## How A Good Barn Can Make You Money

WITH the present price of feed it doesn't take very big wastes to run into big money. A poor barn that lets the cold and damp of winter sift through the cracks is a feed waster—and a money waster.

Nature first converts feed into animal heat to keep the animal alive. Bene building and flesh building follow. In a poor barn your feed produces only heat. In a good, warm, weatherproof barn your feed goes into milk and beef—into money and profits.

The essentials of a good barn are good materials, proper construction, light, air and insulation.

Other materials than wood have been used in barn building but nothing has yet been found that makes as warm and dry a barn as a well built wood barn. And for long life and minimum of repairs, your barn should be covered on the outside with White Pine.

Practical working plans, specifications and bill of material for the above type of barn, or any other farm building, will be furnished on request, together with our estimate of the cost. We will gladly arrange the floor plan with you to suit your individual needs.

According to our honorable Secretary of Labor, W. B. Wilson, we quote: "I WANT TO BORROW MONEY ON WHAT HE PUTS IN. THE HOME; HE CANT ON WHAT HE PAYS OUT FOR RENT. THAT'S THE PROBLEM TO SOLVE. WE HAVE A GOOD ASSORTMENT OF PLANS, HOUSES, BARN, CHICKEN HOUSES, BIRD HOUSES, CRITTS SHEDS, FEEDING BUCKS, GARAGES, SHELTER SHEDS AND IN FACT ANYTHING THAT CAN BE CONSIDERED ONE OF NUMBER OR GENERAL. KEEP YOUR FINGER ON OUR PULSE, WE'RE NOT CHIN ON YOURS."

Henry Tool and family, H. W. McDonald and family and Mr. and Mrs. George Nicholas, of Omaha, spent Sunday at the latter's camp near Gretna, Nebraska.

Work is progressing nicely on the fine new home of Henry Tool and family, which will be an all modern bungalow of brick veneer. George Nicholas, of Omaha, is laying the brick. The home is located in west Murdock and will be a beautiful building.

Mrs. William Rush left Saturday evening in response to a telegram received from Hemingford, Nebraska, stating her daughter, Mrs. Verna Brittain was lying in a critical condition. Later a message was received stating that she was better, which was indeed good news.

Mrs. Clara Hartung, of Kansas City, who is spending the summer with her parents here, returned Saturday from Omaha, where she had been for a few days. She was accompanied by her little daughter, Miss Eleanor, who had been visiting in Omaha for more than a week.

John Murtey went to Omaha on business Friday evening.

Ray Clark and Arthur Skinner played ball in South Bend Sunday.

### Four Generations of Meisinger Family

The above picture shows four generations of one of the oldest and most highly respected families of this county—the Meisingers. The older brothers of the Meisinger family settled in this county many years ago, and have always been among the very best and most progressive farmers in the county. In the picture above we show Mrs. J. H. Meisinger, her son, Adam Meisinger, Adam's son Ralph and his son, Gerald, all residing near Cedar Creek. Mr. J. H. Meisinger, who died about two years ago, came to Cass county from Pekin, Illinois, 44 years ago, and settled on a farm west of Plattsmouth, where he lived a long and useful life, and where the remaining members of his excellent family have taken up life's battles where he left off, and are carrying them to the same successful end. There is no community that cannot be bettered by having some Meisingers in their midst.

Fremont Saturday to visit relatives. Mr. and Mrs. Carroll and children, of Lincoln, who were former residents of Alvo, called Sunday afternoon at the G. P. Foreman home.

Mrs. George Foreman, son, Joe and daughter, Miss Aurel and cousin, Mrs. Sam Cashner, motored to Lincoln last Wednesday. Mr. Cashner returned home with them.

Mrs. John Murtey went to Clay Center Saturday to accompany her life niece, Helen Price, who has been visiting her for several days, to her home.

Mrs. Dale S. Boyles and Miss Clara Dickerson entertained Miss Hazel Peeter of North Bend for the week end. They gave a picnic supper Saturday evening in her honor.

Mr. and Mrs. Charles Kirkpatrick returned home last week from a month's stay in Brighton, Colorado, visiting in western Nebraska on the way out and in Kansas on their return trip.

Mrs. Clara Prouty received a letter this week from her son, Herbert Prouty, who is in the U. S. navy, stating that he was starting on his fourth trip across, going to England this time instead of France as formerly.

