LOCAL NEWS

Ed Schulhof, Piano Tuner. Telephone 389-J.

Charles Johnson of near Louisville was among the visitors in the city today to take in the circus performance.

T. J. Brendel of Murray was here today for a few hours looking after some matters of business and visiting with friends.

J. G. Meisinger came in this afternoon from his home near Cedar Creek to look after some trading and visiting with his friends.

G. P. Hill was among the well known residents of the vicinity of Plattsmouth to come in and view the parade and circus today.

Miss Ella Ryan of Scranton, Kansas, is here for a visit of a short time a guest of her uncle and aunt, Mr. and Mrs. William Morley.

Edward Murphy of Manley was here today for a few hours visiting with friends and attending to some matters in the county court.

J. L. Smith of Nebraska came in last evening to visit with his friends and relatives here for a short time and also to attend the circus.

Mrs. J. W. Hendricks of near Murray was here today for a few hours looking after some matters of business and visiting with friends.

Mrs. Henrietta Hill, who has been visiting with her sister, Mrs. Don Norman at Sheridan, Wyoming, came in this morning after a very pleasant visit.

F. H. Johnson and family of Weeping Water were here today looking after some matters of business and visiting with his old time friends and acquaintances.

Will Kohrell, a former resident of this locality, but now living at Nebraska City came up this morning to visit with friends and look after some matters of business.

William Sarchett of Loveland, Colorado, arrived here yesterday for a visit with the George Brinklow family, the young man having been a neighbor of the Brinklows when they were living at Temple, Texas.

Sheriff Quinton and family returned yesterday afternoon from the west where they have been spending a few weeks on the farm in Colorado and also at Brule, Nebraska, where a brother of the sheriff resides.

C. F. Clemmons, one of the old residents of Havecock and who was in that city and the employe of the Burlington among the first years of the shops there, came in yesterday for a visit with friends. Mr. Clemmons while here will call on Charles Peterson, Will Weber, and Alvin Ramey, all of whom learned their machinists trade at the Havecock shops.

HAPPY WORKERS HOLD ACHIEVEMENT DAY PROGRAM

Demonstration Team Shows Possibilities of Bungalow House Dress — Many Were Present.

Have you heard of the Happy Workers Sewing club of near Cedar Creek? Well there is one, which consists of nine girls. This club was organized the 15th day of December, 1922, and has finished its first course of sewing and the members were required to give a public demonstration of their work before continuing on more advanced sewing lessons.

The first thing made was a sewing bag, all hand made, a clothespin bag, dress protector, slip, apron and bungalow house dress.

On August 22nd the Happy Workers held their Achievement day program at the home of Alma and Verna Meisinger, at which time the girls and their leader gave a very interesting program. This included a song by the club, "We're Here for Fun," a talk by the president, Miss Helen Meisinger, on "Club Work," a reading by Mrs. Lorine Urish on "Achievements of Our Club" and a song by the club entitled, "Our Club Will Shine."

Misses Verna and Margaret Meisinger, the demonstration team, gave a demonstration on the possibilities of the bungalow house dress. They drafted the paper pattern, fitted and adjusted the same, then cut the dress and fitted the different style collars for different types of girls and showed the finishing details of the dress.

The girls then gave a style show, followed by a reading by Miss Mildred Meisinger, "Standard Club."

Miss Ida Wilkins, the county home agent, was present and gave a talk which was very entertaining. She then placed the gold seal on the club charter, after which Miss Green of Lincoln presented the girls with their achievement certificates. This was followed by a song, "Our Girls are Ever So Busy," by Helen and Verna Meisinger, Esther Lohnes and Loretta Renner.

A very dainty lunch was served by the girls which was enjoyed by all. There were about sixty in attendance and all agreed that they had spent an interesting afternoon.

Mrs. Fred Gunther and Mrs. Philip Kehne were the judges of the finished work of course one.

