

OAKLAND 34

Known To The Nation As The Sensible Six

\$945 F. O. E. FACTORY.

Possesses important feature of design which are found also in those higher priced cars as embodying the very latest and best engineering practices. These superior features, which for two years have distinguished the Oakland Six as a car of unusually advanced design, and which are now employed in the latest models of many of the more costly cars, not to be found in their entirety, in any of the other cars in the Oakland price-class. As a result, the Oakland Sensible Six, in the estimation of the buying public, is raised above the plane of its price, and naturally is compared to and competes with cars of considerable higher price than its own.

Working for the Red Cross

SARAH BEAUMONT KENNEDY In Memphis Commercial-Appeal.

The room is long and wide; the hum
Of quick machines is on the air;
And there is babel soft of many tongues,
And smiles and whispered words are there
In that long room.

Here, too, are gray-haired women looking back
At wavering lines of Blue and Gray;
They stitch into each garment's hem
Pale memories of that vanished day,
And kiss each seam.

For at the tables and the whirring wheels
Are women, sewing deft and swift,
The things a wounded soldier needs
When caught to life from death's dark drift,
Flotsam of war.

And these—these other women grave of face,
Folding the "dressings," lined and pressed?
These are the mothers of the men
Gone forth upon the new war quest
Where Freedom calls.

They come of sires of olden bloody wars,
These sewers in the summer sun;
Through generations long since dead
Their strain of ancestry has run
On History's page.

The brave, proud mothers and the "best beloved"
Of all the gallant men they spare;
They leave a blessing in each fold
And sew in every seam a prayer
That Peace may come.

Here sit, in quiet groups, "Colonial Dames,"
Plying their needles while they tell
Ancestral stories of fierce Indian strife,
And how was brought, through chaos dark as hell,
The Nation's Soul.

So here in this long room are gathered up
The threads that spin the martial creed
Our country holds; and here there brood
The spirit wings that patriots need
Of Love and Faith.

And there the D. A. R.'s knit on and on
And blend a record with the thread
Of how grim Revolution shook the hills
And trampled fields were stained with red
Of their brave sires

The needles stop, the swift wheels softly whirr,
The sun goes golden to the west;
The Red Cross workers fold the garments by:
"God keep each wearer safe and blest—
That is our prayer."

WHITE FAMILY HOLD A REUNION AT SIDNEY, IA.

Yesterday at Sidney, Ia., was held a family reunion of the family of Mr. and Mrs. David Hiatt, the parents of Mrs. Frank R. Gobelman. Mr. and Mrs. Gobelman, from this city, were in attendance, as well as Mark White and his mother, who were accompanied by Geo. S. Ray of near Rock Bluffs. Mark White is a brother of Mrs. Hiatt and his mother, Mrs. I. S. White, is Mrs. Hiatt's mother. Miss Anna Hiatt, teacher of domestic science at Vandalia, Ia.; Miss Martha Hiatt, principal of the schools at Sheldon, Ia.; and Miss Margaret Hiatt, who will teach at the Sidney schools the coming year; Miss Lovey Hiatt, who conducts a millinery store at Sidney, Ia.; and Ivon Hiatt, were present at the home on the farm.

Those from this place went via automobile, and had a very nice trip, starting early. When they had just gotten to the Hiatt home, Mrs. I. S. White, who is 84 years of age, said, "I am feeling fine, and feel like I could make the trip back right now," and with this remark, she fell to the floor from her chair and was quite sick all during the day, but was some improved in the evening. Mark White, George S. Ray and Mrs. F. R. Gobelman returned last evening in Mr. White's car, while Mr. Gobelman stayed to assist in looking after Grandma White and to bring her home this evening, should she be able to make the trip. Otherwise he will remain until such a time as she can make the return trip.

CALLED TO COUNCIL BLUFFS.

This morning Mrs. J. R. Lee received a telephone message from her sister, Mrs. Fred Davis, announcing the very serious illness of a little son of her sister, and requesting that Mrs. Lee come to Council Bluffs at once. She departed on the afternoon train for Omaha, going to the bedside of the little sufferer, who is reported to have been poisoned and was having convulsions, with but little hope that he would recover. The little boy is three years of age and has never been overly stout.

James M. Jordan of near Cedar Creek, was a passenger to Omaha this morning, where he is looking after some business matters.

THE INITIAL RED CROSS DAY IS A BIG SUCCESS

The success of the initial Red Cross day last Saturday was so marked that we now have no doubt of the ultimate splendid finish of the campaign. It was certainly a great pleasure for the ladies to work on the streets, as with one unfortunate exception every man and woman requested to subscribe gave their bit willingly or courteously refused for legitimate reasons. The pretty little booths located along Main street, lovingly shrouded in the Stars and Stripes were the most popular places on our city's thoroughfare, and the encouragement given by one and all gives renewed energy to come out today and spend the week in the service of the Red Cross. We are sure that no one wants to miss the opportunity of becoming a member of this splendid and permanent volunteer society for the aid of the sick and wounded of our army and navy.

