COUNCIL HAS A TAME MEETING LAST NITE

LOCATE NUMBER OF ELECTRIC LIGHTS AND DISCUSS ELECTRIC TROLLEY SYSTEM.

From Tuesday's Daily.
 The session of the council last evening was calm and peaceful and nothing of vital importance came up for the definite action of the members of this legislative body, who apparently decided to rest up for the deluge that will come when the hearing on the proposed sewer proposition comes up next Monday.

Councilman Howe, the presiding genius of the police committee, was the only absentee from the council when Mayor Johnson called the deliberative body to order at 7:30 and the grind was started out.

City Clerk Duxbury presented his monthly report showing that \$733.39 had been collected for the finance committee of the council for action.

City Treasurer Hartford presented his report of the various funds of the city which showed a balance of \$29,871.39 and registered warrants in the sum of \$113,213. This report was also assigned to the finance committee of the council.

Councilman Lindeman of the park and improvement committee reported that to make the proper improvement of the Washington avenue park it would be necessary to secure lots 7, 8 and 9, which adjoin the city property and that the proper committees take steps to secure these lots.

City Attorney Rawls was present and pointed out the steps that were necessary to take to secure the proper title for the city and accordingly the matter was referred to the judiciary committee to take action that would give the city a ground-work to claim title to the property.

Mr. Rawls also stated that he would be glad to assist any committee in the preparation of a report on the status of motions or ordinances required looking into and this he would be glad to do any time that the committee so desired.

Councilman Schulhof of the lighting committee reported that the committee had located the additional lights as follows: Forty watt lamps at 5th and Locust, 6th and Whitman avenue, 12th and Vine, 13th and Lincoln avenue, 8th and Elm, Maiden Lane and Elm, Maiden Lane north of Elm, Lincoln avenue and Race street, Race street and Smith avenue, 10th and Marble streets, Pershing avenue, one block south of Columbian school, the corner of 10th and Main, and a group of the sixty watt lamps on high school hill with two 400 watt lamps at 8th and Main and 9th and Main.

After some discussion the report of the committee was adopted.

Councilman Sebalka then asked that there be an ordinance moved in his ward and that the lights be added to so that in the readjustment the lights would be at Clara and Porter streets, Howard and Patterson avenue and Clara street and Patterson avenue.

The opinion of City Attorney Rawls was read relative to the length of bonds to be issued in the paving districts and in which he quoted the law that one-twentieth of the cost of the bonds should be raised each year and the amount of the bonds retired to provide for retiring more than the amount called for would be a doubtful proposition as it would not be attractive to purchasers and gave no assurance of the amounts being raised great enough to retire more than the one-twentieth.

In regard to the city selling the bonds to pay the cost of paving in district No. 21, Mr. Rawls stated that the city council by resolution had provided that bidders take the bonds and retire them in payment of their work and in his opinion and the language the resolution it had been the intention of the council to have the bonds secured to the contractor at par. The city, however, could sell the bonds and redeem the registered warrants in cash or could deliver the bonds to the contractor in settlement of the warrants.

An ordinance was then ready outlining an electric trolley district from 2nd street to 10th on Main street and providing for the laying wires, purchasing posts and other necessary equipment and to tax same to the property owners but this was laid over until a later date.

Councilman Bestor called the attention of the council to the fact that the light at the Burlington crossing at the foot of Wintersteen hill was being put out at midnight and regarded this as a poor practice and the light committee was authorized to look into the matter.

On motion of Councilman Bestor the mayor and city clerk were authorized to have a call issued for the forthcoming city election, according to law.

The following claims were found to be correct and the payment ordered by the finance committee:

Omaha Trust Co., legal opinion	\$100.00