The roll, which was given for Miss Wilkins, was as follows:

Miss Wilkins of Cass, Teaches each lass
To make her own pockets so pretty.
In home demonstration
She's the best in the nation.
So here's 9 rajs for Miss Wilkins.
For who? Miss Wilkins. Who? Miss Wilkins.
She's all right. Who's all right?
Miss Wilkins;
So here's 9 rajs for Miss Wilkins.
Bahrahrah Bahrahrah Bahrahrah.
The Redcell club girls challenged the Happy Workers for several yells in which they were very active in answering.

Journal want ads pay. Try them.

ENDORSE REWRITTEN BIBLE

Columbus, O., Aug. 24.—Rev. B. D. Evans, chairman of the Theological Seventeen, organization of modernist clergymen here, endorsed today the rewriting of the entire testament into "Americanness" by Dr. Edgar J. Goodspeed of Chicago university, as "the Christian thing to do."

"Anything tending to bring out the message of the Bible clearer should be encouraged," Rev. Mr. Evans said.

New York, Aug. 24.—Translating the Bible in modern terms may increase the utility and interest of the text in the opinion of Rev. C. H. Ford, pastor of Trinity chapel, after reading dispatches relating to the modern version of Professor Goodspeed.

There is one objection and that is it may tend to cheapen the Bible which is written in beautiful language," he said.

SHORTAGE OF TEACHERS IN WESTERN NEBRASKA

Lincoln, Aug. 24.—John M. Matzen, state superintendent of public instruction, announced today that 50 vacancies in school districts ranging in salaries from \$75 to \$125 a month had been reported to his office. A majority of vacancies are in western and northwestern Nebraska.

BIG AND RARE FISH AT THE STATE FAIR

Ninety Pound Cat, Forty-Five Pound Silver Cat and Largest Rainbow Trout Known.

A ninety pound catfish, a forty-five pound silver catfish and the largest rainbow trout in captivity are to be shown at the state fair by the state fish and game bureau's Deputy Secretary Grant L. Shumway, of the department of agriculture, in making this announcement, said he did not know the personal history of the big catfish, but if it is of the same family as one exhibited many years ago at the fair, it is likely to smash the plate glass in its aquarium and tear its way through the crowded grounds for a considerable distance before it is captured and slaughtered with an ax.

Mr. Shumway has information which leads him to believe the silver catfish will be the first ever shown at the state fair. It is not an albino but a distinct species of catfish. It was caught in the Platte river on a trot line, which is a sort of line under the ban of the law if it contains more than five hooks.

Mr. Shumway modestly declines to say how much the big rainbow trout weighs. He goes so far as to say it will weigh from three to eight pounds. It is one of many obtained from a private breeding pond in Colorado.

In addition to these headlines the usual beautiful and elaborate display of fish will be made by the state fisheries at the state fair. A separate building will house the show. Although the building is small it is so arranged that people can walk around it and view the display which will be shown in aquariums in the walls.

WOULD CURTAIL AIR ARMAMENT

American Legion Urges President to Call a Conference Similar to Recent Naval Meet.

Indianapolis, Aug. 24.—American Legion national headquarters today made public a number of letters received from United States senators, congressmen, governors, college presidents and editors in regard to the Legion's proposal to ask President Coolidge to call an international conference to halt the race in military air armaments in which the Legion charges is in progress among France, England, Italy, Russia and other nations. Among the senators who approved the proposal is Henry Cabot Lodge, Massachusetts.

The president, it was said today at the white house, has not had an opportunity to consider in detail the suggestion for such a conference recently advanced by the American Legion. Even the most preliminary consideration, however, the president was reported as feeling brings up at once practical difficulties of an important nature.

The president is said to believe that it would be rather doubtful whether European nations, in view of the unsettled situation abroad, would join in such a conference at the present time.

Mr. Coolidge is also understood to be of the opinion that conditions in Europe, which prevented an agreement on aircraft limitations at the Washington conference still prevail to such an extent that European powers could not be expected to have changed their attitude toward such a suggestion.

The American government in view of the president is doing all it can by refraining from competitive building of aircraft for war purposes and until the situation in Europe changes cannot do more than express its views through its own action.

