

# MURDOCK DEPARTMENT.

PREPARED EXCLUSIVELY FOR THE JOURNAL.

## Make the Farming Pay!

Keen competition in farming, as well as in business, requires the best machinery, best thought and best practice.

The Advance Rumley machinery embodies all this. I am handling a full line of this. "The Last Word" in power farming machinery.

The Oil Pull tractor in four sizes. The two ton Rumley truck. The Advance Rumley Steamer in three sizes. Come in and see them.

### ALL KINDS OF BELTING MATERIALS

The Grand Detour tractor plow in five sizes, from two-bottom to six-bottom plows.

In the thrasher line, we also have separators of five different sizes.

## ED. GUILSTORFF,

MURDOCK -- NEBRASKA

E. H. Miller was a visitor at Union where he has a farm last Tuesday, making the trip in his car.

Misses Anna and Ada Lau were visiting with friends in Ashland last Wednesday for a short time.

Frank Rosenow was placing the streets of Murdock in excellent condition by dragging and smoothing them up.

Wm. Leutenens traded his car to Mr. Jess Landholm, receiving a Mitchell, which he will use for his work and for the family as well.

O. W. Gillespie and wife and A. H. Ward and wife were looking after some business and visiting with friends in Omaha last Thursday.

Charles Long, to make good the damage which the hail storm of last summer did to his home in Murray, is painting the building over again.

Miss Luella Ekerman, of near Greenwood, has been visiting with her friend, Miss Anna Bornemeier, coming last Sunday for a few days' visit.

Uncle Henry Beckmann was looking after some business matters in Omaha last Thursday, making the trip with Mr. Gordon Block on the truck.

You can insure your grain against the hazard of hail for  $\frac{3}{4}$ % at the Farmers & Merchants Bank, Murdock, Nebraska.

Both H. C. Backemeyer and Wm. Stock living northwest of Murdock, were on the market with hogs last Thursday, meeting with an advancing market.

Miss Margaret Amgwert is attending summer school in Lincoln, going over to the capital city the first of last week. Miss Margaret will teach during the coming year.

Matthew and Victor Thimgan have been making some repairs on the Farmers elevator at Murdock, which is a building well along in years and needing some overhauling.

See the new ad of the Murdock Mercantile company, calling attention to their line of new straws and

silk hose. They have something pretty nifty in both lines.

Mrs. O. M. Amgwert is staying at the home of Mr. and Mrs. Harry Duckworth, where she is caring for Mrs. Duckworth, who is reported as being quite sick at this time.

H. H. Lawton, the painter, is painting at the home of L. Neitzel, which when he is done will present a more pleasing appearance and will be an insurance against the elements.

Henry Heimein was a visitor in Omaha and Plattsmouth, getting some dental work done at the latter place and returning home Thursday evening after having spent some time there.

Miss Jennie Bauer has been visiting in Omaha for a few days during the past week as a guest of relatives and friends, and should she find employment suitable will remain for some time.

There was a social time at the dance on last Thursday, it being placed one day earlier on account of a number of those who are enjoying the dances wishing to go somewhere else on Friday evening.

There is joy at the home of Otto Reickman, where a fine boy arrived a few days since and the fond parents are greatly overjoyed on that account. There is also some joy at the home of Grandpa Reickman because of the arrival of the grand-son.

Max Dusterhoff and his coterie of workmen have been working in Omaha during the past week and doing some inside work during the rainy season which will give them an opportunity to get at the outside work which the rain has prevented them from doing for some time.

W. H. Rush and wife are expecting to take a trip to Texas in a short time and see the country. Gust Gakenier, who was down there for some two weeks, liked the country well enough that he purchased a 20-acre tract which he is thinking of going on to live, for he says that is one of the best sections of the country.

Miss Elsie Deickman, who has been staying at Ashland while employed as a needle in her hand which caused an infection and the hand had to be lanced. Miss Deickman was compelled to take a rest, if one should call it a rest with a sore hand, but is hoping to be back at work again soon. The hand had to be lanced a number of times.

