**ALL READY TO TURN ON THE LIGHTS**  
New Delco-Light Installation Complete Even to the Globes—Is Sold on Payments.

"Ready to turn on the lights!" That, it is declared, is the thought back of the new Installed-Price plan of selling Delco-Light, the well-known farm electric plant, which the company has just announced.

The announcement of this plan is especially directed to those who live in farm homes, it is stated. "We want to make it easy for the farmer to have electricity in his home, and to know beforehand just what the whole thing will cost him," declared officials of the Delco-Light company, in response to questioning about this remarkable plan.

Briefly stated, the plan is to furnish a standard model Delco-Light plant and storage battery, to install it complete, wire the house for ten lights, put in ten drop lights complete, even to the electric bulbs in the sockets, put in a general power outlet anywhere in the house the owner may choose, in short to furnish a complete Delco-Light installation, "Ready to turn on the lights," as stated above.

Low prices are assured, on all models and, in addition, financing of the purchase is taken care of, where necessary, by an easy payment plan, which calls for only a small cash payment. The Delco-Light company is well known for its efforts at spreading the benefits of electricity
