MANLEY NEWS

Humphrey Murphy was a visitor in Omaha last Friday, where he was visiting for a short time.

Melvin Schleifert of near Louisville, was visiting with friends in and near Manley one day last week.

Raymond Gamblin and Albert Rehlers were looking after some business matters in Nehawka last Thursday.

Mr. Ray Warren was a visitor in Omaha for a short time last week visiting with friends and looking after some business.

John L. Burnes is reported as being on the sick list and was kept from his business for a short time during the week.

Mrs. Charles Gerlich was visiting with her daughter in Omaha one day last week and also was incidentally doing some shopping in the metropolis.

Mrs. Rudolph Bergman was a visitor in Louisville last Thursday, where she was the guest at the home of her parents, Mr. and Mrs. John Koop.

Blanch Coon, who has been having a tussle with the measles, is at this time a little in the advantage as regards to getting the best of the malady, and is progressing nicely.

Miss Mable Hennings, who has been confined to her bed with a case of measles is reported as making satisfactory progress towards recovery, though still feeling rather bad.

Mr. Herman Rauth and sister, Miss Anna, were in Omaha for a short time last week, accompanying Miss Rena Christensen to the hospital where she entered for treatment for appendicitis.

Herman Mann, who has been feeling very poorly for the past few months, is thinking of going to Omaha some time during this week to consult a specialist in regard to his health.

Mesdames H. A. Schleifert, John Koop and Miss Saas visited in Manley and were hosts at the home of Mr. and Mrs. Peter Vogler's home during the past week and enjoyed the time greatly.

Editor L. J. Mayfield of Louisville and Mr. August Fautsch of this place, were looking after some business matters in Manley last Friday, they having some business matters to look after at the Manley bank, and with the business men.

Three boys at the home of Adolph Steinkamp are reported as having the measles, while Ray and Walter are getting along nicely. Mr. Steinkamp is looking after the chores at the farm while the younger men are wrestling with the epidemic.

State officers visited this vicinity a few days ago and left some reminders that a few had neglected to comply with the laws regarding motor vehicles, and they are being sent away at once. Mr. Steinkamp will display 1921 licenses on their cars in the future for this year.

Miss Mable Breckenridge is reported as being at home with a case of as being confined to her home with the measles, but while she has been very ill, she is at this time getting along nicely and it is hoped that she will soon be able to be up and around.

The measles which are a common thing in this neighborhood, are not slighting any one where the opportunity exists and have been giving the family of Roseow Owens some experience in nursing and care of sick ones, but are pleased to report they are getting along nicely at this time.

Mrs. Wm. Heebner, who is a very clever instructor in music, having classes both in Manley and Weeping Water, was a visitor at the latter place last Saturday, where she was giving instructions to the class at that place. Mrs. Heebner had us place her name among the readers of the Journal.

Mrs. W. H. Frost departed last Friday for Lincoln, where she went to be with her daughter, Romona, who is down with the measles at the home of her grandmother in Lincoln. The word from her daughter assures the parents here of her favorable condition and it is hoped that she will have no serious time with the illness.

Frank Bergman, with the contractor John Fleischman, and Phillip Flemming as an assistant, are making excellent progress in the construction of a barn on the place which Mr. Bergman has recently purchased east of Manley. The structure is assuming good proportions at this time and will soon be ready for service.

In this week's paper there will be found an ad for the Manley lumber yard, which tells of the reduction of prices in lumber and building materials and which hit will be well for those who are contemplating building to read, as there will be a great saving in construction costs, as Mr. Frost is able and will sell lumber at lower prices than can be had elsewhere.

Frank Mannamaker and wife of Weeping Water, were visiting in Manley last Saturday, where they were guests at the home of Mrs. Doris Fleischman. Fred Fleischman, who is an expert on fruit culture tells us there will be no peaches grown around these parts the coming season. The buds show many peaches, but they are all killed and brown with no life.

Grandpa Burnes Feeling Gay.

And no wonder that Mr. J. L. Burnes, the keeper of the amusement parlor is smiling, for a brand new grandson was brought last Wednesday to Mr. and Mrs. E. A. Burnes of Plattsmouth and the good news caused some happiness to Grandpa Burnes of Manley. It is thought that he will get along with good nursing.

