

Jack C. Holt Thanks Tanlac for 30-lb. Gain

"When I stepped on the scales after taking the Tanlac treatment and found I had gained thirty pounds, it was the surprise of my life," was the emphatic statement made recently by Jack C. Holt, 2589 Himebaugh avenue, Omaha, public works foreman.

"I was hard hit with indigestion, my nerves gave way and my strength got low, and even a trip to the mountains did not help. After eating, pains, gas and heat in my stomach was almost unbearable, and I would have severe pains in my chest and back, with dizzy spells. My heart

palpitated so I would prop myself up with pillows.

"Well, sir, the Tanlac treatment made me eat like a Nebraska farm hand, and all signs of indigestion have now disappeared. My nerves are like steel, my back never feels strained, my strength is splendid, and I feel chock full of energy."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

OUT OF THE ETHER

Radio News Broadcast each Saturday by Station E7AO

September Morn.

Well here we are — new antenna and everything.

They say radio reception is best in the months ending in "er."

A little Couelism is all that's needed now. "Every day—"

Shenandoah, Iowa, is next in line for a program. Monday night.

The Elks band will give the program and it will be a good one.

Oakland, Iowa, comes Friday, the 14th, and Norfolk, Nebr., Saturday, the 15th.

The Plattsmouth Junior Review will materialize as announced whether any other program does or not.

And it will include the best young talent of the city in an offering of popular and semi-classical numbers.

The Ak-Sar-Ben board will give a full fledged radio show in 3 acts from Station WQAW, Monday night, Sept. 10th.

sical program, 10 to 11, followed by 'Tourist's Road Report.'

Saturday—Dance program, P. S. C. orchestra, 9:30 to 10:30, featuring popular numbers released thru the National Association of Broadcasters, in which many of the large stations of the country now hold membership.

Why Is It Thus?

Careful measurements of radio energy have been taken during the past year by the Radio Corporation and the American Telephone and Telegraph company, as regards the relativity of day and night transmission and their report is that the energy of the radio wave is about eighteen times as great in the middle of the night as in the daytime in winter. This difference, however, lessens in the summer when the nights are shorter. All of which raises the question, "Why is it thus?" If you can tell why the gasoline burns better when mixed with the cool, moist night air than with the dry, warm air of a hot summer afternoon, perhaps you can answer this too.

WJAZ's messages to Dr. McMillan will prove more interesting when we know he is hearing them away up there in the Arctic circle.

The new 8-hour charging service being installed at the Willard battery station will prove a great boon to those fans who want to take it in the morning and have it back to listen in with that night.

Davenport will broadcast their Labor day fight between Eddie Anderson and Mike Dundee direct from the ring, beginning about 4 p. m. We doubt, however, if they will come in here satisfactorily at that early hour.

WOC, at Davenport, has announced it will resume its full winter schedule on Sunday, Sept. 16th. This comprises a musical program each night except Tuesday, and a more extensive program Sunday evenings than heretofore.

No Regrets at His Going

Old man Static, who yearly holds forth against the radio fans of the country, has begun to withdraw his forces from the ether with the object of soon going into winter quarters, or perhaps with the idea of beginning his campaign against the listeners in the southern hemisphere.

This withdrawal is resulting in an increased interest among the fans and each week an ever increasing number of listeners are cleaning out the cobwebs which have accumulated in their receiving sets during the summer months.

Broadcasting stations all over the country report a corresponding increase in volume of mail from listeners-in and many are adding to their schedule accordingly.

It Happens Very Easily

We were guilty ourselves a few nights ago of emitting a series of heterodyning shrieks and howls into the already static-disturbed ether and therein believe we have learned the cause of so many of them lately. At any rate it is certainly easy to do when attempting to "tune out" the powerful Omaha station. In locating another it is necessary to move the dials back and forth with the filament high or higher than ordinarily used on WQAW, and try as we could we were unable to get far enough from the "beat" or carrier wave to stop the heterodyning until we were fully tuned in on another station and even then there was a tendency for surplus energy to rush in at times and approach the heterodyning state. Ordinarily, when Omaha is not in the air, little trouble is experienced in this regard or when Omaha is on in tuning to their exact wave, but in attempting to "cut through" their wave we have found it well near impossible without fouling the air for other listeners.

