Services Sunday at Union

There will be all the regular services at the church at Union the coming Sunday at which a cordial invitation is extended to the membership of the church and all others interested to come and worship with the congregation.

O. H. Shilly of Omaha, who sells goods for the Powell company of that village, was a visitor in Union and a guest with his uncle C. L. Graves, last Monday afternoon and was looking after some business as well.

Have a Very Beautiful Home.

We visited the beautiful home of J. N. Larsh and wife east of Union one evening last week and found that worthy couple very hospitable as is one of their very prominent characteristics. They showed us the beautiful home and we can say that it is a wonder with the quaint dwelling constructed as it is, with cobble stone imbedded in concrete and the clinging vine which adds to its appearance. The clear pools of water directly from the spring which keeps the water at a very low temperature makes a great place for fish of which they maintain a number of varieties. Immense beds of water cress cover much of the surface of the lakes which the over flowing spring supplies.

We noticed Mr. Larsh working on our car and when we were ready to depart found two large watermelons which he had placed therein. Thanks, Mr. Larsh, and also the good wife for the kindly reception and the substantial gift of the melons.

Early Monday afternoon while Joe Banning and George Osborne were giving the roof on Mr. Bannings building a coat of roof paint and which the directions said to boil and it would be better. The receptacle in which the paint was being heated, exploded and ignited a barrel in which the paint was stored. The fire had been builded close to the rear end of the upper story of the business house of Mr. Banning and in a moment the whole structure seemed doomed. The boys of Union, and they sure are a whole hearted set, got busy with pails, passing, carrying and running with the fire quenching liquid, also using salt and flour in their efforts to smother the fire. We arrived just after the bustings had ceased. We cannot help but admire a crowd of boys and men who will take hold of a matter like this and but out a fire which promised to have been a catastrophe for the entire town. The loss is not excessive but considerable. The greatest inconvenience was the mess which it caused in the upper portion of the building. Fortunate indeed is Mr. Banning that his friends were at his rescue in the instant.

Seeding Over 100 Acres.

The sons of A. L. Becker, John, Ray and Roy, are putting in to winter wheat this year something over one hundred acres and have purchased a new drill for use in doing the work. The machine is of the Dempster make. The boys christened the little machine last Monday and named it "Bessie".

Entertained for Sunday Dinner

Misses Verna and Mable Harris entertained for dinner at their home last Sunday, Mr. Val Pollard and sister, Misses Bessie and superintendents of schools, Charles E. Severny. A very enjoyable occasion was had by those present.

Held Services Last Sunday

The Rev. White of Peru preached both morning and evening at the Baptist church in Union, which was attended by a good number of people who enjoyed the discourse very much. There was bible school also to which a large number of the church and school attended.

Death Claims

A SMALL CHILD

Earl Virgil Warlick, Two Year Old Son of Mr. and Mrs. S. A. Warlick of Nehawka, Dies

Earl Virgil Warlick was born on June 26th, 1918, at Nehawka, and was a bright little fellow and was loved and cherished by his parents, grandparents and a host of warm friends which he made during his short life.

On September 7, 1920, death claimed the little man and while the home is left desolate, heaven is enriched by his being called there. The funeral services were conducted at the United Brethren church by the Rev. W. A. Taylor of Union, September 9th, and the interment made at the Mt. Pleasant cemetery Thursday afternoon.

The hearts of the parents were very sore at the loss of the little son, the kind words said by the minister was a solace, when the promise of the meeting again on the other shore was assured. The floral offerings were very beautiful and attested to the love of the many friends for the little one and his parents. There is left to mourn his untimely demise, his parents, four grandparents, two great grandparents and three uncles and three aunts and many other relatives and friends.

Rev. L. L. Morrison Returned

At the conference which was being held at Omaha, the Rev. L. L. Morrison who has made an efficient pastor for the Methodist church for the past two years at Union, was returned to preside over the work which is located at Union and Wyoming. Rev. Morrison has been a faithful worker and his work has met with a warm welcome by the members of his church and other citizens of the community.

Sanford Homan and Jesse Chambers were visiting in Union last Monday afternoon, hearing that the town was on fire, came down to help fight the demon. When they arrived they found the blaze extinguished. Still they showed their heart was in the right place. Thanks, boys, for your interest in the towns safety and welfare.

RUSS "SET STAGE" TO GIVE PROSPEROUS AIR

Moscow Made to Appear Busy to Deceive the English Visitors.

An attempt to make Moscow look a busy and prosperous city during the visit to that city of the English labor delegates is told by the Lettish information bureau, whose press bureau at Riga has a special correspondent attached to the peace delegation in Moscow.

The various institutions in soviet Russia had for a long time been busy in making preparations for the reception of the English labor delegates in order to show them Russia in attractive colors," says the correspondent.

In Petrograd where, as a rule, almost no people are seen in the streets, all the officials were ordered to take part in the reception. Theatrical representations and grandiose banquets were organized with the participation of actresses from the Marinski and Alexandrovski theaters. The delegates were taken to Moscow in a special train, accompanied by Tcherkess soldiers in bright uniforms.

In Moscow, the day before the arrival of the English delegates, all the papers published strict orders issued by the military and civil commissaries setting out what everybody had to do and how to behave. On May 17 the tramway service in the city was suspended, all the cars being taken to the neighborhood of the Nikolavoski station, where, gayly decorated, they moved to and fro, trying to convey to the visitors the idea of busy traffic.

In the station all the motor cars from Moscow were mobilized, even the highest commissaries having to walk. On May 18 a parade was organized, but no private persons were allowed to be present. This is the way the bolsheviks organized the tragic-comedy of the communistic paradise in order to deceive the English visitors as to the real state of soviet Russia.

WOULD SEND STEEL ROCKET TO MOON

The moon is the latest field selected for the planting of American rockets. This time Professor Goddard comes to the fore with a steel instrument (which he is shown holding in his hand) capable of traveling at an average speed of 8,000 feet a second in exploding gas. With a rocket of this kind the professor believes he will have little difficulty in landing a message on the moon.

FRENCH FIND HUGE GRAFT

Buyers of Army Supplies Discover Cases Full of Baby Clothing.

Astounding revelations of graft, amounting into millions of dollars, in supplies shipped to the American forces overseas during the war have just been made in taking an inventory on goods bought by the French from the United States.

A full mile of cases marked "bottles of ink" or "canned food" were found to be camouflaged, only the top layer of each containing cans of food or bottles of ink. The rest of the cans or bottles were empty.

More than 50,000 cases of baby underwear, baby socks and baby bonnets were found, and the French are wondering what the Americans intended these for. Hundreds of thousands of pairs of "woolen" underclothes were found to be cotton of the poorest quality, while a vast number of cases designated as containing clothing were either empty or filled with a jumble of material in the worst possible condition.

It is estimated that it will take more than five years to sell the stocks piled up at the Gievros depot alone. Meanwhile, due to the insufficiency of staffs to handle the stocks, millions of dollars' worth of supplies are rusting and spoiling.

Women to Establish and Run Factory.

The establishment of a match factory at Canton, Ohio, is planned by progressive women of the city, who have issued a prospectus in an effort to raise \$500,000 for the purpose. The women will operate the plant, doing all necessary work.
