PLATTSMOUTH EVENING JOURNAL.

MRS. HARVE GREGG PASSES AWAY AFTER A LINGERING ILLNESS

From Friday's Daily.

After suffering for more than a year, Mrs. Harve Gregg passed away at her home, some twelve miles southwest of this city, last evening, aged 25 years. Mrs. Gregg, whose name was Miss Edna Shepardson, was born in Weeping Water, living there until a few years ago, when she was united in marriage with Mr. Harve Gregg of Murray. They resided in and near Murray for some time, when they went to Havelock to live, and when Mrs. Gregg became sick came back to reside in Murray. During last winter she stayed in Plattsburgh in order that she could have medical attention. Mr. Gregg, who was very solicitous for his wife's welfare, did everything he could to have her health restored. As a last resort she underwent an operation, and tubercular germs were found in her kidneys. Her sufferings were most intense, and for the past week she had not been expected to live. The funeral will occur from the Eight Mile Grove church, tomorrow at 2 o'clock, and the interment made there. A good woman, a most lovable wife, and a true friend to every good is thus called home. The Rev. J. A. Hargett of the Christian church will deliver the funeral sermon.

DR. CAWKINS OF FRE- MONT IS SUCCESSOR TO DR. COOK'S PLACE

From Friday's Daily.

Dr. T. E. Cawkins of Fremont, together with his wife, drove down from that city in the doctor's car this morning, to see Dr. E. W. Cook regarding the matter of the business and work of the head physician of the Modern Woodmen of America, which position Dr. Cook has held for the past twelve years. Dr. Cawkins has been appointed to succeed Dr. Cook, since his promotion to the position of supreme medical examiner of the Modern Woodmen of America. Dr. Cawkins and wife are well acquainted with Claude C. Smith and wife, on whom they called today while in the city. They are also acquainted with Dr. Golding, son of Mrs. Levi Golding of this city, who is practicing his profession in Fremont.

JOHN DUKE OF OMAHA IS KILLED BY LIGHTNING BOLT

Benton Harbor, Mich., July 26.—While bathing on the shores of Lake Michigan at Lakeside, a village north of this city, late Wednesday, immediately following a terrific storm, John Duke of Omaha was struck by lightning and instantly killed, while his chum, Frederick Rich of Chicago, was perhaps fatally shocked. Duke and Rich had come here only a few days ago to spend a brief vacation. Both were good swimmers and no apprehension for their safety was felt when they entered the water.

Rich is still unconscious and small hopes are held out for his recovery.

John Duke is the son of Elbert T. Duke, formerly of this city, and a grandson of John S. Duke, who for years conducted a hardware store here years ago.

MAKING ANNUAL REPORT.

From Friday's Daily.

Mr. and Mrs. E. W. Richards, from Ashland, the latter the guardian for her brother, Mr. Lloyd Wortman, incompetent, came in this morning on the annual report before the county court. Mr. Richards reports things looking fine between here and Ashland, but says the farmers need rain.

WILL BUILD GRANARY.

From Friday's Daily.

George A. Kaffenberger, while he lives in the city, still is farming and working on one of his farms every day. Today he went out to begin the construction of a granary on one of his farms. This farm, which is just west of the Bestor farm, has had no place for the storage of small grain crops, and Mr. Kaffenberger is preparing for the harvest he is now reaping.

RETURNS AFTER FUNERAL OF DAUGHTER.

From Friday's Daily.

Rev. J. B. Jackson, pastor of the United Presbyterian church at Murray, who was called to Waterloo, Ia., some time since, on account of the serious illness of his daughter, wife of Rev. M. G. Mumford of that place, and who has since died, returned this morning over the Burlington, changing cars here for Murray. Rev. Jackson in speaking of his daughter, whose funeral was just held, said she was the mother of four children, who besides the husband are left to mourn her death.

EVERYBODY MUST HELP TO KEEP UP BOOM FOR THE CITY

From Friday's Daily.

Communities were instituted among men for the mutual convenience of the citizens thereof and that all might equally enjoy the benefits of a community of interests which prevail. The system of taxation which has in view the placing of the burden of bearing the expense of the community, equally on all as they are able to bear it, is just and equitable. All who receive the advantages of residence in a community are in honor bound, if in no other way, to contribute to the betterment of that community. Plattsburgh, yes, our own city—and it is ours if we make it our home—we who receive the benefits which this city affords, whether it be the good business it enables us to do, the agreeable place for the home nest we build, or any other thing which seems good to us, and we continue to live here and enjoy them, calls from us an effort to make this the best town possible.

We should trade in this town in preference to another, when the conditions are anywhere near equal. If we are in business, to give as much as we can in value and satisfaction, not presuming to draw on the customer's patriotism for the city to hold him to the mark alone. Both buyer and seller have a portion to do, and should do it freely and willingly. Now we want to say a word about the matter of boosting for the city in all its ways.