YES, We have no Bananas, Clarence. "30's" to all.

"The Voice of the South"

WSB, the Atlanta Journal, is again being heard all over the country on its 10:45 Transcontinental Radiowall concert. The second annual roll call is being taken and thousands of listeners are being heard from daily. WSB was one of the pioneer broadcasting stations in the country and it sounds good to again hear their chimes and our old announcer friend, Lambdin Kay, who if you should meet him face to face might easily be mistaken for Plattsmouth's genial tonsorial artist, "Rosey."

WOC's Broadcasting Schedule

Sunday—Church service at 8 p. m. Two hour musical program by P. S. C. orchestra, beginning at 9.

Wednesday—Pipe organ recital at 8. Educational lecture at 9. Late musical.

GETTING THINGS IN SHAPE TO TRANSFER PROPERTY

Grover Porter, caretaker of Arbor Lodge, started this morning, to put things about the mansion in shape for formal transfer of the property to the state on September 27th. All furniture not going with the mansion, will be removed and the book cases, library and other articles of historic value, to be left in the building as the foundation for a state museum, will be arranged on the room set apart for that purpose, by the time the transfer is made. The stables also will be ready, after being remodeled and rearranged and some articles removed.—Nebr. City News.

ENJOYED "SHIFTER" PARTY

Miss Margaret Pitzer introduced something entirely new in the social calendar here on Thursday evening, when she gave a "shifter" party in honor of visiting friends from other cities. Partners were shifted for each of the three courses of the delightful luncheon served; shifting was done when match games were played; and partners were again shifted for the theatre party at the Paramount, following the home gathering.

A tasty course scheme of yellow, including bunches of marigolds, was carried out in decorations at the home. The honor guests, who will also be Miss Pitzer's guests over the week-end, were Miss Helen Westcott, Miss Helen Pfoutz and Miss Alice Louise Westcott, of Plattsmouth, and Miss Patricia Reagan, of Omaha, who is visiting Miss Marion von Gleren, was also a guest at this most enjoyable social function.—Nebraska City News.

ANNOUNCES DAUGHTER'S MARRIAGE AT OAKLAND

Mrs. Virginia McDaniel, of Oakland, California, is announcing the marriage of her daughter, Miss Ellen Bell McDaniel to Mr. James E. Hill of San Francisco. The wedding occurred at Oakland on August 18th, and Mr. and Mrs. Hill are expecting to make their future home in San Francisco. The bride was a former resident of this city where her parents, Mr. and Mrs. J. E. McDaniel made their home for a number of years.

A BIRTHDAY SURPRISE.

Last Sunday a big family gathering assembled at the home of Mr. and Mrs. Mark Wiles. The guests came on the invitation of Mary Ellen Wiles, the daughter of the house, to help her mother celebrate her birth-

NEW LINE OF SPONGE BALLS

Just received at the Bates Corner Book and Stationery Store, the most popular line of base balls, tennis balls, golf balls and balls for the use of the children in their playing. This is a real line; do not fail to see them. Sponge balls are the latest of their kind on the market.

MEXICO AND U. S. END DIFFERENCES

Resumption of Diplomatic Relations Announced at Noon Today—All Details Complete.

Washington, Aug. 30.—Recognition of the Obregon government of Mexico will be announced at noon tomorrow from Washington and Mexico City.

Confirmation of this important development was obtained tonight from a responsible government source.

Washington, Aug. 30.—Exchanges between the American and Mexican governments, characterized by administration officials here as necessary preliminaries to the resumption of diplomatic relations, have been successfully concluded.

All that remains to restore a basis for renewal of friendly conduct of affairs between Mexico City and Washington is the making of a formal announcement to that effect. One of the exchanges already made provides for this last act incident to recognition.

