

The TRACTOR PAYS ITS WAY

If the man who runs it gives it a chance by using an oil made specially for it.

STANOLIND GAS ENGINE TRACTOR OIL

Recommended by leading engine builders and manufacturers, it is best for the tractor because it is made for the tractor. Clean, carbon-free and stable at high temperatures. Lubricates both cylinders and external bearings. Cuts friction to a minimum. Use Stanolind—it means more power at the draw bar and less time out for repairs.

VISIT HERE SUNDAY.

Samuel Gochenour and family and Peter Birdsall and family, both from near Missouri Valley, Iowa, drove down yesterday in Mr. Birdsall's car for a short visit with relatives and friends, and were guests of the Gochenour boys and mother, Mrs. Sarah Gochenour, and others, returning last evening. They would have liked to have stayed for a longer visit, but were busy in the seeding of their fall wheat, they being farmers and had to return home to complete the sowing.

BACK FROM NEW MEXICO.

Edward Maurer and wife with their little son, who have been spending the past week in Clayton, New Mexico, returned home last evening, well pleased with their trip. They have a piece of land there, as also have their father, John Maurer, Sr., and a brother, John Maurer, Jr., and Rev. A. L. Zink, who formerly preached here. They all having gone there some years ago and taken their land by homestead entry. Mr. Maurer says there has been twenty-six business buildings erected since they lived there and five hundred dwellings.

Experience the Best Teacher.

It is generally admitted that experience is the best teacher, but should we not make use of the experience of a thousand persons is more to be depended upon than that of one individual. Many thousands of persons have used Chamberlain's Cough Remedy for coughs and colds with the best results, which shows it to be a thoroughly reliable preparation for those diseases. Try it. It is prompt and effectual and pleasant to take.

HOLD FAMILY REUNION.

Yesterday at the home of L. V. Copenhagen in this city, was gathered together a crowd of relatives from many points, over the country, who renewed former relationships, and, in some instances new ones. They celebrated the former times which were had in Virginia, and renewed in Nebraska. They had a picnic dinner, many of them coming in their cars from surrounding towns. There were there to celebrate the occasion, Norman Copenhagen, father of L. V. Copenhagen, formerly of Virginia, but now of Murray, Thomas Copenhagen and son, Bryan, of Salem, Virginia, Stephen Copenhagen, and John Farries and family of Murray, C. F. Harris and family, of Union, Thomas W. Copenhagen and family, Fielding Copenhagen and family, Walter Whitehead, and family, all of Syracuse, Nebraska, and with W. H. Preese and family of this city making in all to set down to the dinner, thirty-six persons.

GAVE KITCHEN SHOWER.

Last Saturday night the teachers of the public school gave a kitchen shower at the home of Mrs. J. V. Eckenberger to Miss Maurine Hughes, who is in the near future to become a bride. The house was decorated with pink and white hearts and potted plants and carnations, with the maintenance of the color scheme of pink and white. The evening was passed with music and song, interspersed with good stories—of such nature that they brought roars of laughter. The evening was made the more delightful by the serving of a delicious luncheon at nine o'clock. Miss Hughes was the recipient of a large basket full of kitchenware and household utensils.

PERMANENT ROADS TO PUT NEBRASKA IN THE FRONT RANK

HIGHWAY SYSTEM PLANNED BY STATE ENGINEER TO TRAVERSE EVERY COUNTY.

Money Already Appropriated and Work to Begin Without Delay.

Lincoln, Neb., Sept. 23.—Nebraska's permanent highway system, with a complete chain of roads traversing every county of the state and stretching for several thousand miles, has been laid out by State Engineer George E. Johnson.

These highways will be developed with a federal good roads appropriation of \$1,600,000 and a like amount from the state. Work toward a permanent system of highways in Nebraska is to be started next spring, according to present plans, Mr. Johnson declared. When completed the highway system will furnish a connected net of roads which will place Nebraska in the front rank of good roads states, Mr. Johnson said.

Divided Into Districts.

Under the plan adopted by Mr. Johnson, the state has been divided into nineteen "project districts," each including from four to five counties. Work will be started in each district at one end of the continuous route through it, and will be carried on progressively for five years, until the entire selected highways have been improved throughout their whole extent. The 1917 legislature appropriated a sufficient sum to match the money from the federal allotment, which will be available during the biennium, so that work can proceed without any delay.

Federal and state funds are to be allotted among the counties on this basis Mr. Johnson said: One-third of the total sum in proportion to the area; one third in proportion to the population, and one-third in proportion to the mileage of rural and star mail routes in each county.

To Use County Funds Also.

Counties are expected to use their own funds in connection with those provided by the federal and state governments, and are given authority to vote special levies not exceeding five mills for the payment of bonds which may be issued to secure money with which to carry on the work. Ordinary county road funds may also be devoted to permanent highway construction.

The state engineer is now working upon the apportionment of state and federal funds for each county, and will announce it shortly.

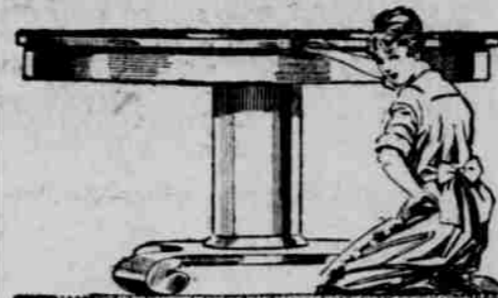

"Every county will be given its exact share under the law," said Mr. Johnson. "Some counties may not receive any funds the first or second year, but all will receive the amount which they are entitled to before the end of the five-year period allowed for construction elapses."

