Mothers Find Kiddies' Clothes So Easy to Make the New McCall Way

Fast growing kiddies used to keep mother's needle busy most of the time—until a quicker way of sewing came into practice, the "printed" pattern way.

Now with the New McCall Pattern "it's printed," Gingham Rompers, Chambray Dresses, children's tailored little Coats can be made in a jiffy. Directions for cutting are printed on the pattern, itself. "Printed" gives accurate measurement to a pattern so that a garment can be made quickly in the right way.

For Quicker Sewing—the New "Printed" Pattern

The Pneumonia Month

March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ laden mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly. Weyrich & Hadraba.