ATTEND PICNIC WITH CAR;

LATE IN GETTING THERE

Yesterday morning, starting at about 3 o'clock and going with the big auto of the Bauer garage, C. E. Hartford, Val Burkle, W. L. Egenberger, Fred Wynn and John Bauer, sr., departed for St. Joseph, Mo., where they attended the Fraternal Order of Eagles' convention and picnic, held at Lake Contrary yesterday. Going as they did at that time, they must have had an enjoyable trip, and which should have brought them into St. Joseph at a time when things were just beginning to look up for the day, but an accident going down prevented the party getting there until 4 o'clock in the evening.

GETS FINE FOR BEING DRUNK.

John Miller, who was at Omaha yesterday, returned with a bottle of Electric Bitters, of which he imbibed quite freely, and which made him appear like he was intoxicated. For this he was apprehended, and this morning in county court drew a fine of ten dollars and costs of the case, in all about fifteen dollars.

BACK FROM AUTO TRIP TO DETROIT, MICHIGAN

W. A. Propst, the owner of the garage and the Paige selling station at this place, and who with six additional men went to Detroit about ten days ago for six cars, returned home last evening. These were with Mr. Propst on his return trip: Bryan Snyder, of Mynard; Wayne Propst, and four other men from Union. When they had arrived at Detroit the cars which they were to receive were not made and they had to wait until no talone their cars were completed, but hundreds of others who were before them.

While doing so they all took a trip to Canada, where they had a fine time and were well pleased with the country. Last Sunday they spent their time on what is known as Belle Island, which is about seven or eight miles in Lake Huron off from Detroit. This island comprises some seven hundred acres and a zoo, having all kinds of animals.

Mr. Propst speaks highly of this place as a resort, and says that it took the Plattsmouth crowd all day to see what it had to offer.

Speaking about the Paige factory, he said that they are at this time making about one hundred cars per day. It takes about ten hours to make a car. The frames are first riveted together and placed upon an endlers chain belt, and as it passes along each set of workmen add it in its passage until it gets to the end of the building, where the wheels are added and then the body until it comes out at the other end a finished car. In the finishing of the body nine coats of paint and varnish are required.

In the Ford factory in Detroit they are making over three thousand cars per day and it is wonderful how quick they can convert a piece of steel into a part of a car, almost like magic.

Leaving Detroit they came diagonally through Michigan towards Chicago and found the roads very good, but not so good as the roads in Iowa where the road from Davenport to Council Bluffs was the best on the entire trip. The crops are in excellent condition. While in Detroit it rained most every day. Passing through the corner of Indiana, just the other side of Chicago Mr. Propst found the best wheat on the entire way.

The corn was fine in all the states, and much better and farther advanced than in Nebraska, Iowa, especially showing good condition, with Illinois good, too, in corn as well as other crops. The entire crowd enjoyed the trip and feel that it was worth while, if only for the sake of seeing such a great amount of fine country and good crops. The Paige company is building a new factory, covering in the two floors seventy acres and will then make 300 cars per day.

CAMPAIGN FOR MEMBERSHIP.

There was begun yesterday at the Sunday school at the Christian church a contest for membership increase, as well as the matter of securing the attendance of all who are not members of the Sunday school. A system of credits has been established for the working of the campaign, and all who are members of the school are requested to be in attendance, as your presence counts in the summing up of the contest, which is to be concluded the last Sunday in August.

INJURED WHILE HAYING.

Saturday afternoon, while making hay, Byron Reed, living just north of the city, was injured in such a manner as to render the services of a surgeon necessary. Mr. Reed was working with a horse hay fork, when the fork was being lowered it came with much force and struck Mr. Reed in the face, knocked him down and cut a deep gash in his face just at the side of his nose, requiring a number of stitches to close the wound. He is resting as easily as could be expected but is suffering much pain from the wound.

GIVES PATRIOTIC LECTURE SERMON

The Rev. J. A. Hargett, who if not patriotic, is nothing, gave a masterly discourse last evening to a house well filled, notwithstanding the heated evening. Rev. Hargett reviewed the history of the world, showing from all history the results of the desire of mankind for freedom, and the intrigues of nations, coming down through the dark or middle ages to the compact of the kings of central Europe, touching the incident of Manila bay, when the English admiral threw his fleet in between that of Admiral Dewey and the German men of war, and told the Teutons to shoot when they were ready, showing the long-standing good feeling between the English speaking peoples. It is one of the practices of the church services to salute the flag, and declare allegiance to it, and the country for which it stands, since his ministry began.

WILL HOLD A JUBILEE CONVENTION TO BEGIN ON SUNDAY, JULY 29

The Christian church of Nebraska will hold their jubilee convention at Bethany park, beginning July 29th and continuing for a week. This convention as well as being the regular annual meeting of the Christian board, will also be the celebration of the establishment of the Christian church in Nebraska. The church at this place being the third one to be established in the state. The first church was organized at Brownville and still continues, the minister being Rev. C. P. Evans, now residing at Arapahoe; the second being one at Omaha, which was held first in a blacksmith shop. The third was the one in Plattsmouth, and the first one to be converted in the church at this place was Mrs. Isaac Wiles, who still remains a member, and was baptized in the Four Mile creek west of this city. The Rev. D. R. Dungan will be in attendance, father of Bert Dungan, who ministered to this church, and will address the assembly though now over 85 years of age. He came to Nebraska to teach school in an early day, and becoming converted to the Christian faith, devoted his life to its work.

Mr. Larsh has just overcome the mysteries of operating the car, and can now handle the machine like a veteran.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F.
