While every endeavor has been put forth to secure an additional teacher to handle the increasing amount of work in the Union public schools, due to the addition of the normal training and domestic science course, it does not seem possible to get one. The present corps of teachers are making a heroic effort to handle the work and are dividing the added burden up among themselves as best they can and it looks like they will have to get along that way until the board is able to secure the much needed assistance.

David Child to Marry
David Child, who is the agent for the Missouri Pacific at Cook, and who was formerly located at Manley, has been enduring the inconvenience of no home for some time, and has concluded to take unto himself a wife to double his joys and divide his sorrow. Taylor Wilson, the traveling agent for the road, who has just been looking after the business here during the absence of Mr. Swanson will look after the business at the Cook office while Mr. Child and his bride are away on their honeymoon.

Ducks are Now on the Wing
With two sharp frosts and the October variety of weather with us, it is evident that the duck hunting season has arrived. Last Monday Fred Clark and his nephew, Ira Clark, proprietor of the Union barber shop, departed for the Missouri river and with the clouds plentiful they enjoyed a few hours shooting at the ducks on the river. Ducks as a rule are pretty clever, but two got directly in line with the guns of our local sportsmen and the poor things were killed. In this the ducks themselves were to blame and no one should accuse the hunters of wantonly killing the feathered creatures. A third bird was killed, and for this the innocence of the hunters cannot be pleaded, for they did it intentionally, both firing at it, and then, fearful lest it might get away, beat it to death with a club.

Doing Satisfactory Business
The mercantile establishment of Mrs. Thomas Cromwell, which is being conducted in Union, under the management of Mrs. Mable Reynolds, assisted by J. F. Wilson, is showing increasing patronage daily, and is doing a very satisfactory business. Both the manager, Mrs. Reynolds, and her assistant, Mr. Wilson, are able business people and are increasing the popularity of the institution as time goes by.

Were Floating the Roads
County Commissioners J. A. Pitz and C. F. Harris, the former from Plattsmouth and the latter from town, with the assistance of Fred Vallery, of near Plattsmouth, with his tractor, were floating the roads that have been graded during the past summer and putting them in good condition for the winter. It is wonderful how a little work at the proper time will improve the roads. The commissioners are to be congratulated on their efforts to keep the roads in good shape.

Mr. DuBois is a capable man at this line of business and will give his careful attention to seeing that all work turned out is satisfactory.

Injured in Wreck Last Sunday

Moray, of Denver, Colorado, who have been making the journey from their home to Joplin, Mo., passed through Union last Sunday on their trip south and were proceeding as they thought, very well, when about five miles south of this place, they ran off the end of a culvert near the home of Hugh Robb. Mrs. Moray was thrown out of the car, which turned over on its side, being quite severely injured. She was brought to the hotel at Union, where she was treated by Dr. Barrett and while suffering considerably from injuries sustained on her back, she is showing some improvement. The couple are stopping at the hostelry of Wes Clark, where they will remain until Mrs. Moray is sufficiently recovered to permit resuming their journey.

Sermons to Make Men Think
This is truly a day and age of thinkers. Are you one? Are you thinking about the times—the past, the present and the future or are you drifting idly with the tide of human affairs, without even so much as a single thought of whence—of where—of when? Last Sunday there was begun at the Baptist church in Union a series of sermons by the pastor calculated to make men think, and which are inquiries in a sense, although they are answers as well, through citations from the Word of God. The first sermon was delivered to a full house—probably the largest sized gathering that has been in the church since the coming of Rev. Taylor to Union—and it was listened to with great interest. The subject of the discourse was "Signs of the Times," and in it he discussed the following sub-topics: "Is this the war spoken of as that just preceding the coming of Christ?" "Do we know the minute he will come?" and "Will the League of Nations establish permanent peace?"

The series will be broken next Sunday by the meeting of the convention of state workers, known as the "Autumn Assemblies," and which is mentioned at length elsewhere in this department. The subjects for the coming weeks are: October 25, "Election;" November 2, "Heaven;" November 9, "Hell," and the last of the series on November 16th, "The Second Coming of Christ." All are live, thinkable topics and you had better make up your mind to hear them.

FORTIFY THE SYSTEM AGAINST DISEASE

Immunity by Means of Chiropractic Spinal Adjustments

Chiropractic not only wards off disease, but in any case attacks disease at its source. Read these few lines: Health supplants disease whenever the mental impulses have free and unimpeded passage from the brain to the tissue cells, which thus receive the vital energy upon which they solely depend for their harmonious action. This done, disease cannot exist. It is impossible for a disease symptom to be present in the human body with **The Spine in Perfect Alignment**

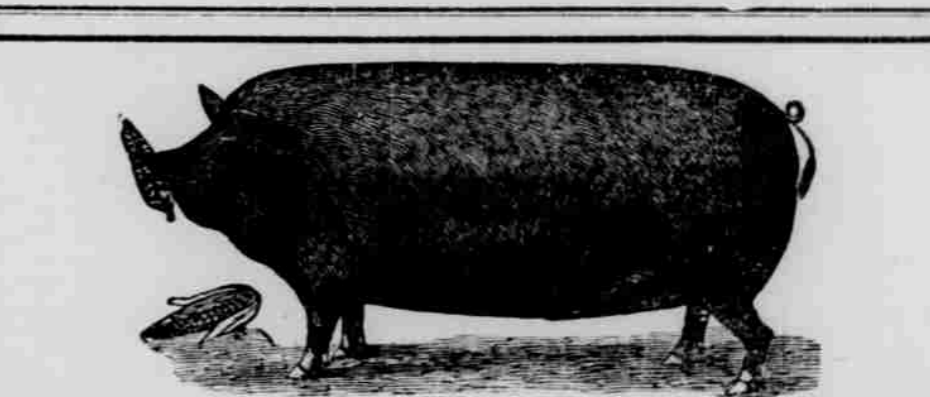

DR. EDWARDS

Chiropractic adjustments bring the Spine into natural alignment and thus open the way for health to supplant disease. Thousands have learned the benefits of Chiropractic.