Recent estimates of White House spokesmen that actual resumption of relations with Mexico would be announced formally the latter part of September, it was learned today, have been altered by the success of the negotiations and in all probability the next day or two will suffice for that purpose.

The passing of the present arrangements by which diplomatic affairs have been carried on unofficially by American representatives in Mexico City, and in Washington by unaccredited representatives, will automatically follow the announcement. While full diplomatic representation in the two capitals will be delayed for a short time, due to the necessity of selecting ambassadors for the respective posts, means have already been provided for accrediting the charges at the American and Mexican embassies and thus making possible immediate conduct of affairs directly between the two governments.

SMOOT HAS A LUXURY TAX PLAN FOR CONGRESS

Utah Senator Will Offer This at the Next Session as Substitute for Sales Levy.

Salt Lake City, Aug. 30 — A tax on luxuries and extravagant purchases is the purpose of an expenditure tax which is being prepared by United States Senator Smoot of Utah, and which will be presented to the next session of congress as a substitute for the proposed sales tax, according to announcement by the senator today.

Senator Smoot, in explaining the provisions of the new tax, said that all farmers' sales up to \$6,000 would be exempt.

Cheap commodities, such as a \$2.50 pair of shoes or an inexpensive automobile, would not be taxed, under the proposed legislation, but expensive purchases, such as a \$2,500 automobile or a \$7.50 pair of shoes, will be taxable at the rate of 1 1/2 per cent.

"The sales tax, which caused considerable debate at the last session of congress, will not be revived," Senator Smoot said, "but in its place will be proposed the expenditure tax, which, I think, will be more serviceable and cause less opposition. I do not expect any opposition from the farmers on account of the exemption up to the \$6,000 mark."

"A man who can buy a \$2,000 auto mobile can afford to pay a tax on his purchase," Senator Smoot said. "It is for that reason that the tax is to be drawn upon a graduated scale. Inexpensive purchases will be taxed very little, while expensive purchases will draw a heavier rate. A tax on a \$500 purchase will amount to \$2.50 under the provisions of the proposed measure."

CREDITORS TO WAIT A WEEK.

Indianapolis, Aug. 31—The financial troubles of Warren T. McCray, governor of Indiana, will remain in abeyance for one week as the result of action taken at a meeting of his creditors here today following the presentation of the governor personally of a proposal to turn all his holdings of every nature over to a creditor's committee of five men and a banking institution as a trustee, the creditors voted to appoint a committee to consider the executive's plan. This committee is to report to a full meeting of the creditors to be held here next Friday.

FEELING MUCH BETTER.

From Saturday's Daily.

L. W. Lorenz, who was operated on a few days ago at the St. Catherine's hospital in Omaha, by Dr. T. J. Dwyer, has been able to return home and is now feeling much better and slowly regaining the use of his throat and in a few days expects to be in his usual normal condition and relieved of the sickness that he was troubled with prior to the operation.

Books—All the latest copyrights and the old favorites at the most reasonable prices can be found at the Bates Book and Stationery store at Fifth and Main street. Take a book with you on your summer trip.

CORSETS AGAIN.

Women should wear corsets, urges Dr. John Oberwager of the New York City Health Commission. He claims corsets have "both a curative and preventive value in relation to woman's health. Few women have adequate support for the liver, which has one-thirteenth the weight of the entire body, and the stomach. I think the best support is the corset. All of which is confusing to women, who were told—when the corset was in fashion—that it was extremely injurious to the health. The corset is an artificial, unnatural instrument of torture, and generations of wearing it have weakened fair sex so that some sort of support may be necessary for most of them. Real danger is the extremes. The wasp waist, for instance.

NEW LINE OF SPONGE BALLS

Just received at the Bates Corner Book and Stationery Store, the most popular line of base balls, tennis balls, golf balls and balls for the use of the children in their playing. This is a real line; do not fail to see them. Sponge balls are the latest of their kind on the market.

Harold Smith and Jake Diller departed this afternoon for Norfolk where Mr. Smith will visit for a time and Mr. Diller spend some with his parents in that city.
