a jump for it and did the same thing Herold had done, and how Pete did run. He seemed to be about three feet over the ground and got home before anyone got in his way. Then the visitors sent Edwards, Grassman and Pavlec to oblivion and the game was over, with the visitors the victors and noisy and our boys hot and happy. Following is the score:

BESELIN.		AB. H. O. A. E.

WORK OF LOCAL RED CROSS ASSOCIATION

From Friday's Daily.

We would like to call the attention of every lady in our city to the fact that the rooms in the Coronado apartment house, reserved for the American Surgical Dressing Association are open each day. Every woman is urged to call at a time convenient for herself, look over the samples and select what kind of work she would like to do. Some of it may be taken home, while, of course, much of it must be done in the assembly room, such as bandage rolling and compress folding. Mrs. George Dodge has charge of the knitted articles—socks, washcloths, eye binders, chin straps, etc., and will be more than glad to show samples to any one who wishes to knit, and teach them how if necessary. The women residing in the country are especially urged to take some knitting home as it may be inconvenient for them to spend much time at the rooms. Mrs. Dodge's telephone number is 167-W, and she will furnish yarn, cotton and materials for knitting, and all information to anyone who wishes it. The regular meeting days are Monday and Thursday afternoons. Each Red Cross membership sold in next week's campaign will help to buy gauze cotton, and outing flannel for the work of the Surgical Dressing Association. We beg each woman to give some little time through the week to this cause.

FRED EGENBERGER HAS COLLISION WITH ANOTHER CAR IN OMAHA LAST EVENING

From Friday's Daily.

While with his family in Omaha last evening, where they had gone via their Willys-Knight automobile, Fred Egenberger, sr., was the victim of a collision where a woman driving a car on Thirteenth street ran into and considerably damaged the machine which Mr. Egenberger was driving. Mr. Egenberger was able to get the number of the car and reported the same, though he did not know the name of the driver. He was compelled to leave the car in a garage there for repairs and with his family came home on the later train. He does not know the extent of the damages done as yet until the workmen at the garage shall have made a thorough examination.

BARNUM & BAILEY CIRCUS IS COMING

Once again the glad tidings are being spread broadcast telling of the coming of Barnum & Bailey's circus. The greatest show on Earth, it is announced, will positively be exhibited within easy traveling distance this season and, as usual, a large percentage of the population will declare a holiday to visit the show.

The big circus will exhibit in Omaha on July 30.

It is promised that nothing to compare with the present Barnum & Bailey performance has ever before been seen under canvas. New and novel features have been imported from abroad and a program of events, thrilling, educational and screamingly funny, will occupy every instant in three rings, four stages, the riggings above and the hippodrome surrounding for more than three hours.

There is a new and gorgeous pageant entitled "Alladin and His Wonderful Lamp," in which nearly 1,400 persons and one thousand animals appear in magnificent costumes rivaling the dress of the people of the famous "Arabian Nights" story. This will be followed by a host of acts in all parts of the great enclosure. There will be sixty clowns, a greatly increased menagerie of wild and untamed animals, four great herds of elephants, several caravans of camels and many recently born baby animals.

The free street parade, which will start from the circus lot at 10 o'clock, on the morning of circus day, is entirely different from anything of the kind ever shown before. It will be three miles in length and there will be bands on foot, on horseback, and riding on top of wagons of red and gold. There will be six bands in all and they will be assisted by three steam calliopes and an electric piano.

With the largest tent in the history of all circuses, the Barnum & Bailey circus wagon promises this season to make good again its boast that it is the Greatest Show On Earth. Five railroad trains, comprising 89 railroad cars, will be required to transport its paraphernalia, and more than 750 horses will be used to transfer its wagons from the railroad yards to the show lot.

J. C. RUMMERFIELD OF THIS CITY INVENTS AN AEROPLANE

From Friday's Daily.

J. C. Rummerfield, better known as "Bud," departed this morning for Omaha, where he expects to dispose of some of his auto hand indicators, an invention of his, a machine which is attached to a car to indicate the direction in which the car is going to go. Mr. Rummerfield expects to dispose of the devices in Omaha and will then go to Lincoln for the purpose of introducing them there. While in conversation with the representative of this paper, Mr. Rummerfield said that he had just completed the designs for a new style of airplane, which cannot be turned over, and on which he will apply for a patent on his return from this trip.

Red Cross Membership—\$1.00.