Some Were Disappointed.

Reminding in some respects a small airplane, a stork sailed over Manley a few days ago and the rumor

was that its destination was to a home in this vicinity and in fact the same rumor had it that he was making a visit to one of the happy homes near here. In fact its destination was near Murdock, but the promise was made that a visit would soon be made here with a bundle of happiness.

Undergoes an Operation.

Miss Rena Christensen, who has been troubled with appendicitis for some time past, was taken very suddenly with the malady and upon the advice and under the care of the family physician, Dr. Thomas of Weeping Water, was taken to a hospital at Omaha last Friday morning, where she underwent an operation for relief, and which it is hoped will restore her to her accustomed good health.

Have Organized Township.

The Federated Farm Bureau held a meeting at Manley last Tuesday evening when addresses were made from some representatives from Iowa and the precinct was organized in order to more effectively care for the interests of the farmers in all ways. The officers chosen for this precinct were Harrison J. Livingston as the president, and Herman Rauth as the secretary. A legislative committee consisting of Charles Gerlich, C. M. Andrus and John Rauth were appointed to look after such bills as might be detrimental to the farming community if enacted into law and defeat them.

A Petition Circulated.

The people of this community have circulated a petition which has received the signatures of most of the people in this vicinity, asking that the telegraph service be restored to Manley as the taking away of it has worked to the detriment of the community here, and has been a great inconvenience to the people. This petition will be given to Mr. W. H. Frost, who will meet with the railway commission asking them to take action that would relieve the situation.

Visited in Omaha.

Dan Bornemeier, who has been confined to his home on account of a siege of pneumonia from which he is just recovering, and his sister Miss Martha, who has been having a struggle with the measles over which she is also the victor, were passengers to Omaha last Friday, and on their return came to Murdock in the evening and were met by Elbert with the car.

Manley School Facilities.

Many of the people of Manley and vicinity are now beginning to wonder where the profit comes in when they have to send their children to some other town to enjoy the school facilities which a consolidated school in Manley would furnish them. The cost is more where they are sent away and the accommodations are far inferior, as there is incident to making the trip on the train every day, much chance of danger and also the association is not the best for the student. The question is being agitated of having the matter brought to a vote as to whether Manley should have a better school building with more grades and in fact of giving the student a fair show.

FOUND GUILTY OF CHILD DESERTION

Jury at Nebraska City Decides Case Against Elmo Preston After a Short Deliberation.

Elmo Preston, charged with wife and child desertion, in an information brought by County Attorney Heinke of Otoe county, at the instance of his wife, Mrs. Mae Gaskell Preston, was found guilty on the charge of child desertion by a jury in the district court at Nebraska City Thursday afternoon, says the Nebraska City Press. The jury deliberated for two hours before returning its verdict, the case being tried before Judge Begley of this city.

Preston was brought back to Nebraska City from Imperial last December, arraigned in the county court, given a preliminary hearing and bound over to the district court.

The complaint of wife abandonment was dismissed by Judge Begley at the opening of the trial Wednesday morning after the defendant made the claim that if there was wife abandonment it had occurred in Buffalo county, former home of the parties. The court accepted this view and admonished the jury to restrict its findings to whether or not there had been abandonment of the child.

Evidence brought out the fact that Mr. and Mrs. Preston had quarreled in October. The difficulty grew out of the purchase of a rug by the wife while Preston was on a hunting trip. Upon his return he demanded that the rug be returned. His wife refused and twenty-four hours later he took the rug out of the house. When he returned to his home in the evening Mrs. Preston was gone. It was brought out later that she had returned to the home of her mother in Nebraska City. That was in October, 1919 and in March, 1920, a baby was born. Preston, testimony shows, came to Nebraska City at the birth of the child and then went to Kearney and disposed of his home and household effects. None of the proceeds of this sale was given to his wife or used for the support of his child. In due time the wife complained to the county attorney and

a warrant was issued for his arrest. W. R. Holly, of this city, who was Preston's partner in the automobile business at Kearney and who was a lodger at the Preston home during his stay there, testified as to the quarrel over the rug and what followed. He declared that Mrs. Preston was a splendid housekeeper and that so far as he knew there had never been any serious quarrel until on the day in question.