It is rather disquieting to the force, who find numerous additional duties devolving upon their shoulders through the absence of the cashier, but we opine that as soon as the workmen finish the job things will resume a normal status once more.

### GETTING ALONG WITH THE FARMING

From Monday's Daily. Geo. L. Farley was at the office at the court house this morning, where he is looking after the affairs of the county assessor, which he has been having. Mrs. Farley and Ralph Marshall looking after it during his absence working on the farm, he being farming on the place of the Misses Horning. Mr. Farley has the work well in hand, having the corn all laid by, and the harvesting done, but still has the stacking and threshing to look after.

### WILL MAKE HIS HOME IN WEST

From Monday's Daily. A deal has just been consummated whereby John H. Becker has disposed of his residence property in this city, selling the same to his son, P. T. Becker, who will occupy it himself. The elder Mr. Becker will depart a little later for Los Angeles, California, where he and family will make their home. George Becker will also make his home with them in the west.

### WORKING WITH THE HARTFORD COMPANY

From Monday's Daily. Claude C. Smith goes from drugs to fuel and this morning, his smiling face greeted one as he entered or passed the offices of the C. E. Hartford Fuel company. Mr. Hartford is very fortunate in securing the services of Mr. Smith, as he is a very clever gentleman and an earnest and enthusiastic worker, one who pieces every care and circumspection in his work.

### BEGINS THRESHING TODAY

From Monday's Daily. Today R. L. Propst began threshing for the season, his first job being at the home farm of his mother some eight miles west of the city. Mr. Propst will charge for the season eight cents for oats and ten for wheat. The unusually heavy yield of small grain this year will prove productive of much business in the threshing line and it is a safe bet that every available outfit will be pressed into service. Some of the few who have already threshed claim the wheat is not proving as good as it gave promise of being, as there is a good deal of shrinkage they say.

### IMPROVEMENTS AT THE PLATTSMOUTH STATE BANK

PAINT, WALL PAPER AND ELECTRIC LIGHT FIXTURES ADD TO ATTRACTIVENESS.

Semi-Indirect Lighting System Will Afford Maximum of Light with Minimum Eye Strain.

From Monday's Daily. As a Journal reporter dropped into the Plattsmouth State Bank a few days since he was greeted with scenes of general disorder and it at once became apparent that painting and paper-hanging was going on. Today the scene is changing and out of the chaotic condition has come beautiful papered walls, with a paneled wainscoting of beautifully grained design extending from the floor to a height of about three feet.

The front of the building has responded to the touch of the painter's brush while the interior woodwork has also been treated to a "going over."

Another improvement, and which is now under process of installation is the new semi-indirect lighting system. Four large hanging fixtures, so arranged as to spread even rays of mellow light to even the darkest corners of the room will provide ample light for all purposes as well as improve appearances wonderfully.

Coming at a time when the cashier, Henry Schneider, is out of the city, the torn-up condition of affairs

## AMERICAN ARTIST COMPANY

NOTED ARTISTS ON OUR CHAUTAUQUA PROGRAM

Never before have we had the privilege of hearing such a group of artists on our chautauqua platform. We are to be congratulated in having the American Artists as the third number of our chautauqua. We will be privileged to hear the finest ensemble singing that is possible with a mixed quartet. Solos, duets, trios—they will give a program ranging from the best operas, oratorios, up to date musical comedy, as well as the old folk songs so well loved.

The personnel of the company presents such artists as Alice Widney Conant of St. Louis, who has studied in Boston, New York, London, Paris and Spain with the best known teachers and instructors. She has a beautiful soprano voice of wonderful clarity and sweetness, aided by faultless diction.

Merel Ophel finished her musical education in Boston. With her contralto voice and gracious personality, she never fails to please.

Homer Compton comes from the faculty of the University School of Music, Lincoln, Nebr. A second John McCormack, a lyric tenor, a fine musician—a delight to hear and to meet.

Roger Bromley of New York City, one of America's finest baritones. The critics claim the best baritone outside the Metropolitan. Biggest artist ever offered to a chautauqua.

Minnie Stalder, pianist and accompanist, from the faculty of the University School of Music, Lincoln, Nebraska, charming and delightful.
