SOPHOMORE LITERARY

PROVES VERY PLEASANT

Class Provides Delightful Evening at Their Literary Which is Enjoyed by Many.

Last evening the sophomore class of the high school held a very enjoyable literary evening which was attended by a large number of the patrons of the school and friends of the young people.

The program showed great skill had been shown in preparing the various papers on the part of the young people, and all were carried out in a most pleasing manner.

The opening number was a debate between the members of the Junior and sophomore classes on the subject "Resolved, that the present Congress should grant independence to the Philippine Islands." The Juniors had the affirmative and the sophomores the negative. The affirmative was presented by Allison Flynn and Earl Troop while Charles Harbison and Raymond Bookover presented the negative side of the proposition. The judges decided the Juniors should not have their independence at this time.

A number of very pleasing piano selections were offered by the members of the sophomore class, Misses Edith and Helen Farley playing a duet and Helen Wiles, Marguerite Wiles and Harriett Peacock offering a very pleasing piano trio, while Marguerite Wiles played a piano solo that was well received.

Two very pleasing readings were given by Misses Edith Patterson and Gladys Elliott, which were well received and showed much skill on the part of the young folks.

A social selection was also offered by a number of the girls of the class in an essay contest which proved a great hit with the audience. Misses Edith and Helen Farley, Edith Warren and Chelsea Scoop comprised the cast of the singers.

The talented young people of the sophomore class had prepared a playlet, "Two of a Kind" which was given in a manner to reflect the greatest credit on the members taking part and in which Miss Mary Margaret Walling was especially pleasing. Those taking part were Maxie Hudkins, Virginia Heeson, Mary Margaret Walling, Glen Henry and John Warga.

EXPLAINS NEW BILL

County Clerk George R. Sayles has received from the state department of public works information as to one of the measures introduced in the legislature covering the securing of road making and maintaining machinery by the various counties of the state and which clears up considerable confusion that has existed as to the provisions of the measure.

The bill provides that the county commissioners prepare an estimate of the machinery and equipment that will be required for the year in road making and maintaining and submit this to the state department of public works who in turn submit lists of the various firms dealing in the lines of equipment needed and advertise for bids for the same which are sent to the county clerk of the counties of the state and passed upon by the board of commissioners who may award the contract to any firm they see fit. The state department does

not require that the county authorities make their purchases through the state department as had been the understanding heretofore.

A social selection was also offered by a number of the girls of the class in an essay contest which proved a great hit with the audience