Farm Loans made at the rate of 5%. Option to pay at any time. If you desire a farm loan see O. J. Pothast at Farmers & Merchants Bank, Murdock, Nebraska.

J. G. Scheel and three daughters, Miss Clara Scheel and Mesdames C. H. Lau and Frank Reister, the latter two of near Murdock, were visiting at the home of another daughter, Mrs. Frank Hart, of Adams, they making the trip in their car. Miss Clara Scheel did the driving and found it far from fun driving the forty miles in the mud. They however had a most pleasant visit while there.

The girls who were spending the week or ten days in Creta at the Campfire Girls camp, returned home last Wednesday and report a good time. We are letting them tell their experience themselves. Those who enjoyed the occasion were Misses Margaret Tool, sponsor, Florence W. Thimgan, Catherine Neitzel, Margy Amgwert, Irene McDonald, Hildegaard Baumgartner and Mary Isabel Tool.

Will Celebrate Children's Day An excellent program is being prepared by the ladies and children of the Murdock school, assisted by the Louisville and Callihan churches for rendering at the Callihan church on next Wednesday evening.

This is a Fish Story We do not wish to pass the truth of this story, but simply pass it on to you as it was told to us. It concerns a few fishermen of Murdock, Jerry McHugh, A. J. Tool H. W. Tool, A. J. Bauer and E. M. Shatto, who went to Meadow to fish, and it was said that they got a large number of little fish, but the ones which got away and nearly upset the boat in which A. J. Bauer was riding, and which he declared would weigh 300 pounds. You might ask Mr. Bauer about this weight again to make sure we didn't misunderstand him.

Henry Guthmann Doing Nicely Mr. H. A. Guthmann, of the Bank of Murdock, who underwent a second operation for relief from a growth in his ear, is doing nicely and was home for a number of days, and on last Thursday was a visitor in Omaha, going to allow his physicians to see the progress of the healing of the wound.

Forgot Their Dog Two or three days since while scouting in the country, a couple of boys having a small dog with them, not wishing to lead the dog all the way, tied the animal to the hedge fence and when they came home another way, they forgot about their little canine friend until three days later when they made haste to release it from captivity and you may bet both the boys and the dog were glad he was free again.

Better Return Money and Tools Mr. Depper, the carpenter, is a man who has worked very hard and while he was away and had left some money and his tools in the garage of J. G. Scheel and had better find an opportunity to return both the tools and money and thus save trouble. It is not wished to prosecute the parties on account of their families, but if they desire to save trouble they had better get the tools and money back as soon as possible.

After Many Years Nearly sixty years ago, two boys, Charles Bornemeier and Chris Miller worked together in the pines of Wisconsin and Michigan for a season or two, and later Mr. Miller came west and has lived for many years in this vicinity. Ever and anon he would think of his friend, Charles Boerner, in his home at Kuddington, Michigan, and wonder how he fared. Last Wednesday Mr. Boerner stepped off the train at Murdock and surprised his boyhood friend, Mr. C. L. Miller, who was as pleased as a boy on Christmas.

Messrs Miller and Boerner and August Panska have been spending the time since Mr. Boerner's arrival in visiting together most pleasantly. In conversation it was discovered that J. J. Gustin was also born not far from where these gentlemen lived when boys. Mr. Boerner is 77 years of age, a retired contractor, and Mr. Miller is two years his junior, 75 years of age. They surely are having an excellent time.

Visited Boy Scout Camp Messrs F. R. Guthmann, Joe Guthmann and Jack Craig, thinking to see some of Cass county, and also visit the Boy Scout camp near Louisville, hiked (except when they were able to catch a ride) to Louisville on last Thursday, encountering a rain storm and some muddy roads along their way. Their absence was a source of much anxiety to their parents as they did not know where the boys were until Mr. Reese Hastain, of Louisville, discovered them there and phoned their folks here of their whereabouts. Later Mr. Hastain brought the boys home in his auto.

