J. Mullis, for a while until she has fully recovered her usual health.

This looks like good work: Four men of the vicinity of Union scopped to the shelter while Henry Becker did the selling of just 1700 bushels of corn in four hours. This would be 425 bushels an hour or 7 bushels per minute and near seven pounds of grain the second an dthey think this is going some and we are willing to agree that this is even so. The four men who did this work were Thomas McQuinn, David Murray, Sherman Davidson and John Armstrong and surely a quartet of hustlers. The work was done on the farm of John Niday.

While there has been no robbery going on while his vigilant eye was on the scene the burglars soon organized when they found out that this terror to sinners had resigned on last Saturday evening after the busy city of Union had settled and repose the Farmers' store was entered and what was wanted taken. The postoffice was also entered and things muffed up some but as far as could be told nothing was taken. Now it looks like a night watchman is a good thing and a thing to have.

School Notes
The conditions for exemption were the same as before.

The quarterly examinations were given in our school last week. Bird study was begun in language this week in the primary room.

The primary room had perfect attendance March 21. This is very unusual.

On account of illness and bad weather there have been several absences in the grammar room.

Those pupils exempted from one or more examinations but not all are: Mabel Burbee, Amos Crook, George Stine, Doris Frans, Sterling Harris, Rachel Pell, Ronald Dysart and George Rieke.

The names of pupils exempted from all their third quarter examinations are as follows: Harriett Cheney, Nola Eaton, Carrie Hansen, Sarah Upton, Anna Rieke, Cleoma Paris, Sarah McQuinn, Oily Mae Ray, Vera Upton, Harold James, Alma T. Sans, Virginia Harris, Beulah Pell and Cordelia Roddy.

Teacher discovers a hand in the air.

"What is it, Tom?"

"Well, every time you give examinations I feel so silly and honery."

"Why haven't you finished your work, Dorothy?"

"Oh, because I was just gazing (gazing) around."

(Too late for last week)

Four new records have been purchased for the Victrola and now we expect some real music.

Two new pupils, Charlotte Boardman and Selma Reynolds, have enrolled in the Grammar room.

Five pupils were absent in the Grammar room this week.

Katherine Neumann, sister of the English instructor, visited our school Wednesday.

Zack Niday, who has been ill with pneumonia, is back in school. Joseph Lindsey is also back now. They are all glad they are with us again and hope they stay from now on.

The Primary room has a new picture, "Sistine Madonna" and the children are very proud of it.

This quarter examinations will be given Thursday and Friday of this week. Some expect a two day holiday—Others do not.

HARDING WILL CUT TARIFF ON RAW SUGAR

PRESIDENT SAYS READY IF DUTY "EVEN PARTIALLY RESPONSIBLE" FOR RISE.

COMMISSION TO INVESTIGATE

At Request of President Immediately—Department of Justice Also Making Investigation.

St. Augustine, Fla., March 27.—Investigation by the United States tariff commission into the relation of the tariff rates on sugar to the present increased sugar prices was ordered today by President Harding.

The inquiry was requested by the president in the following telegram addressed to Thomas O. Marvin, chairman of the tariff commission: "Have tariff commission make an immediate inquiry into the relation of the sugar tariff to the current prices of that commodity. It is difficult to believe that the duty on sugar can have any part in making the abnormal prices which prevail, but if the commission finds there is any ground for believing the duty to be even partially responsible, I shall be ready to proclaim a reduction in duty as provided by law."

The presidential order, it was explained, will result in enlisting another agency in the government's endeavors to ascertain responsibility for the gradual increase in sugar prices starting early in February, when sugar was selling at 5 and 6 cents a pound retail as compared with present quotations running as high as 12 cents.

The department of commerce for several weeks has been studying the sugar situation and several days ago Acting Attorney General Seymour announced in Washington that the department of justice was making an inquiry which would continue until responsibility was fixed.

Mr. Harding was said to be firmly determined that the government should do all in its power not only to bring down the present quoted prices should they be found unjustified.

He gave some attention to the sugar situation before leaving Washington and is understood to have had several communications from various officials in the capitol on the subject since his arrival in Florida.

The president was represented as unconvinced that the present Fordney-McCumber tariff rates of 1.70 cents on Cuban raw and 2.20 cents on other sugars was to blame for the increased price which Senator Ladd, republican, North Dakota, in a statement issued a few days ago, said were costing the American people at the rate of \$90,000,000 annually for every cent advanced.

