Firestone
CORD TIRES

The tire section above at the left shows the condition of a Firestone 33x4 1/2 Cord Tire after 20,994 miles on a Yellow Cab in Chicago.

The section at the right was cut from a new Cord of the same size. Careful measurements show that only 1/3 of the tread of the tire on the Yellow Cab has been worn away after this long, grueling test. The carcass is intact after more than 11,000,000 revolutions.

Firestone Cords have averaged over 10,000 miles on Chicago Yellow Cabs (1,200 cabs all Firestone equipped). In thousands of instances, they have given from 15,000 to 30,000 miles.

Look at the tread—scientifically angled against skid, massive

and heavy in the center where the wear comes, tapered at the edges to make steering easy and to protect the carcass against destructive hinging action of high tread edges. The carcass is air bag expanded to insure uniform tension and paralleling of every individual cord. It is double "gum dipped" to make sure that each cord is thoroughly insulated with rubber.

This is the reason why Firestone Cords unfailingly deliver extraordinary mileage. It explains the unanimous demand of thoughtful tire buyers for these values. The local Firestone dealer will continue to provide the personal service that makes Firestone tire comfort and economy complete.

That's the advice of "Uncle Joe" Cannon, for forty-six years a member of the house, who retires this year. He handed the advice today to Representative Vincent Brennan, of

Detroit, who came to ask Cannon about running again or going back to private law practice. Brennan is the youngest member in the lower house of congress.

MODERN WOODMEN TO PICNIC ON JUNE 14TH

GREAT GATHERING OF MEMBERS OF WOODCRAFT TO BE HELD FLAG DAY.

ALL WOODMEN AND FAMILIES

As Well as General Public Invited to Join in Gala Occasion that Will be For Everyone.

When the morning of June 14th dawns there will be a general movement of the members of the Modern Woodmen in Cass county, as well as the members of their families toward the city of Plattsmouth and the big picnic that Cass camp No. 332 is preparing for that date.

It has been a number of years since the Woodmen have held one of their log-rollings or picnics, and they feel that it is time for the followers of Woodcraft over the county gather and have at least one day of real fraternal spirit, with their families and friends joining in the occasion. The result of the desire of the members of the order, is the fact that this occasion will be held on Wednesday, June 14th at Plattsmouth.

The gathering will be held in the city park and will embrace a program extensive enough for the entire day and will cover everything that the desire of man could desire in the way of entertainment, amusement or refreshment.

County Judge A. J. Beeson is the chairman of the executive committee and has a force of hard-working committees that are arranging a real program for the day. In the line of sports there will be races of all kinds with suitable prizes for the men, women, girls and boys, fat and lean and every other kind and condition of the human race. One of the features of the athletic program will be the tug of war from among the Woodmen and in the evening the victorious team will pull the team from the Burlington shops.

Dr. Stoeckum, state lecturer of the order, will speak at the picnic and his well known reputation as a speaker guarantees that this department of the program will be well looked after.

There will be two of the crack drill teams of the order from Omaha and Lincoln present at the picnic that will give a number of highly entertaining drills and these teams will also stage an open air public initiation and take a tip, this is going to be one of the best things that has been pulled off here for a great many years.

All those attending the picnic are urged to bring their dinner with them and prepare for a real day of sport for every member of the family from the old man down, and not only the Woodmen and their families but the general public as well is invited to join in and make the day a record-breaker in every way.

HAS STREAK OF BAD LUCK IN THE SOUTH

Edgar Barker, of Perry, Oklahoma, Finds Misfortune Never Comes Except in Bunches.

Grant Wetenkamp of this city has received a letter from Edgar Barker of Perry, Oklahoma, a former resident of this vicinity where he made his home on the William Wetenkamp farm near this city, and who moved to Oklahoma nine years ago.

In his letter, Mr. Barker tells of a very severe wind, hail and rain storm that swept over that portion of the country, destroying wheat, oats and fruits. The corn was badly beat up by the force of the storm, but will come out of the ordeal much better than the other crops and little damage to this crop is expected.

Mr. Barker states that never in the history of that country has there been such rain and hail. The force of the hail broke the window lights and the rain drove into the home until water stood three and four inches deep on the floors and the members of the Barker family suffered the greatest inconvenience from the effects of the storm. Neighbors of the Barkers had their bedding soaked in the storm and were forced to spend the time standing around, unable to secure any rest. In the residences and places of business at Lucerne, a small town a few miles away, there is not a window light left.

Owing to the shortage of glass and the inability of the dealers to secure a sufficient supply for the demand, there is more or less annoyance felt by the residents of that part of Oklahoma.

Mr. Barker had his barn blown down in the storm to add to the other losses, but was fortunate in having this covered with insurance, but the loss to the crops is complete, as he carried no hail insurance whatever.

Juliette Warford was born near Toledo, Ohio, on May 23, 1852, and departed this life May 21, 1922, at the age of 69 years, 11 months and 29 days. While a small child she moved with her parents to Savannah, Mo. When but seven years of age she was left motherless. Her father soon answered his country's call and like many others never returned. She was taken into the home of Mr. and Mrs. Wm. Smith of Savannah, Mo., where she was cared for until the age of seventeen, when she came to the home of her sister near Louisville. She was the youngest and last of a family of eight children.

She was united in marriage to Isaac Marion Ward on February 19, 1871, at the age of eighteen years, and with her husband homesteaded near Greenwood, Nebraska.

Later they came to Cass county, where they spent the remainder of their lives in the home of their daughter, Mrs. M. G. Keedy.

GIVE FAREWELL YESTERDAY FOR MRS. CREAMER

American Legion Auxiliary Tenders Farewell to One of Members Soon to Leave the City.

From Saturday's Daily.
Yesterday afternoon the members of the American Legion Auxiliary enjoyed a well attended meeting at the club rooms in the Leonard building and on which occasion the ladies joined in a farewell to Mrs. Charles L. Creamer, who with her children is soon to leave for San Jose, California, to make their home in the future.

Mrs. Creamer has been a member of the local auxiliary since its organization and has always been a hard worker in the cause, and her departure will bring much regret from the membership in general that has grown to know her so well. As a token of the occasion, Mrs. Creamer was presented with a very attractive piece of silver that will be cherished as a remembrance of the old friends.

The hostesses of the afternoon, Mrs. E. B. Gohelman and Mrs. L. G. Larson served very dainty and enjoyable refreshments during the afternoon that added much to the pleasure of the occasion.

Did You Ever Think

what an important item to your comfort and dress your socks are?

A snug fitting ankle, a foot that fits the foot, not one that rolls at the toe, heel and instep—no wrinkles to irritate the most abused part of your entire anatomy.

A sock that is re-inforced at the toe and heel, a ribbed top that retains its shape and is not uncomfortable.

Truly it's a wonderful sock to wear.