Call at the Bates Book and Stationery store and inspect the unusually large line of fancy crepe paper for all occasions. It makes the decoration for an entertainment or social gathering a matter of ease and solves the hostess' problem.

## MURDOCK GIRLS ENJOY CAMPING TRIP AT CRETE

"Bugle, girls!" The sore throat-laden rain failed to diminish the noise and laughter of the first few minutes. Bloomers and middie used for pillows at night were donned to the tune of an original song, "Let's Kill Who Heard that Bugle," etc. Half an hour later, washed, brushed and middied girls—the Murdock Camp Fire girls enjoyed an outing at Camp Crete—dashed for the breakfast line.

And, say, you should have seen the Murdock camp Saturday morning, standing barefoot in the rain, with torrents running down their necks, singing "Nobody Knows How Dry I Am," "When Do We Eat?" etc., until everyone in line yelled for Murdock and ate three slices of bread.

For the rest of the day the big events were community sing, classes, tent inspection and swimming in the rain.

If you want an account of some real thrills ask Markel Amgwert about the trip to Crete when the boat got stuck; Florence Thimgan about collapsing beds; Katherine Neitzel about the hominy; Irene McDonald about stung night; Mary Isabelle Tool about chicken fences; Hildegaard Baumgartner about stung night and Frances Dorr why she likes to wash clean dishes.

Murdock received honorable mention for clean cabin. Irene McDonald was awarded the symbol for being the best all around sport in the Murdock camp. This was by unanimous vote of the girls. It was awarded at the Grand Council Fire conducted by Miss Camphorn from National Headquarters on Thursday night.

Next week the broadcasting equipment (Linotype Model 8, No. 17.750) of Station ETOA will be removed to the ground floor of the Journal office. This should not interfere with our efficient broadcasting service, however.

A number of Plattsmouth people, while in Omaha, have time to visit the broadcasting station, and we are informed by WOA that they will be welcome at any time of the day or evening, whether broadcasting is in progress or not.

Remember when they used to use a thumbscrew to screw down on the phonograph records to keep them from "jumping" off? There are some equally as foolish appliances on much of the present-day manufactured radio apparatus.

Band instrumentation of "Armistice Day Forever" national American Legion march have been ordered and will be played by the Eagles band on WOA on July 9th, when it broadcasts the second Plattsmouth community program under auspices of the local Legion post.

Membership cards are being mailed to Plattsmouth WOA's. As yet the offices of Chief Grid Leak and Loose Coupler are unfiled. Also, two more Binding Posts are needed to complete the Plattsmouth Antenna. Rush your applications to us or to Station WOA, at Omaha.

Gave a Fine Program The old saying, you can't tell by the size of a frog how far he can jump, was graphically illustrated on Tuesday evening when the Lanyon (Iowa) community orchestra put on one of the best programs we have heard broadcast from WOA. The boys, many of whom are farmers, knew their stuff and put it across in great shape. Lanyon is an "off-the-railroad" village of 100 or so population.

Broadcasts Invitation John Hart, filament lighter of the Plattsmouth Antenna, asks permission to broadcast a ten-line message from Station ETOA and we are pleased to introduce him to our large unseemly audience.

Care of Head Phones The efficiency of your radio receiving set depends largely on the care taken of your headphones. Feeble electric currents set up in your receiving apparatus by incoming waves are passed through the coil of the phones. This current is rapidly changing in value or fluctuating, which change causes a corresponding change in the degree of magnetism within the pole pieces. The diaphragm, being suspended within this rapidly changing magnetic field, records these fluctuations in the form of mechanical vibration, which in turn is reflected to the ear in the form of sound waves. When this delicate function is kept in mind it is easy to understand why more than the average care should be taken in handling these instruments.

