LEAGUE LOSES THREE SEATS IN LEGISLATURE

Pierre, S. D., Dec. 30.—The recent recount in Roberts county, which eliminated two house members and one senator from the nonpartisan list of legislative members, places the representation of that party at one member of the senate from Hutchinson county, and four house members, two from Hutchinson and one each from Aurora and Hanson counties.

The democrats will have one senate member from Bonhomme county, and three house members, one each from Douglas, Miner and Pennington counties. This makes the senate of the coming session all republican but two, and the house all republican but seven.

HE COULD HARDLY HARNESS HIS HORSE

Iowa Farmer Says His Muscles Felt Like Tied in Knots Before He Began Taking Tanlac.

"Tanlac has relieved me of a case of indigestion from which I suffered for years and has added ten pounds to my weight, besides," said Joseph Haas, a well-known farmer living at Kenwood Park, Iowa.

"It hardly seems possible that I am now a well man, after suffering as long as I have, but anybody who knew me before can see that such is the case. I had no appetite and everything I ate caused severe pains in my stomach. I had miserable sick headaches, and often while playing such spells of dizziness came on me that I felt like I would fall."

"I had rheumatism in all my limbs, with sharp, shooting pains, and often after a day's work my muscles felt like they were tied in knots. I had such pains in my arms that often it was all I could do to harness up my horse. I tried about everything that was recommended to me in the way of medicines, but in spite of it all I lost weight and strength continually and kept getting worse."

"But my first bottle of Tanlac convinced me that I had found the medicine for my case, and now I feel like a new man. My appetite is fine and everything I eat goes with me perfectly. I no longer have headaches or spells of dizziness, and my arms and legs are free from those rheumatic pains. I am brimful of new life and energy and can plow all day or do any other kind of hard work."

Tanlac is sold in Plattsmouth by F. G. Fricke and Company, in Murray by the Murray Drug company, and the leading druggist in every town.

Hens Respond to Good Care.

That it is possible to make hens lay during the winter months is demonstrated by the egg-laying contest conducted at the State College of Agriculture. The November report shows that ten hens laid 18 or more eggs during that month, and five of these laid 20 or more, with the highest layer producing 24 eggs.

These pullets are not given any miraculous care, but do have proper feeding and housing, and also are well bred. Good breeding plus proper care produce eggs. The college has gathered statistics from 25 counties on the work of its extension poultry specialists in culling non-layers from farm flocks. Eight hundred and thirty-six flocks containing 91,902 birds were culled, 32,404 poor layers being removed. The production of the flocks before culling was 16,629, and after more than one-third of the birds were removed it was 16,385. These figures speak for themselves as to the economy of reducing every flock to the good layers.

Farm Bureau Federation Meeting.

Attend this meeting if possible in Lincoln, January 6-7. Several noted agricultural men will be on the program. Everyone should attend some of the organized agriculture which meets in Lincoln January 4 to 7.

ROW OVER RIGHT OF NEGROES TO VOTE

Southern Members Resent Charges of Disfranchisement—First Charge Brings on Storm of Denials

Washington, Dec. 30.—Wholesale charges of wilful discrimination against negroes in the southern states were made by representatives of the national association for the advancement of colored people today before the house census committee, and brought forth vigorous objections from committee members from the south. The committee was considering legislation to reapportionment congressional representation. The first charge, made by the association's representatives, brought on a storm of denials and additional charges that gathered in volume as the session progressed and reached its climax at the close with the appearance of a photographer to take a group picture of the committee including its southern members, witnesses and spectators, of whom a number were negroes.

When Walter P. White, assistant secretary of the organization, declared that the majority of the white population of many southern communities were "lawless," southern members of the committee jumped to their feet.

"I decline to sit silent and let witnesses make wholesale charges of slander against one section of the United States," exclaimed Representative Larsen, democrat of Georgia. "Let them confine themselves to facts within their personal knowledge."

Representative Bee, democrat of Texas, and Aswell, democrat of Louisiana seconded their Georgia colleague in energetic fashion.

Chairman Siegel interjected to say the committee had decided to let witnesses make their statements and members question them afterwards.

ROW OVER RIGHT OF NEGROES TO VOTE

Southern Members Resent Charges of Disfranchisement—First Charge Brings on Storm of Denials

Washington, Dec. 30.—Wholesale charges of wilful discrimination against negroes in the southern states were made by representatives of the national association for the advancement of colored people today before the house census committee, and brought forth vigorous objections from committee members from the south. The committee was considering legislation to reapportionment congressional representation. "I decline to sit silent and let witnesses make wholesale charges of slander against one section of the United States," exclaimed Representative Larsen, democrat of Georgia. "Let them confine themselves to facts within their personal knowledge."

Representative Bee, democrat of Texas, and Aswell, democrat of Louisiana seconded their Georgia colleague in energetic fashion.

Chairman Siegel interjected to say the committee had decided to let witnesses make their statements and members question them afterwards.

The chairman, however, was often forced to call members to order when they protested against letting statements of witnesses pass unchallenged.

Charges of disfranchisement of negroes in the south also were made by J. Weldon Johnson, secretary of the association, who said his organization had been formed eleven years ago to work for equal political rights for negroes.

Representative Larsen, rejoined that the association was formed by certain whites and negroes in the north to get back to conditions before primaries became general in the south, when he said the negro vote was a remarkable commodity. The association, he added, maintained secret agents throughout the south and thrived on propaganda.

The appearance of the photographer to "snap" the committee caused southern members to declare they would not sit in a group, the background of which was formed of negroes, a large number of whom were crowded into the room. Representative Aswell left the room and Representative Larsen informed Chairman Siegel he did not intend leaving the room and would "raise hell" if the picture were made with the spectators on hand as a background. The committee finally went into executive session, thus clearing the room and the group picture was made.
