 To enjoy life we must have good health. ALLIES CONTINUE TO PRESS AROUND THE GERMAN ARMIES!

ALLIES PROGRESSING EVERYWHERE EXCEPT NEAR SOISSONS, WHERE NEW FOE ARMY IS PLACED.

Franco-American Push North of Chateau-Thierry Turns Into a Fierce Battle for Possession of Forest in This Region.

London, July 26.—On all sides of the German salient the allies are reported today to be continuing to make progress, except on the heights behind Soissons. The German resistance to the French pressure has been very determined in this latter sector. The advances reported elsewhere are for the most part slight.
 On the other side of the salient just to the west of Rheims the allies lost the town of Mery and Hill 204 to a German counter-attack but retained Virgny and the greater part of the line thereabouts looking toward Fismes.
 The allies in this sector hold Marfaux, Bouilly, St. Euphrasie and Courton wood.
 Between the Oureq and Chateau Thierry the Franco-American line now shows an advance beyond the line of a week ago of from six to eight miles.
 Americans Push Ahead.
 With the American Army on the Aisne-Marne Front, July 26.—The Franco-American push north of Chateau Thierry has resolved itself into a battle for the woods, which abound in this region. The Germans are fighting a rear guard action with their artillery and machine guns, retiring gradually before the allied forces. The German infantry is not in evidence.
 The indications early today were that the enemy was making preparations for a further withdrawal. He has been struggling to hold the northern half of the forest of Fere and of the forest of Ris, but the allies are making progress in the work of ousting him from the remainder of these woods.
 The allied troops moved up their heaviest guns early in the day and were throwing shells into the German lines as far as Saponay, (5 1/2 miles northwest of Oulchy-Le-Chateau) and beyond Fere-En-Tardenois (2 miles southeast of Saponay). The districts to the south were also being peppered by allied shells.
 The Germans have been using much "sneeze" gas, but ineffectively.
 The poplar and oak forests of Fere and Ris are filled with underbrush and the allied forces are having a stiff job to get through them but are continuing the push night and day. The German machine gunners and artillery are desperately contending for every inch of ground before giving it up.
 This morning the battle in the woods was still in progress.

How to Spend Your Back Pay

Of course you are seeking advice on this perplexing problem, and no doubt there are plenty of people willing to help you out, however, here is a suggestion we think will pass muster:

- 1st. Buy War Saving Stamps.
- 2nd. Buy clothing, and buy now.

Both of these will make you money. With the 1st you will be doing your country a good turn. With the 2nd you will be doing yourself a mighty good turn.

We cannot impress this upon you too strongly. We do not know where you could invest \$50 to earn greater dividends than in clothing purchased now. Our big stock at Peace Time prices has enabled many a man to provide against the evil day of poor qualities and high prices—it will do the same for you if you act now. Such values as we offer now at \$18, \$21 and \$25 will soon be out of reach.
