**Not a sale, but a new policy--read!**

The "house of Wescott" has been serving the people of Plattsmouth and vicinity with clothing for an unbroken period of 44 years. Measured by the flight of Time, the principles, ideals and policies of this store have stood the acid test.

Today, we put into effect a new idea in the merchandising of men's suits and overcoats—an idea that has proven most effective in the larger cities and which we believe will be equally so here. Heretofore we have scattered our effort over a price range with but a dollar or two variation between, making too many lines to keep up and merely confusing the customer with too many prices.

Hereafter we shall concentrate and specialize on three popular prices—\$25, \$30, \$35 and to these three prices shall bring every ounce of value and quality that our years of experience can command.

We believe after careful study and survey that the idea is logically correct and psychologically opportune. We are asked every season—"what's a good suit or overcoat going to cost me?"—the answer is blazoned at the top of this ad and we intend to make these three prices so famous in Plattsmouth that you can easily plan your clothing appropriation months in advance—\$25, \$30 or \$35.

You may call this the Ford policy if you choose, but at any rate it cuts out overhead, lost motion and scattered effort. It's a policy that saves you money by putting clothing on your back for less than it can be handled any other way. It means standardized, specialized clothing prices; it means the shortest possible cut from the manufacturer to consumer; it means economy in clothing buying; it means clothing where it belongs; at prices you can afford to pay.

Come in and try the old store under the new policy. If you want a still finer suit or overcoat we have XTRA QUALITY CLOTHES—\$40, \$45, \$50.

"ON THE CORNER"

**ALLEGED DRUG  
 ADDICT CAUSE OF  
 SOME EXCITEMENT**

Party Seeking Supply of "Snow" is Visitor at Office of Dr. Flynn and Threatens Him.

From Saturday's Daily.  
 Early last evening there was more or less excitement created at the office of Dr. P. J. Flynn when an alleged "snowbird" visited the office seeking a little dope with which to freshen up and when the physician refused to give any of the precious joy powder to the young man, he proceeded to give Dr. Flynn to understand that there would be many varieties of misfortune come to him if the drug was not produced. In order to get rid of the man, Dr. Flynn called a friend and asked them to notify the police and in a few moments the doer was in the hands of the law.

The man goes by the name of Robertson and came here last year, where he entered the shops and worked there until last fall, when he left and later this spring returned here and worked for a short time, and at that time it was thought by those with whom he worked that he was a drug addict from his actions. He also had some trouble with his wife while here and finally removed from this city to Omaha, where he has since been located and from where he came to Plattsmouth yesterday afternoon.

After Robertson was arrested by the police, he calmed down to a great extent and agreed that he would leave the city at once and give no more trouble and as there could be little gained by placing him in jail he was allowed to leave for Omaha on the 7:39 Missouri Pacific train and shook the dust of the city from his feet and undoubtedly will seek more congenial friends for his dope in the future.

NATURALLY USCO'S could hardly have delivered such money's worth—tire after tire—without making a clean sweep.

It's been a pretty performance every time—no two opinions about that.

And no two opinions about what tire to get again after a man has once used USCO.

**No Substitute Offered**

Say what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety-nine out of a hundred druggists recommend Chamberlain's Colic and Diarrhoea Remedy when the best medicine for diarrhoea is asked for, and do so because they know from what their customers say of it, that it can be depended upon. **The Key that Unlocks the Door to Long Living**

The men of eighty-five and ninety years of age are not the fat and well fed, but thin, spare men, who live on a slender diet. Be as careful as he will, however, a man past middle age will occasionally eat too much or of some article of food not suited to his constitution, causing indigestion or constipation and will need a dose of Chamberlain's Tablets to move his bowels and invigorate his stomach. When this is done, there is no reason why the average man should not live to a ripe old age. Weyrich & Hadraba.