Few Getting WOC Here Now Nearly everyone in this vicinity complains they can't get Davenport in at all these days. Although WOC is now on summer schedule there are times during each week they are in the air when WOA isn't, and barring excessive static should come thru fairly good. Here's their schedule:

Sunday—Church service 8; 2-hour program by P. S. C. orchestra beginning at 9 p. m. Sandman's visit each week day except Tuesday, 6:30 to 6:50. Chimes concert each week day except Wednesday, at 8:45. Wednesday—Pipe organ recital at 8. Late program, 10 to 11, followed by "Tourists Road Report." Saturday—Dance program, 9:30 to 10:30 by P. S. C. orchestra.

Learn to make the dainty and attractive novelties in Dennison art paper by calling at the Bates stationery store, corner 5th and Main streets. Special accommodations for the ladies learning.

## FROM OUT OF THE ETHER

Radio News Broadcasted each Saturday by Station ETOA.

Monday is Glenwood night. The band there, under direction of Bandmaster Ed Schulhof of this city, will furnish the program.

We are looking forward to a program by Wahoo—the town that WOA has put on the map.

Another town to be granted an early broadcasting date from WOA is Woodbine, Iowa. Others are on the waiting list.

Technicians tell us it is futile to attempt loop reception without one or more stages of radio frequency amplification.

The Music Publishers association hasn't been able to scare many of the big broadcasting stations out with their royalty threats.

It may be some of the excess static is caused by the terrible choppiness of the air some of the Plattsmouth golf novices are doing just now.

Everyone knows Judge Begley's short speech making ability and will want to hear his five minute address on the second Plattsmouth radio program from WOA on July 9th.

Norris Cummins is lamenting the waning interest in his "radio club," formed many months ago. One of the charter members has become afflicted with "autotitis" and can no longer spare time for radio research.

Next week the broadcasting equipment (Linotype Model 8, No. 17.750) of Station ETOA will be removed to the ground floor of the Journal office. This should not interfere with our efficient broadcasting service, however.

A number of Plattsmouth people, while in Omaha, have time to visit the broadcasting station, and we are informed by WOA that they will be welcome at any time of the day or evening, whether broadcasting is in progress or not.

## Save Money on Tires!

SPRING TIME IS NOW HERE WITH ITS HARD WEAR ON TIRES

During the past few weeks the prices of tires have advanced some 15 per cent. Fabric and rubber are going up every day and the manufacturers promise another sharp advance in a short time.

Fortunately we have a large stock of first class guaranteed tires, including Goodyear, United States and Goodrich, which we will sell at the old prices. Buy now and save the difference.

**SMALL MOTORS FOR POWER**

I am carrying a quarter horse electric motor for driving your washing machine and similar other light work. Come and see me about your wants in this line.

## E. W. THIMGAN, Murdock, Nebraska

### ROAD VIOLATES PLEDGE AND RAIL STRIKE RESUMED

Colorado Attorney General, Mediator, Announces Rio Grande's Bad Faith.

Denver, June 15.—A strike of railroad shophen over the entire Denver & Rio Grande Western railroad system and on the Rio Grande Southern, effective tomorrow morning at 10 o'clock and affecting nearly 5,000 men, was called today by George F. Mount, vice president of the Brotherhood of Railway Car Men; George A. Doyle, international representative of the machinists' organization, and H. Hammons, chairman of the shopcrafts' executive board, of Denver.

The strike was called following the announcement of Attorney General Russell W. Fleming of Colorado, who was instrumental in settling the shophen's strike recently in the state, that the railroad company had failed to live up to the agreement under which the walkout was settled.

Mr. Doyle, who announced the calling of the strike, said that the order was based on the attorney general's declaration of bad faith on the part of the railroad company.

Attorney General Fleming announced today that he had virtually released the union men from their promise to return to work under a gentlemen's agreement with the railroad, effected May 11, last.

