SENATE BODY PUTS OFFICIAL O. K. ON FARM RELIEF BILL

Norris Proposal to Establish \$100,000,000 Government Farm Finance Corp. Reported.

Washington, Dec. 15.—The bill of Senator Norris, republican, Nebraska, to establish a \$100,000,000 government corporation to finance sale of agricultural products was ordered reported favorably today by the senate agriculture committee.

It was indicated that the bill, around which the next phase of the fight for agricultural relief promises to center, would be brought into senate in the near future and an attempt made to have it replace the administration shipping bill.

The Norris proposal has not been given administration approval, and yesterday Eugene Meyer, director of the war finance corporation told the senate banking committee he was opposed to it.

Favored by House Body
The agriculture committee voted a favorable report.

Aid in disposing immediately of the surplus of agricultural products to European markets is one of the principal objects of the Norris bill, but it proposes a permanent government corporation to deal in such products. The corporation would be composed of three members appointed by the president and would have power to issue \$500,000,000 in tax exempt bonds. Its \$100,000,000 capital would be subscribed entirely by the government and it would have authority to operate government ships and buy, sell, lease and operate elevators.

Recommendations as to credit legislation considered desirable by the co-operative marketing associations were presented to the banking committee today by Aaron Sapro of California, but he expressed no preference among the various bills now pending before congress.

In discussing the different measures, Mr. Sapro said the association was in favor of legislation which represent a combination of certain features of the Capper and Lenroot bills.

Washington, Dec. 15.—The house committee voted today to give privileged status to the Green resolution proposing an amendment to the constitution which further issuance of tax exempt securities would be prohibited.

FELLOWSHIP OF NATIONS ADVOCATED AS CURE FOR WAR

Indianapolis, Dec. 15.—A fellowship between nations as a cure for war was recommended at the closing session of the annual meeting of the executive committee of the Federal Council of Churches of Christ in America here by Bishop Charles H. Brent of Buffalo, formerly chief chaplain of the American Expeditionary forces.

"The fellowship between nations," said Dr. Brent, "must be controlled by love, by peace, good temper, kindness and self control. Confidence of the representatives of the nations, in view of the impossibility of conferences of the nations themselves, are the greatest instruments for the promotion of good will at our disposal."

PROPOSES CHANGES IN HAIL INSURANCE

L. G. Brian, Chief Adjuster, Makes Suggestions for Consideration of Next Legislature.

L. G. Brian, chief adjuster of the state hail insurance department, has made the following recommendations relative to changes in the state hail insurance law:

To stop hail speculation a maximum insurance of \$15 per acre should be made.

No allowance should be paid where the damage is less than five per cent and where the damage is ninety per cent or greater full insurance should be paid.

Where the department is notified of a loss less than five per cent the insured should pay the cost of inspection.

Notice of loss should be sent not later than twenty four hours after the hail storm, instead of within four days.

The hail department should be authorized to sue for the collection of the unpaid bank orders. Experience has shown that the county clerks will not start suit.

Hail premium money should be remitted to the state treasurer on or before September first.

An additional premium should be charged for combine threshed grain or a time limit for cutting such grain should be made.

Arbitration should be abolished. It is expensive and unfair to those who carry state insurance for actual protection.

Mr. Brian's financial report shows the collection of \$146,881 premiums collected in 1922. He had \$99,559.37 in the treasury, making a total of \$246,441.23, less \$224.39 unpaid bank orders for 1922.

The losses for 1922 paid were \$229,174.41; office expense, \$3,352.42; balance on hand December 12, 1922, \$4,592.93. The total losses paid last year were \$28,532.

CHARLES BRYAN RESIGNS AS CITY COMMISSIONER

Lincoln, Dec. 15.—Governor-elect Charles W. Bryan, in resigning as city commissioner effective December 17, announced today that he would take an active part in the municipal election next spring to see that a municipal market was established.

This part of his municipal program, he said, had been delayed during his regime, by the efforts, which were successful, in establishing a municipal coal yard, in reducing gas rates and in placing the municipal light plant in a position to compete with private plants.

Bryan said he would "consider it his duty" to take part in the campaign and support those candidates who stood back of municipally owned water, light, coal, ice and public market projects, "and such other municipally owned projects as may be necessary to protect the public."

EMMETT STONE IMPROVING

SAYS ELEMENTS TEND TOWARD REVOLUTION

Pershing Warns Women's Club Members of Folly of Blinding Eyes to Impending Danger.

Boston, Dec. 14.—Addressing the Women's Republican club of Massachusetts today, General Pershing said that "dangerous elements are moving toward a revolution in America," both openly and secretly, and that because national problems have not been thoroughly discussed "there have crept into many women's clubs these undermining and disruptive tendencies toward radicalism of all sorts." Pacifism, "the disease which strikes at constitutional government," he added, was one of these tendencies.

"As we look out upon the world today," General Pershing said, "we find complicated situations in middle Europe, in the Near East and in the Orient. The nations lately at war seem ready to fly at each other's throats, and a war more terrible than the last is openly predicted. Suspicion, jealousy and hatred are fanned by repudiation, calumny and threats of war. It is not inconceivable that America might again take up arms in defense of the principles of liberty and justice which inspired our actions in 1917. It would be folly for us now to revert to our proverbial listlessness.

"It is surprising that any of our people should be so simple-minded as to think that complete disarmament on our part would induce other nations to follow. As a matter of fact, we were practically disarmed in 1917, and we were quite alone."

GOLDWYN PICTURE AT THE PARMELE SUNDAY

"The Invisible Power," a Goldwyn picture, by Charles Kenyon and directed by Frank Lloyd, is the feature attraction at the Parmele Sunday. It is an engrossing story of the underworld, of real dramatic power. Although the characters belong to the "submerged tenth," the story deals entirely with the efforts of a reformed convict to lead an honest life. The fact that he has once been in jail makes him a marked man for the secret police; and his attempts at reform meet with strange handicaps.

House Peters is seen for the first time as a Goldwyn leading man, and his splendid performance in the role of the reformed convict is both appealing and convincing. Irene Rich, as his wife, gives a poignantly sincere portrayal of the young mother whose self-sacrifice at last leads to her husband's name being crossed off the police index for criminals.

M'KELVIE URGES CREDIT TO EUROPE

Tells Governors' Meet This Would Increase Demand for United States Farm Products.

White Sulphur Springs, W. Va., Dec. 14.—Farm legislation and industrial problems occupied the attention of the 15th annual conference of governors today at its opening session.

The chief executives of nearly a score of states were in their chairs when Governor Sproul of Pennsylvania called the meeting.

Granting additional credit by the United States to foreign countries having stable forms of government, with certain restrictions, was recommended by S. R. McKelvie, governor of Nebraska, speaking before the conference, as a means of increasing the demand for American agricultural products, thereby strengthening the farming industry.

In making this recommendation, Governor McKelvie said he did not
