## DEATH OF MRS. SAMUEL HUMPHREY AT NEHAWKA

Long Time Resident of that Locality Answers Final Summons at Home Last Saturday.

Mrs. Samuel Humphrey, aged fifty-nine years, passed away at her home in Nehawka, Saturday, March 17, after an illness of some duration and after a residence of thirty-five years in Nehawka and vicinity. Mrs. Humphrey was the widow of Samuel Humphrey, for many years section foreman of the Missouri Pacific, and the family for years made their home in the section house up to the time of the death of the husband, January 17, 1921. Since that time Mrs. Humphrey has made her home in the property of J. M. Palmer and since the destruction of the fine Palmer home by fire the family has resided with Mrs. Humphrey and assisted in her care.

The deceased lady was the mother of Mrs. Carl Stone of Nehawka, Mrs. James Banning of Wana, Oregon; Mrs. Otto Carroll of Rawlins, Wyoming; and Mrs. George Holmes of California.

The death has occasioned the greatest of grief in the community where for so many years Mrs. Humphrey has lived. The funeral services were held Monday afternoon.

The composer chose a novel day to introduce his characters, and in the midst of the orchestral prelude, Tom comes forward, as in the old Greek plays and explains the play and the characters.

This opera is really a play within a play and show that the actors have feelings, that they must sing happy songs even if their hearts are breaking.

Tom is the part of a clown, he peeks thru the curtain and says:

Ladies and gentlemen,  
Pardon me if alone I appear,  
I am the prologue.

He then comes down to the front and sings at the front of the stage. Pagnoli means players.

Leoncavallo was born in 1858 and is one of the modern Italian composers. He wrote eight operas of which this is the most famous.

## NEW CAPITOL TO BE A THING OF BEAUTY

Dr. H. B. Alexander Tells Institute of Architects Will Stand as a Monumental Achievement

Omaha, March 22.—"When completed the new \$5,000,000 state capitol of Nebraska will be the most impressive piece of architecture in all America," declared Dr. H. B. Alexander, head of the department of philosophy at the University of Nebraska at a dinner here tonight of the local chapter of the American Institute of Architects at which he was the guest of honor.

"The new Nebraska capitol will be as fine in its own distinctive way as any of the monumental achievements either Greek or Gothic," Dr. Alexander said. "It is more than an office building; it is a public monument and the value of it is not to be measured in terms of cost, but rather by the standard of an enduring significance. It should be regarded as the imposing symbol of the culture which the great plains regions should eventually produce."

The local chapter, who is a distinguished essayist, philosopher and author of "Odes to the Generation of Man," highly praised the architect, Icttram G. Goodhue of New York City, who planned the new capitol, declaring that Mr. Goodhue is "first of all an artist, and an artist of genius."

Miss Ruth Hinton, who is employed with the Sheldon factory and Leona Nuedenberger, who teaches in the Nehawka schools were spending the week end last week in Lincoln, their home and on account of the severe storm were not able to get back to their work in Nehawka until 3 a. m. Tuesday.

W. P. Cook of Plattsmouth and the representative of the Journal walked from Union, Nebraska last Wednesday afternoon, the former who was going from Plattsmouth to Avoca where he is expecting to engage in the barber business and the Journal scribe coming to Nehawka after news. He made the return trip to Union and then returned to Plattsmouth.

Ashworth. Marie Rappold advises you "To Sing Your Way to Health," while Kitty Gordon thinks "Forty the Age of Supreme Beauty." These are only a few of the many interesting features in this superbly illustrated number. Franz Drdla is a contemporary violinist and composer of Moravian birth. The word "Souvenir" in the original French conveys much more than in our language. It means remembrance. "Memory with all her busy train." Just what happy memory prompted Drdla to write this exquisite bit of music is not known, but the work is so popular with both professional and amateur violinists that it has become indeed a "happy memory." It is one of the loveliest and most poetic of all compositions dedicated to memory and is known to the greater part of the music-loving world. It is both sweet and sad, as are all memories.

## SENATE GETS A ROUGH JOLT THAT MAY WAKE IT UP

Senator Banning, Minority Floor Leader, Moves to Kill All Bills in Committee.

The senate was aroused from deep meditation Monday afternoon by issuing of Cass, floor leader of the democratic minority. He moved that all senate bills in the hands of standing committees at 2 o'clock next Thursday be indefinitely postponed.

"I am opposed to that motion," said Reed, as speedily as he could get to his feet. "There will be plenty of time to act on senate files before the big appropriation bills come over from the house."

Fries and Purcell, democrats, also opposed the motion and said there was no need of such action. They also explained how hard it is to get committees together and that there are a lot of deserving bills in the hands of committees. Sturdevant also opposed the motion.

"I will withdraw the motion," announced Banning. "I will give notice that if the committee do not show some speed I will renew it again."

"I would suggest that the senator use his influence to bear upon the finance committee of the house," said Reed.

"That has nothing to do with senate files," said Banning.

The excitement died down with the withdrawal of the motion by Banning.

**Senate Code Bills**  
The senate, which is a modest body, not given to loud talking and seldom having its name in the public prints, yet maintaining that it is fully one-

half the legislature, the not so numerous as its twin branch, shows signs of having a mind of its own about this code business. Monday afternoon its committee on miscellaneous subjects, reported out for the general file two bills dealing with this subject, S. F. 2 and S. F. 315. These bills, so far apart as to numbers, are like as companions. They went to the general file. If the house continues to talk and fails to send any sort of code amendment to the senate the senate will have a nice little nest egg to work upon, and may eventually hatch out something of its own production.

The senate bill bearing the small number 2 was introduced by Reed. It provides that the governor can appoint private citizens as secretaries of the six code departments, or if he chooses he may forego that expensive pleasure and if he does then automatically executive state officers become code secretaries. For instance, the governor himself shall be secretary of finance, which is nice, clean work. The lieutenant governor shall be secretary of agriculture, the secretary of state shall be secretary of labor, the state treasurer shall be secretary of trade and commerce, the state superintendent shall be secretary of public welfare and the commissioner of public lands and buildings shall be secretary of public works, none of these elective state officers receive anything additional in the way of salary except the lieutenant governor who shall be paid \$2,500 a year for being secretary of agriculture, in addition to \$1,500 which he receives for one regular session of the legislature and what he can get out of the legislature or the governor or the courts for time served as acting governor when the governor steps across the state line, and what he may pick up in the form of \$200 bills for each special session of the legislature he presides over.
