BASE BALL TEAM ELECTS MANAGER John F. Wolf is Selected by Players as Manager and Agrees to Take the Position

From Wednesday's Daily. Last evening the base ball players of the city gathered together and decided upon the selection of John F. Wolf as the manager for the team and made the plans for a mass meeting of the players and fans to be held at the labor temple on Wednesday evening, March 31st at 8 o'clock.

Mr. Wolf has agreed to take the position of manager provided that it is agreeable to the players and fans and will be the manager in fact as well as name. To the members of the team approaching him Mr. Wolf made the announcement that during his management membership on the team would be determined by merit only and that the players who made good would be allowed to play and those that did not would have to retire in favor of the men taking a greater interest in the game and possessing better playing ability. There will be no favorites held by the manager who is not intimately associated with any of the players and who will strive for just one thing—a winning base ball team.

Mr. Wolf is anxious for the hearty co-operation of the citizens of the community in getting the team started out right and following the meeting on the 31st, the work of the season will be started out right and as soon as the line up is decided upon and the players given a little practice they will be ready for the formal opening of the season.

The new manager is an old veteran at the base ball game himself as he was an active player as well as manager of the Cedar Creek team for a number of years and was very successful in his work at that place. The fans and the public will be pleased that Mr. Wolf has decided to take the managership and he will find them ready to co-operate in making this season one of success.
