LUNCHEON OF WOMAN'S HOME MISSIONARY SOCIETY

From Saturday's Daily.
 The Woman's Home Missionary Society of the Methodist Church held a luncheon on February 12th, at the home of Mrs. Kaffenberger in honor of Mrs. Hill and her group of workers of last year. At one o'clock the guests found their places at small tables arranged in the large living room and were served to a three course dinner by Mrs. Kaffenberger and Mrs. Babbitt with their excellent assistants. While the ladies thoroughly enjoyed the leisure in which to eat, talk and laugh, their tables were pushed aside and

forming a big family circle the length of the room another hour was spent in answering questions, both patriotic and missionary, which were found on the place cards. Then the two entertaining captains chose sides and a question contest was held in which Mrs. A. V. Hunter carried off the prize of a small silk flag. At this time there was presented to Mrs. Hill, a gift from the society, in appreciation of all she has been to its organization and of the love the members bear her both as a friend and as one to whom they carried missionary difficulties. Mrs. Hill replied more with looks than words which made us feel more deeply how loathe we are to lose her from our fellowship. Several guests felt then that they must depart but those who remained spent another hour with their missionary game, "Who's who, and What's Where?" which brought a fitting close to the afternoon's enjoyment.
 Before leaving it was decided at the request of Mrs. Hill to hold our next regular business meeting with her on Thursday, February 20th, with Mrs. John Elliott, assistant hostess. All members come and visitors are always welcome.

They entertained their friends at supper, and by the way, Mrs. Lynch is one of the finest cooks, extant, and master of the culinary art, as we can testify, as we were one of the fortunate ones who partook of the viands prepared for the occasion.

 Repair Machinery Now.
 The overhauling of farm machinery and making repairs before the field season opens is being urged by agricultural workers. Blacksmiths are not very busy at this season of the year, and it is a god time to have plows and discs sharpened, new sections put in mower sickles, the lister and planter repaired and regulated, and in fact all machinery thoroughly examined for the need of new parts, repairs and regulations. It is time to order repairs for the grain harvester, for it may take two or three months to obtain new parts. Time devoted to making repairs now may mean a big saving later on.

 The "Climax" ensilage cutter operates with less power than any other. It cuts and elevates silage in one operation and the ensilage is always cut clean—not hacked or torn into unequal lengths. Both "Everlasting" silos and "Climax" ensilage cutters are made in sizes to suit every farmer.

960 acres in Holt county, Nebraska, consisting of 600 acres under cultivation; 80 acres of alfalfa and balance hay land and pasture. This land lays level and is all good hard land. No sand. It produces as well as eastern Nebraska land; corn last year made 49 bushels per acre. Four sets of improvements, consisting of houses, barns, corn cribs and granaries, hog houses and other small buildings, wells and windmills. The land is fenced and cross fenced; four hog pastures in alfalfa, fenced hog tight. Running water in pasture; wells are 30 feet deep and furnish an abundance of good water. I am offering this tract at \$65.00 per acre and will take in an eastern Nebraska farm as part payment. As there are four complete sets of improvements this can be divided to suit purchaser.