The newspaper which is published in a city and has not the interests of that city at heart and does not work with that end in view has not received a vision of what its real mission is. In the matter of the dissemination of news, the paper always is glad to exert its utmost efforts in making the town in which it is published the best that can be made. True it is that a paper is published for profit, and all business is based on this principle, and when this is not so look a little out, for the man or company is not free to say that he expects to make the business pay, as all should, is a laudable idea. All citizens are much the same and all expect something when they buy it. The subscriber, who after he has picked up a paper and looked over it and finds nothing of interest in it throws it down and says "There is nothing in that paper," and then when the news gatherer comes to him when he has items of interest and he does not know it, or does not want to give them, because he feels the paper needs them, has not a kick coming and is not entitled to receive a good paper. To make a good paper all of the citizens of a community should work conjointly to the end that the entire community is benefited.

HIGH SCHOOL BUILDING.

From Friday's Daily.

The new high school building, which is in course of building, is making good progress and is assuming shape. Though the contract is a large one, the work which has already been done make the walls look like the building it is to be. From the footings one can now estimate its size in the amount of ground which it will cover. The progress of this building is of interest to all and public interest will be manifested as the building construction progresses.

MEETS BOARD OF EDUCATION.

From Friday's Daily.

Prof. W. E. Atkinson of Exeter, where he has been principal of the schools for the past three years, and before that, principal of the schools at Lawrence the preceding six years, was an over night visitor in the city, and met with the board of education concerning his application for the position of superintendent of the city schools. Mr. Atkinson is a very nice appearing young man. He departed for his home this morning, awaiting the decision of the board regarding his application.

HOUSE G. O. P. NOT TO HOLD UP FOOD CONTROL

Republicans Won't Join Mann in Fight for Committee to Advise President.

HALF HOUR'S BITTER

DEBATE AT MEETING

No Partisan Fight Can Command Support Minority Leader is Informed.

Washington, D. C., July 26.—While senate and house conferees were beginning their work today on the long delayed food control bill, sentiment among house republicans crystallized against further delaying enactment by continuing Republican Leader Mann's fight for creation of a joint congressional committee on war expenditures.

At a conference of republican representatives it was made clear to Mr. Mann, according to those present, that no partisan fight on the question at this time could command the support of the party's representation in the house.

In the hope of getting the measure through conference and ready for President Wilson's signature next week was brightened somewhat by the development, but the leaders pointed out that even with agitation for the war committee amendment silenced in the house, the senate remained on record as favoring it and a fight there still was possible.

The president has asked that the provision be eliminated because he believes it will only harass those charged with conducting the war.

The conferees met twice today, but accomplished little. They pledged themselves to absolute secrecy during their deliberations, but it is known that they passed over the unopposed senate amendments for the time being and discussed generally differences between the two houses over amendments. Included in these were the proposals for a war expenditures committee and for a food control board of three members.

The newspaper which is published in a city and has not the interests of that city at heart and does not work with that end in view has not received a vision of what its real mission is. In the matter of the dissemination of news, the paper always is glad to exert its utmost efforts in making the town in which it is published the best that can be made. True it is that a paper is published for profit, and all business is based on this principle, and when this is not so look a little out, for the man or company is not free to say that he expects to make the business pay, as all should, is a laudable idea. HIGH SCHOOL BUILDING.

From Friday's Daily.

The hen that lays is the hen that pays. If she does not lay, kill her, but before you kill her give her B. A. Thomas' Poultry Remedy twice a day for a week, and then you will not kill her, for she will be paying you a profit. It not only makes her lay but it is a remedy for cholera, roup, and gapes. We guarantee it to cure or we refund your money. H. M. Soenichsen, Puls & Gansemer.

HARVESTING SEASON IS NOW ON!

We are prepared to take care of meat and grocery orders. Just call us up and let us know what time you want it and will have your order ready for you. Don't forget this is "Your Market and Grocery."

BUILDING NEW HOUSE.

From Friday's Daily.

A. L. Huffner, who lives about three miles southwest of the city and who is building himself a new home, is making good progress, having the frame work up and enclosed with the boxing, roof on, and a portion of the siding. When completed this will make one of the loveliest of farm homes, the location being superb and within such close proximity to the city.

PRESENTED FINE TRAVELING BAG.

From Friday's Daily.

Yesterday just as the workers were completing the reaping of a field of wheat at George Kaffenberger's, Mr. Kaffenberger noticed a thin curl of smoke issuing from a wheat shock in the middle of the field, and hurrying with the workers to the spot, were able to get another shock out of the way, though the one afire was consumed. As to how the fire originated is a mystery as none of the workers smoked or had matches about them.