However, the president, it was said would be greatly pleased to take any steps in line with the American Legion's suggestion whenever the time appeared propitious.

WOMAN MAY BE PRESIDENT

Omaha, Aug. 24.—Association politics was the principal topic among delegates at the Nebraska Press association convention here today. Mrs. Marie Weekes, editor of the Norfolk Press, seems to be the outstanding candidate for president.

The two hundred delegates were entertained at a luncheon at Carter lake at noon.

Congressman Edgar Howard, editor of the Columbus Telegram, recently reported seriously ill, seemed to be getting as much enjoyment out of the outing as any of the delegates.

"The only time that I expect to miss one of these outings is when I am dead and gone and then I'll be with you in spirit," he said.

Old time editors, all of whom have been in the harness in Nebraska for forty or more years met and organized an "Old Timers" club. In the absence of M. A. Brown, editor of the Kearney Hub, Ed Fry of Niobrara was named dean of the club.

GENERAL MARCH TO MARRY MUSIC STUDENT IN LONDON

London, Aug. 24.—Gen. Peyton C. March will marry tomorrow at St. George's registrar office, in the shadow of Buckingham palace, Miss Cora Virginia McEntee of New York.

The wedding is the culmination of a romance begun two years ago in Rome shortly after General March's retirement as chief of staff in the United States army, when he met Miss McEntee, who was a music student.

THE DANCE YOU LIKE!

There will be a dance given by Mr. E. L. Peterson at the Peterson Hall, Murray, Neb., Friday Evening, August 31st to which a cordial invitation is extended to all. The Bob Lee Orchestra, of Omaha, will furnish the music for the occasion.

A Good Time is Assured!

ASKS FOR FIVE AND GETS FIVE THOUSAND

Funny Incident in Star's First Big Comedy, "Mr. Billings Spends His Dime"—Parmele.

How would you like to ask five dollars for information you had and have the buyers misunderstand and give you five thousand dollars?

That exceptional situation arises in "Mr. Billings Spends His Dime," a Paramount Walter Hiers first star picture which comes to the Parmele Friday and Saturday.

Walter spends his last ten cent piece for a cigar. Inside the band of that cigar is a secret message from an insurrecto gang in Santo Dimer, a South American republic, to secret agents of the revolutionists in this country.

When the agents attempt to get the information from Hiers as to what was in the band, he agrees to sell it. "How much?" demands the secret agent quickly.

Astounded by the sudden request, Hiers is unable to talk. Instead, he merely holds up his two hands and signifies "ten," but he means "ten dollars."

"Too much," cries the other and indicates that he will compromise on five, to which Hiers agrees.

Then the stranger pays Hiers five thousand dollars and he nearly falls through the floor.

What he does with the five thousand and makes a story as full of laughs and thrills and romance as can be imagined.

Acquiline Logan is featured as leading woman and heads an exceptionally capable supporting cast. The production is massive and beautiful and there are many laughs as well as thrills in the development of the story.

GERMAN URGES YANKEE FINANCIAL DICTATORSHIP

Says Neutral Foreign Controller is the Only Way Out of Present National Dilemma.

Berlin, Aug. 24.—"A financial dictator—preferably made in the United States—now is Germany's only hope for extricating herself from financial and economic chaos," is the suggestion advanced by Dr. George Gothein, democratic reichstag leader.

"A financial dictatorship, wielded by a neutral foreigner who would not be obliged to take German sensibilities into consideration," he declares, "suggests the only way out of the national dilemma."

He disposes of the idea of installing a German dictator because, he says, such an official would never succeed in inducing the reichstag to put his measures into effect. He also predicts that a neutral financial control, or dictatorship, would enable France to "disentangle herself from her hopelessly involved position in the Ruhr without loss of prestige."

"Why not put up with such foreign control, which, at worst, would last only a few years?" Gothein asks.

He suggests that Germany make a petition to that effect, which "is no more than a logical step by an honorable debtor who innocently has come out financial grief."

