Mrs. George W. Thomas, Well Known Former Club Woman Here, is President at Neb. City.

From Monday's Daily.
The many friends of Mrs. George W. Thomas, formerly of this city, and who has been for the several years past a resident of Nebraska City, will be very much pleased to learn that her marked ability as a leader in woman's club circles has been recognized there by her election to the position of president of the Nebraska City club, a live and active organization. The Nebraska City Press yesterday in their society columns carried a very fine picture of Mrs. Thomas and the following regarding her work:

"Mrs. George W. Thomas, who will serve the Nebraska City Woman's club as president for the coming year is a woman whose advent into this city has meant a great deal to its social and club life because of her activity along these lines. Mrs. Thomas came here from Plattsmouth four years ago and while a resident of that city was also active in club work, having been a member of the original Woman's club of Plattsmouth under Mrs. Stoutenborough who later became a state president. Prior to her marriage she was a teacher in the city schools of that place.

"The Neb. City club has shown Mrs. Thomas previous honors by electing her twice as its treasurer. She is also a member of Queen Esther chapter, Order of the Eastern Star, and the Nebraska City Music club.

"Mrs. Thomas has been very much interested in the work of the Woman's club for the coming year and is very hopeful for the successful culmination of her plans since a departure has been made in the method of conducting the club.

A REAL DIRTY TRICK

From Monday's Daily.
The auto travelers along Chicago avenue early Sunday morning were the victims of the malicious act of some person or persons as yet unknown and who had strewn tacks by the handfuls over the paving which found lodgment in the tires of the cars with the result that practically every car passing along the avenue had from two to four punctures.

A number of the passersby stopped and gathered up the tacks and several parties had heaping handfuls of the tacks which were of a very long and heavy carpet tack variety and perfectly capable of causing a puncture in any tire that had been very much worn. John Hatt, who was on the scene early in the morning, picked up at least two pounds of the tacks

who committed the act had made his purchases in some other town and came here to deliberately destroy the tires of any person who might be traveling along the avenue.

This is a very small trick to do and one for which the perpetrator should be given the full extent of the law if they are located and it is safe to say that those who suffered the depredations of the tack thrower would willingly agree that he should at least have life imprisonment and at that consider himself lucky.

Mayor Johnson and the members of the police force were out to look over the scene of the tack throwing but failed to find any clue that might lead to the discovery of the persons or persons who was guilty of throwing the tacks. From the appearance of things they must have thrown the tacks out by the handful and did a very thorough job of it.