Map Shows Plans.

Mr. Johnson and his assistants have completed a large map of the entire state showing the exact layout for the highway improvements. The work of locating them has occupied the greater portion of the time of the state engineer. He has personally visited a large number of the counties of the state in making his selections of roads for improvements.

The nineteen project district as designated by the state engineer are:

- Richardson, Pawnee, Nemaha, Johnson and Otoe.
- Cass, Sarpy, Douglas, Saunders and Butler.
- Washington, Dodge, Colfax, Burt and Cuming.
- Thurston, Dakota, Dixon, Wayne and Cedar.
- Stanton, Madison, Pierce, Antelope and Knox.
- Platte, Boone, Nance, Merrick and Polk.
- Lancaster, Seward, Saline, Gage and Jefferson.
- Thayer, Nuckolis, Clay, Fillmore and York.
- Adams, Kearney, Webster and Franklin.
- Hamilton, Hall, Howard, Sherman and Greeley.
- Custer, Valley, Wheeler, Garfield and Loup.
- Holt, Boyd, Rock, Brown, Keya Paha.
- Cherry, Sheridan, Dawes and Sioux.
- Scottsbluff, Banner, Kimball, Cheyenne and Deuel.
- Box Butte, Morrill, Garden, Arthur and Grant.

CAR OVERTURNS WITH INEXPERIENCED DRIVER SUNDAY

YOUNG LADY AND MOTHER ARE INJURED IN FORD ACCIDENT NEAR HERE.

Had Been to Omaha to Visit Relative in Hospital—Now Two Members of Party There Themselves.

A young woman attempting to drive a car about which she knew but very little, resulted in two people being seriously injured last evening, and the car badly wrecked in addition. August Bade, wife and daughter, of Dunbar, together with the husband of another daughter of the Bades, who is in the Lord Lister hospital at Omaha, had driven to the metropolis from their home at Dunbar to visit with the daughter, Mrs. Louis Reutter. On their return Mr. Reutter drove the car, as in going. After they had passed here on their way home at the corner east of Myrard, near the parsonage, Miss Helen Bade asked to drive the car, and Mr. Reutter allowed her to get over in the driver's seat, while he took the one she had occupied. The car was started by the young lady and going up the line did fairly well, until they came to a place near Lee Coles' where the road is very rough, and the car being difficult to drive, got to wobbling back and forth across the road. In her attempt to get it going straight the young lady turned the gas control lever and the car shot quickly onward toward the east embankment at the roadside. A sharp turn threw the car over, pinning the driver and her mother underneath, but the two men and another young woman who was riding with them escaped without injury.

Will E. Propst was telephoned for and hastened to the spot, bringing the occupants of the car to this city, where they were treated by Dr. Flynn. The doctor found the elderly lady, Mrs. Augusta Bade, suffering with a broken shoulder, as well as a dislocation, making a very complicated case, and the driver, Miss Helen Bade, with a hip dislocated. They were hurried to the Lord Lister hospital by Mr. Propst and are there for treatment now. The injuries are of a very serious nature and it will be some time ere they can be out of the hospital.

Mr. Propst brought the car to Plattsmouth and s repairing it at his garage. It presents a rather demoralized appearance from its experience.

DO YOU BITE FOR SOLDIERS' LIBRARIES

How shall our boys in the military camps be supplied with the right kind of reading matter, is a very important question.

Secretary of War, Baker, has placed the matter in the hands of the National Library War Council with the endorsement of President Woodrow Wilson. This National Library War Council are asking that \$1,000,000 be raised for the purpose of furnishing reading matter for the soldier boys and the appointment has been made to the various states, direct to each State Library Commission.

Miss Charlotte Templeton, Secretary of the Nebraska Public Library Commission has notified Miss Barbara Gering, Secretary of the Plattsmouth Public Library Board, that the amount of the apportionment of Plattsmouth and vicinity is the sum of \$429. The Plattsmouth Library Board have selected the names of about 100 persons that members of the Board are asking to become solicitors, and each solicitor is requested to raise the sum of \$5.00, so that when you are requested by any member of the Board to become a solicitor, do not offer any excuse as it is all voluntary work and all done for the welfare of the boys in the camps. The drive for the million dollars is to be made in every part of the United States commencing Wednesday, Sept. 26th. Let every solicitor start with a vim on Wednesday morning and let the matter be completed by Saturday night.

GETS ONE HUNDRED AND COSTS.

Last Saturday evening, Sheriff Quinton, armed with a complaint from County Attorney Cole arrested Wm. Armand, charged with selling intoxicating liquors, and was given a hearing before Judge Beeson, who assembled a fine of one hundred dollars and costs for the infraction of the law.

Not having that amount of a bank account, or the ready cash, nor friends who wished to stand sponsor for the misdeeds of Mr. Armand, he is now staying at the Hotel DeQuinton, for a period.

For some time Chief Barclay has had Wm. Armand under surveillance, and had allowed the matter to rest until he had sufficient evidence and knew where it was, then filed information against him with County Attorney Cole, with the result, that he with the county sheriff and attorney made the raid which landed the man.

Since the above had been in type, Edward Sheen, of Manley, has gone on a bond for the release of Wm. Armand, and he has been set at liberty for the time.
