Some of his experiences are mighty interesting.

Mrs. L. D. Switzer returned home from Detroit, Mich., the day before Xmas. She has been with her daughter, Mrs. W. W. Swisher, and reports a fine granddaughter, Dorothy Jean, born November 7, the day the first news of peace came. They thought Dorothy Jean was a peace baby but the authentic news of the armistice did not come till a few days later. Mr. Swisher was taken ill with the flu and Mrs. Switzer extended her visit to care for him.

He has attained the rank of an ensign and has been assigned to his ship, but now that the war is over even this position has lost much of its zest and he prefers the life of a civilian and expects soon to receive his release. He spent Christmas here with his parents, Mr. and Mrs. P. A. Jacobson.

## INFLUENZA STILL CLAIMING VICTIMS BY THE THOUSANDS

Epidemic Breaking Out Anew from One End of the Country to the Other of Late.

Warning to the country that the influenza epidemic is by no means ended, and that all possible precautions against the disease should be taken has just been issued by the public health authorities at Washington.

Late reports show that the disease is breaking out anew in its worst form from practically one end of the country to the other. Already there have been over 300,000 deaths from the disease and one prominent health official predicts that there will possibly be 750,000 deaths in this country next year from influenza and the ailments which follow it. The disease has been very baffling to the medical profession and health authorities frankly admit that ordinary preventative measures such as wearing of masks and closing public places seem of little avail.

Persons who are weak and run-down, and who have not the strength to throw off the influenza germ, are the earliest victims. Those who catch colds easily or who are suffering from catarrhal troubles are also early victims, as the inflamed mucus membrane linings of the nose and throat are an open door to the germs. If you are suffering from any of these symptoms, nothing will build you up and fortify your system against attack like Tanlac, which contains the most powerful tonic properties known to science. This statement is easily proven by the fact that this celebrated medicine is now having the greatest sale of any system tonic in the history of medicine. It has been accomplishing remarkable results during the present epidemic and hundreds of thousands who have used it are enjoying the best of health. One prominent physician in Texas frankly stated that he had found Tanlac to be the finest tonic to be had for building up his patients who had had influenza.

Actual experience has shown that the best way to keep from taking influenza is to keep the system in good shape as it is a well known fact that the powers of resistance of the human system can be so perfected that it can throw off almost any infection, not even excepting Spanish influenza, which is one of the most contagious diseases known.

Tanlac increases your strength and weight and creates a good, healthy appetite for nourishing food. It keeps you physically fit and makes you strong, vigorous and well, and in this way fortifies you against deadly disease germs. In connection with the Tanlac treatment, be sure to keep the bowels open by taking Tanlac Laxative Tablets.

Tanlac is sold in Plattsmouth by F. G. Fricke & Co., in Alvo by O. E. Copes, in South Bend by E. Sturzenegger, in Greenwood by E. F. Smith, in Weeping Water by Meier Drug Co., in Elmwood by L. A. Tyson, in Murdock by H. V. McDonald, in Louisville by Blake's Pharmacy, in Eagle by F. W. Bloomenkamp, and in Union by E. W. Keedy. (2tw)
