Building Your Wealth!

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amounts grow till each addition is a respectable sum.

Where does the gain come from? Not from your pocket. Nor from ours. It is the result of production. Money placed in a bank is given an opportunity to work and to produce.

Thus a bank **BUILDS** your wealth. Start with a small deposit if you will. Add to it when you can—regularly if you can do so. It will not be long till you can fairly see it grow.

The School Question in Murray
The matter of better school facilities in Murray and its vicinity is one which is causing much thought at this time. There are about twenty now who wish to attend high school and as the fee is \$3 per student this will make some \$60 per week or \$240 per month and would figure at \$2,060 for the year. This not counting the fact that the students have to go elsewhere to stay to board and be away from their homes. It is thought that probably a high school comprising the Murray district and three other adjacent districts will be a solution to the vexed question. The expenses would care for the construction of an added necessary building and provide the teachers while the lower grades could be taught in the present buildings in Murray and the other districts.

OPPOSE CHANGE IN PRIMARY LAW
League of Women Voters Urge Defeat of House Roll 62, Act Amending Primary Law.

Defeat of house roll 62, the act passed by the 1921 legislature amending the state primary law, is urged in a statement filed by the League of Women Voters for Nebraska in the secretary of state's office, which will be printed at the expense of that organization as one page in the reference pamphlet mailed out to 325,000 voters.

The argument is signed by the following officers of the league: Mrs. C. G. Ryan, Grand Island, president; Mrs. E. M. Barkley, Lincoln, chairman; special committee on direct primary: Mrs. C. H. Dietrich, Hastings, regional director; Miss M. Gund, secretary.

The League's Argument
After quoting from an utterance by Charles E. Hughes defending the primary principles, the women's pronouncement says:

"Women voters are opposed to this attempt to cripple the primary because voting will become a meaningless ceremony if the control of the parties passes from the voters to the party bosses.

"The Nebraska League of Women Voters heartily endorses the position of the national league, which opposes any attempt to amend state primary laws and supports all efforts to make nomination more representative of masses of the people.

"The outstanding features of this bill, house roll No. 62, are:
"1. It abolishes the direct election by voters of the delegates to their county party conventions and restores the old caucus system.
"2. It abolishes the direct election by the voters of the national committee men of each party and places that power in the hands of the state party conventions.
"3. It abolishes the direct election by voters of the delegates to the national party conventions which nominate the candidates for president and vice president, and places that power in the hands of the state party conventions.
"4. It opens the way to the endorsement by the state party conventions of candidates in the primaries and by repealing that part of the primary law which prohibits the endorsement or commendation of candidates by the party conventions.
"5. It deprives the women of Nebraska of the legal right while they now have of equal representation with men in party organization.
"Vote 'no' on house roll No. 62."
