fish could not be resisted by the sportsmen of Murdock, those going who could get away, and those who could not go wishing that they could. A. J. Bauers being lucky enough to secure the services of Mr. Geo. Utt to run the dray, he joined a party consisting of Harry Gillespie, Lacey McDonald and Jerry McHugh, who went to the river. They did not take the new boat, but as soon as the fish heard of the arrival of this noted quartette of fishers, they all crowded the banks in an endeavor to get a taste of the new bait which they

had. The luck of Mr. Bauers and Lacey was phenomenal, as they caught some seventeen croppies and these little ones, which it is reported that Mr. Bauers landed an eel that measured some nine and a half feet. (This is an eel and fish story.) Mr. McHugh and Gillespie had long poles and could not get their hooks near enough to the bank where the fish were massed. However, they will go fishing again soon.