PRESIDENT COOLIDGE STANDS BACK OF WOOD

Washington, Aug. 24.—The Washington government will stand squarely behind Governor Leonard Wood in his administration of affairs in the Philippine Islands. In making this announcement today a spokesman for President Coolidge said the administration would continue to support General Wood as its authorized representative in the Philippines and should it be found advisable would go so far as to help him in the adjustment of difficulties that have arisen.

It is not to be assumed, it was added that any controversy would arise to invoke Washington action of a sort that would be injurious to the Philippines or be found lacking in fairness to them.

WARNS OF STEAM BOILERS

Engineers Issue Safety Rules to Prevent Explosions.

Steam power is taking the place of strong right arms and "elbow grease" on West and Middle West farms, according to the boiler code committee of the American Society of Mechanical Engineers. The use of steam for scalding milk pulps, cream separators, churning machinery and other dairy apparatus is fast becoming general. Steam power is being used to pump water and saw wood.

With the announcement of the increased use of steam on farms, the committee has sounded a warning that the application of safety laws to guard against explosion of high-pressure boilers is as potentially dangerous as TNT, the committee declares.

GOLF SUPPLIES HERE

The Journal Stationery Department has just received a complete line of golf supplies, clubs of all the best makes as well as a large line of the best golf balls on the market. The line is now on display and the golfers of the community may find their needs in this line looked after in first class shape by calling at the Journal.

ARE YOU PREPARING FOR - School Days? -

School Opens on Tuesday, September 4th

AND YOU WILL NEED

School Tablets, Composition Books, History Paper, Note Books, Practice Paper, Pencils, Inks, Pens, Erasers, Rulers, and many other items, which you will always find in stock at the

Bates Corner Book & Stationery Store,

where we will always endeavor to carry all the best goods for the least money. The Stationery Store is the place to buy Stationery and School Supplies of all kinds. Here is where you will always find the big line of all Stationery Goods, from the cheapest to the very best.

ANNOUNCEMENT OF ACTION TO AWAIT SOME EXCHANGES

U. S. Government Will Not Resume Diplomatic Relations With Mexico Until September.

Washington, Aug. 24.—The United States government, it was declared today at the White House, would not be prepared to formally announce the resumption of diplomatic relations with Mexico until the middle or latter part of September on account of the necessity of making certain exchanges.

Certain exchanges yet to be made between the Mexican and Washington governments, it was said, cannot be concluded to permit an actual resumption of relations for several weeks, at least. In some quarters the belief prevailed that the "exchanges" referred to by the White House spokesmen were those connected with the claims convention agreed to between the representatives of the two governments during the recent conferences in Mexico City.

The conventions are regarded as a vital part of the agreement reported by John Barton Payne and Charles E. Warren, the American commissioners to the Mexico City conference, which the Mexican government is reported to have approved and which, it has been authoritatively stated, is satisfactory to the Washington government.

It still remains, however, for the state department to draft the conventions out of the report submitted by Mr. Payne and Mr. Warren, and to submit them to the Mexican government for approval and signature. Until this is done and the documents are in form for submission to the senate for ratification it is understood the Washington government will not officially announce its recognition of Mexico.

SYPATHY COAL STRIKE IS DECLARED IMPROBABLE

President Farrington Says Soft Coal Miners Have No Thought of Suspending Operations.

Chicago, Aug. 24.—Any apprehension that a sympathetic strike in the soft coal fields in Illinois would follow an anthracite strike was allayed today following the announcement of Frank Farrington, president of the mine union in the Illinois district, that there was no thought of a suspension in the bituminous fields. Coal operators who met with mine union officials here yesterday, said there was a plentiful supply of bituminous coal above ground to supply any emergency demand in the middle west.

Soft coal operators and mine union officials at their conference here declared no plans were made for increased production in bituminous fields in the event of an anthracite suspension, and President Farrington intimated that rumors that soft coal would take the place of hard coal if anthracite mines shut down might cause discontent among soft coal union miners.

The bituminous miners are under contract until April 1, 1924.