Mr. Fleming notified the members of the shopcrafts' union of the alleged failure of the railroad to keep its promise in a letter dated June 14.

Mr. Fleming cited instances where the railroad is alleged to have sought to hire non-members of the union since the shop workers voted to end the strike and applied for reinstatement. This, he said, is a direct violation of the agreement. The road had agreed that striking employees would be reinstated.

They were to return to employment "as needed," but, according to Mr. Fleming's letter, about 50 per cent of them since have been classified as "objectionable" to the railroad.

Special instructions in making the novelties and attractive paper baskets and flowers can be had by calling at the Bates stationery store at Fifth and Main street, where ample room has been arranged for this line of work. The ladies are invited to come in and look this line over.

Advertise your wants.

### AUSTRIAN PRESS ATTACKS STINNES AS UNPATRIOTIC

Vienna Newspaper Charges Financier Sold Out to France; Making Arms For Ruhr.

Vienna, June 15.—Hugo Stinnes, Germany's chief captain of industry, is furnishing the iron that goes into French cannon to help France dominate the Ruhr, according to charges made today by Die Boerse, Vienna's leading financial organ, and Die Stunde, a daily.

These papers declared that, while Stinnes ostensibly is fighting France in the Ruhr, he has actually unpatriotically sold himself to the enemies of his country by making pacts with French industrialists in Austria. These pacts, it is declared, result in Stinnes' iron going into French cannon.

Die Boerse gives four whole pages to the alleged exposure of the transaction in Alpine Montana, which in Austria's mountain of iron ore, owned largely by Stinnes, in which Schneider-Creuzstot, the chief gun and arms manufacturer of France; Castillon, Austria's great war profiteer, and Stinnes himself, are made the chief figures.

Schneider-Creuzstot, it is said, are now the chief stockholders in the famous Skagadun works in Pilsen, in which were made the famous big mortars and guns for the Austrians during the war, but which now belong to Czecho-Slovakia.

This transaction, Die Boerse charges, made profits for "certain parties aggregating 330,000,000 Austrian crowns.

"Stinnes' permits work under full steam in the furnaces and iron works under his control to make parts for French cannon," said the paper.

**500 PARTY**

The Misses Ann Marie and Lenora Kruse invited eighteen young friends to their home on Monday evening in honor of Mr. Victor Wallick and Miss Opal Ellis, Mr. Ellis LaRue of Union and Miss Bonnie Ellis.

The evening was spent playing 500. During the evening a messenger boy brought a telegram. It was for everybody present, so was read. It was the announcement of the marriage of Mr. Wallick and Miss Ellis, which will occur some time in July.

The hostess served light refreshments, pineapple ice and angel food cake.—Weeping Water Republican.

All the home news delivered at your door daily for 15c a week.

## Business is Good, Thank You!

The Landholm Garage is kept busy these days with the work which comes to us, and the reason is the best service, the best goods and the best work.

We carry Lee Tires and they are puncture proof. Better get your order in early.

**We Are Furnishing 24-Hour Service!**

## The Landholm Garage Murdock, Nebraska

### Call Up "Charley!"

Don't lose your temper and abuse your wife and kids because the "Flivver" refuses to start. Put "Trunk-bolzh Gasoline" in your tank and make a quick "Get-away."

Our pure Pennsylvania Motor and Tractor oils are the cheapest because they wear longer.

**Call Up "Charley"**

## -GEO. TRUNKENBOLZ OIL COMPANY- Eagle and Murdock

**Sure—We Have Them!**

Nifty summer hats, in all the latest variety of braids in straws, with Panamas as well. Just the thing for the young man and other shapes for the men of more mature years. Going from \$1.50 to \$3.50.

### GENTLEMEN'S SILK HOSE

In blacks, browns and blues. Just the thing for summer wear—thin and cool. The "Clocked" hose are the latest in style. Come in and look them over.

## Murdock Mercantile Co. MURDOCK -- NEBRASKA
