

## BIG FARM-AID CORPORATION IS ENDORSED

FOREIGN TRADE FINANCING PROJECT TO HAVE CAPITAL OF \$100,000,000

### PLAN HELP FOR THE FARMERS

Foreign Trade is Necessary for Commercial Progress in the United States.

Chicago, Ill., Dec. 10.—Organization of a corporation to finance foreign trade to be backed by bankers, manufacturers and merchants was endorsed today by prominent speakers before a conference under auspices of the American Bankers' association.

The proposed corporation would be formed under the Edge law with a capital of \$100,000,000, available to American producers as cash payment for their goods on which foreign buyers would be unable to pay cash.

This foreign trade, speakers said, was necessary to the commercial progress of the United States, and some method of financing foreign trade must be worked out to enable American manufacturers to take their place in the world trade.

Herbert Hoover, speaking before the afternoon session, declared if the progress were successful today's conference would have been the most momentous since the armistice.

"You are gathered here for the fundamental purpose of doing something practical in the solution of a financial situation by every day means," Mr. Hoover said. "You have a great problem, for our farmers today are suffering great losses and our workmen great unemployment. This is due to a considerable degree to the stagnation in orders for our export surplus.

**Home Market Affected.**  
"From this stagnation the consuming power of our own home market is reduced and effects are accumulating upon us.

"We must face the issue that these economic ills arise from the vicious economic circles that can be broken in one way only, and that by the establishment of credits abroad, not the dangerous short time credits in which we have already become over-extended, but the long time investment in reproductive enterprises."

William C. Redfield, former secretary of commerce, urged a worldwide trade development, saying that America was yet in the infancy of her export trade. He asserted that "tremendous pull of English capital is operating abroad in favor of English industry."

The farmers' viewpoint was explained by J. E. Howard, president of the American Farm Bureau federation, who said that if the proposed corporation would provide a market for farmers' products, it would have their backing. Julius H. Barnes, former head of the United States Grain corporation, and Eugene Meyer, jr., who headed the War Finance corporation, presented their views gained from experience in government work during the war.

**Depends on Farmers.**  
Mr. Howard maintained that for the past four or five years the farmer had not prospered as has business. "The prosperity of this country, which is not now so very promising, will not again be in full swing until buying power of the farmer is restored," he said.

"Practically one-half of the farmers of this country are tenants, men of little capital. If these farmers are forced to liquidate, one-fourth of

the farms in the central west will go into bankruptcy."

No material aid can be expected from national or state legislation, Mr. Barnes told the conference, and present conditions must be relieved by other means.

A committee on plan and scope was appointed and its recommendations for organization and definite procedure will be heard tomorrow. A national committee is expected to evolve the necessary steps for incorporation of the financing organization. William C. Redfield's name was prominently mentioned by conferees as probable president of the new corporation.

## IS IN A VERY SERIOUS CONDITION

Leonard Born, One of Well Known and Prominent Residents of County Nears the End.

Leonard Born, one of the old residents of this portion of Cass county, who has been very poorly for the past week is gradually growing weaker and hopes of his recovery have been practically abandoned by the family and friends. Mr. Born has been since yesterday in a semi-unconscious condition and his case is of such a nature as to give but little hope of his long standing the severe ordeal to which he has during the past few months been subjected. His advanced age has tended to lessen his chances in the battle with his illness.

News of Mr. Born's serious condition will be learned with the greatest of regret by the many old friends over the county where he has spent the greater part of his lifetime.

## WILL HOLD CONTEST FOR LITTLE GIRLS

M. Fanger Announces He Will Present Two Fine Dolls to the Most Popular Children

Two of the popular little ladies of this community from one to thirteen years of age are to have the opportunity of securing two of the finest dolls that can be purchased on the market today, announces M. Fanger, owner of the former White store in this city, and who is now offering one of the latest and most up-to-date stocks of goods that can be seen anywhere.

Mr. Fanger has the two dolls on exhibition in his store window, where they have attracted a great deal of attention. The rules for the contest are that on every cent's worth of goods sold in the store a vote will be given that can be cast for any little girl who is entered in the contest by her parents or friends. The contest is open to everyone and Mr. Fanger states that the richest or the poorest child has the same chance of winning the doll, depending wholly on the amount of interest that the friends of the little folks take in the contest.

The names can be entered at the store and the contest is all ready to commence and will continue over the next two or three weeks and on the closing date the votes will be counted and the award made of the doll.

Any child from one to thirteen years of age is eligible and Mr. Fanger and his force will be glad to enter the names of any little folks that may be presented at the store.

## A MULTIPLICITY OF TRADES REPRESENTED

Young Men from All Lines of Industry Belong to Local Post of the American Legion.

Secretary of War Baker once said that our army, as composed back in 1918, could be made wholly self-sustaining, so great were the trades therein represented.

Now Plattsmouth's contribution to that army was comparatively small, but the classes of work to which those who did go were accustomed are fully as numerous as were the hues in Joseph's coat of many colors. In fact nearly every useful trade for which one might find use in everyday life is here represented.

This accounts for the comparative ease with which the ex-service men are handling the work of remodeling and redecorating the interior of their recently acquired club home in the Leonard building.

Carpenters, plasterers, electricians, painters, upholsterers, plumbers and paper hangers are among the more important trades being called upon to assist with the work, but there are a score of others whose services may be in demand a little later.

The work is progressing nicely with the interior remodeling, and tonight a detail of carpenters and helpers under direction of Carl Wohlforth will engage in constructing a cross partition separating the rooms, together with the task of hanging a set of double doors.

In the meantime plastering work is being done and papering will be next in order. The rooms have been rewired (concealed type and fully in accord with Underwriters specifications) by Electrician Heneger and his force of assistants.

Such spirit of enterprise is highly commendable and doubtless had much to do with influencing the members of the Home Guard company to turn over unequivocally their remaining funds for use of the Legion in outfitting the new quarters.

### MAKES GOOD FOOTBALL RECORD.

The following from a Des Moines daily will be of interest here, says the Weeping Water Republican. Art Coglizer, the young athlete mentioned is a son of Will A. Coglizer, and a grandson of Mr. and Mrs. S. G. Coglizer, of Weeping Water.

"Art Coglizer, former West High grid star, is playing a great game with Kemper Military academy at Booneville and is being praised by the critics in the state of Missouri.

"Coglizer is playing at right end and is said to be going better than ever. He is also punting and dropping kicking for his mates and is said to be doing a good job of it. He has made seven drop kicks this season, one coming from the 43-yard line and another from the 41-yard line.

"Of the eight games played by Kemper this season, six were victories for the Booneville eleven, while the other two were ties. Kemper has scored 258 points to 22 for its opponents."

### GARMENTS AT A SACRIFICE

The line of ladies ready to wear tailored garments carried at the big store of M. Fanger are now being offered to the public at the sacrifice sale just started and notice of which appears elsewhere in this issue. Now is the time to take the fullest advantage of the prices offered in these ladies garments and many values that will open the eyes of the purchasers can be found at this store.