His telegram to Chairman Marvin asserted, however, he is willing, should the tariff commission's inquiry determine that the tariff rates are even partially the cause, to utilize the flexible provision for the present tariff act.

INCREASE OF ONE PER CENT IN WHEAT ACREAGE REPORTED

Condition of Winter Grain in Europe and North Africa Generally Satisfactory, is Report.

Washington, March 26.—An increase of 1 per cent in the winter wheat acreage this year, reported to date for 15 countries which last year had 60 per cent of the total world's wheat area, both winter and spring, is announced by the department of agriculture.

The total area is reported as 127,055,000 acres, compared with 126,712,000 acres last year. Reports for Germany, Austria, Hungary and Jugoslavia are not included, but decreases in those countries are indicated.

Condition of winter grains in Europe and north Africa are reported generally satisfactory. In India the crop is being harvested and the outlook is favorable. While production there has not been officially estimated, commercial forecasts indicate production will be at least equal to last year, which was \$66,000,000 bushels. Exports from this year's Indian crop probably will be larger than last year, as India now has on hand the usual reserves, whereas at the beginning of last year the reserves were much depleted.

Argentina's exportable surplus of wheat this year is placed at 127,330,000 bushels by the latest estimates and its crop at 194,078,000 bushels. The exportable surplus is 12 per cent less than last year. New Zealand's preliminary official estimate of wheat production is announced as 8,500,000 bushels, which is 2,100,000 bushels less than last year.

BUSINESS CONDITIONS GOOD

Washington, March 27.—Business conditions in March thus far give reason to believe there will be no slackening activity in the immediate future, according to a survey of conditions made public tonight by the federal reserve board.

Recent increases in industrial and commercial activities have been reflected in a larger volume of loans by banks which are members of the reserve system. Most of the loans were for commercial purposes, according to the survey.

HAVE FINE MEETING
LAST EVENING

Select Mrs. Anna Ptak, Local Commander, as Representative to the Supreme Review.

From Wednesday's Daily

Last evening the local review of the Macabees ladies held their meeting at the M. W. A. hall, the ladies finding that owing to their very large membership it is necessary to have a meeting twice a month instead of once as has been the custom.

The review had the initiation of several new members as one of the chief features of the evening and the ceremony were carried out in a very impressive manner as the new members were received into the order.

At this meeting the selection was also made of the representative from the local review to the supreme gathering at Los Angeles in May, and for this position, Mrs. Anna Ptak, the local commander, was named.

The supreme review will have representatives from each local over the United States and one of the great gatherings in the history of the order is looked forward to. The delegates will leave Omaha on a special train on May 25 and reach Los Angeles on May 28 to attend the opening session of the review at Patter-son Field.

ELKS HAVE BIG TIME AT SESSION LAST EVENING

Four New Candidates Brought Into the Order and a Fine Time Enjoyed by All Present.

From Wednesday's Daily

The session of the Elks lodge last evening was one of the greatest of interest to the large number of the members of the antlered tribe present and four new candidates were received into the mysteries of the Elks and are now fully horned and ready to roam the ranges with the rest of the antlered tribe.

The local officers and drill team conducted the initiatory ceremonies in a very impressive manner and the beauties of the cardinal principles of Elkdom impressed upon the minds of the young men who comprised the class. A. H. Duxbury, Joe McCarty, J. E. Sanderson and J. M. Heck were the new members received and given the proper induction.

Following the initiation and session of the lodge the members were treated to a fine lunch prepared and served in the banquet room of the club house and which was very much enjoyed by all.

The local lodge had expected to entertain some forty of the members of Omaha lodge No. 39, but owing to the very bad condition of the roads, which made auto travel a matter of the greatest difficulty, the visit of the Omaha brothers was postponed until a later date when they promise to be here in full force.

HAD SOME COLD WEATHER
From Wednesday's Daily

Frank Wooster, Jr., who is now located on a farm near Lawler, Iowa, writes home to his parents and tells of the very cold weather that prevailed there during the recent blizzard and which caused much loss of cattle and stock and suffering from the cold by the residents. Mr. Wooster states that he had the greatest difficulty in getting to and from church last Sunday and found it necessary to wear a heavy fur coat over his ordinary overcoat and at that suffered a great deal from the cold. He likes his new location fine and has picked up in weight since taking over the farm work.

How long Mr. and Mrs. Harding will stay in Augusta has not been decided, nor have any decisions been reached as to whether other stops are to be made enroute from that city back to Washington.