Miss Millie Schmitt, bookkeeper for Mr. Preston, also lived with the family and testified as to the quarrel. She, too, stated that there had been no serious domestic trouble prior to that time.

The defendant's mother, who lives in Weeping Water, said she had advised Mrs. Preston, when she visited her a year ago, to go back to her husband, but that the wife refused to do so.

The jury went out at 4 o'clock and within an hour sent word that it had a question of law to put to the court, whereupon Judge Begley called the attorneys and the defendant into the court room and the foreman asked if, in case the defendant were acquitted, he could still be required to support the child. The court explained that that was not for the jury to decide and again sent them to the jury room. An hour later they brought in a verdict of "guilty." The penalty is one year in the penitentiary or six months in the county jail, in the discretion of the court.

RESOLUTIONS OF RESPECT

In memory of Comrade William McCauley, a late member of Co. 1 of the 124th Illinois infantry, during the war of the rebellion, and who was a tried, true and faithful member of McConaile Post No. 45, Department of Nebraska, Grand Army of the Republic and who was on February 14, 1921, called to the Grand Army above!

"Sleep on ye fallen comrade, the victory you have won.
You've served the nation's banner, your task has been well done.
Rest under wreaths of laurels by grateful people given.
We strew your grave with flowers, the sweetest gift of heaven."
Wherefore, we, your committee, in testimony of his loyalty to his country when her glorious principles of freedom were assailed; of his private character as a citizen, and as a true and loyal member of the Grand Army of the Republic, recommend that a copy of these expressions for the fallen comrade be sent to his family.

Effects of Constipation

Constipation causes a stoppage of the sewerage system of the body. The poisonous refuse matter that should be carried away is retained in the system and often poisons the blood and causes numerous disorders. No one can afford to neglect his bowels. A dose of Chamberlain's Tablets will afford relief. Avoid drastic cathartics as they take too much water out of the system and their use is likely to be followed by chronic constipation.

Lumber Prices are Lower!

The farmer, laborer, manufacturer and retailer are taking their loss. All must do this in the present readjustment process, and we have taken stock, and are placing our lumber prices back to where they formerly were, even at a considerable loss. They are now at a level where even the present low prices of grain will justify their purchase for immediate building.

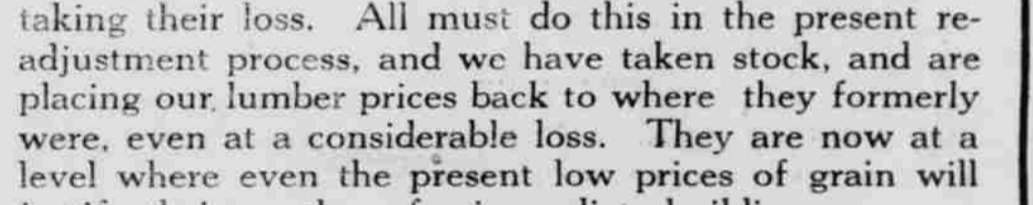

We furnish you better prices and service than you could possibly hope to secure from out of town firms. We buy from the mills the same as they. When you buy out of town you pay for reloading together with a high local freight rate, and you know what that means—over \$50 per car. We can save you that, and you don't have to purchase a lot more than you need, either. See us before buying.

And say, how about a hog house or a chicken house? They will pay you big dividends. We have plans, specifications and estimates of their cost.

We want your business on the basis of good service and money-saving prices. Unless we can give you these, we don't want you to feel under any obligations to buy of us.

Will You Do Your Best?

Sure, prices have come down, and another year is here. Already Spring is knocking at our doors.

How about the coming season; are you going to give nature an opportunity? The land has sustained last year's crops, and like the horses and yourself, has need of something to replace that which has been used up, if it is to give maximum results this year.

The Litchfield manure spreader is solving the problem of replenishing the elements needed for coming crops and maintaining the value of your land.

Would you allow your family or your horses to starve? Why then starve your land?

We have absolutely the best spreader that modern science has yet devised. Allow us to give you a demonstration and see for yourself.
