BRYAN REVISES HIS FIGURES ON ROAD SHORTAGE

Governor's Road Deficit Drops to \$295,053—May Not Appear Before Senate Committee.

Governor Bryan will be at a meeting of the board of pardons and paroles Tuesday when the state senate investigating committee meets at 2 o'clock to hear his testimony and that of others who may know something about the state or highway department's road construction fund and the amounts due from the federal government. He will supply the committee with a report compiled by Roy Cochran and George E. Hall showing the amounts owing by the state and federal government on road contracts entered into during the past biennium and the amounts due from the federal government.

Former Governor McKelvie, Philip F. Bros, George E. Johnson, State Auditor Marsh, State Accountant Somner, George E. Hall and Mrs. Cochran, whether any one appears to testify, "whether any one appears to testify, we are giving all a chance to do so. If they do not, the committee will go ahead and get out its report."

Governor Bryan's report for the committee will show that there is due from the federal government \$1,010,494.73 on old road contracts entered into prior to the present biennium and the state and federal government owes to contractors \$715,441.81. The difference is \$295,053.12, which the governor says is the deficit in the road construction fund.

He explains that included in the amount due from the government is \$84,245.85 which is yet to be received on project 66, Cherry county's road involving a dispute as to whether the surface is rock or brule clay or whether this clay is the same as rock. The state has paid for this work. If the amount is not included the governor says the deficit will be \$379,298.97. He explains that his original estimate of the deficit, over \$400,000, is now less because final estimates of costs on some projects later were found to have run under the original estimated cost. His figures in detail by projects will be given in the senate committee.

The governor said his present estimate may possibly be larger as the figures are merely tentative. The amounts received from the government in the past few days will make a difference in his estimated deficiency.

State Treasurer Robinson received \$92,775.90 Monday from the federal government on road projects. Last week he received \$53,000. It was recently estimated that \$313,000 is the total sum to be paid to the state.

The federal payment Monday was upon the following projects: No. 53, \$3,430.34; project 133-C, \$2,181.84; project 46, \$6,472.77; 100, \$36,669.54; 71, \$11,039.41; 111-A, \$4,125.29; 20, \$1,539.63; 5, \$7,317.98.

MABEL AND DINES TOO ILL TO BE SUBPOENAED

Los Angeles, Jan. 7.—Deputy sheriffs, carrying papers ordering Courtland S. Dines, who was shot New Year's night by Horace Greer, and Mabel Normand to appear at Greer's preliminary hearing Friday, were unable to serve the subpoenas today. At the hospital where Dines and Miss Normand are convalescing the deputies were told by the attending physician neither would be sufficiently recovered to appear at the hearing, even though Dines is "recovering rapidly" and Miss Normand is "getting along nicely." As a result of the physician's statement, it was indicated Greer's hearing would be continued.

Other efforts by the deputies to subpoena witnesses were more successful. Papers were served on Edna Purviance and Mrs. Edith Burns, Miss Normand's companion. The chauffeur still is in jail.

WILSON WOULD KEEP UP FIGHT FOR LOFTY PRINCIPLES

Says Democrats Entrusted With Redeeming Nation From Degradation of Late Years.

Pittsburg, Jan. 7.—Former President Wilson, in a telegram read tonight at the annual Jackson day dinner here, declared the democratic party was entrusted with "the redemption of the nation from the degradation of purpose into which it has in recent days been drawn," and would "be glad to take part" in "an aggressive fight for the establishment of high principles and just action."

Those assembled at the dinner, Mr. Wilson said in his telegram: "They are to be congratulated on representing the party to which must be entrusted the redemption of the nation from the degradation of purpose into which it has in recent days been drawn. The high principles and just action will restore the prestige of our nation as nothing else could, and I shall be glad to take part in so distinguished a service."

Senator Pat Harrison of Mississippi and Joseph Tumulty, secretary to Mr. Wilson while the latter was president, discussed the tax problem.

Senator Harrison in his address attacked the Mellon tax reduction plan as a "big business" bill designed to aid the wealthy and declared the democratic party would seek revisions to relieve the poorer tax payers.

Mr. Tumulty declared that democratic leadership will make the tax problem less an issue in 1924 by co-operating in some enactment that will bring reduced taxation.

SECRET OF MOTOR CAR SAFETY

"I talked to my chauffeur the other day about these automobile accidents," said a Danville business man. "He tells me that the difference between safety and carelessness in any ordinary short trip about town is about 30 seconds. On a trip of about 100 miles it might be about 30 minutes. I told him that he is never to take a chance unless I tell him that I am in a hurry and I don't remember that I ever told him to hurry and I don't think I ever will."

It is not likely that this man will ever be in a serious automobile accident. In the first place, his car is driven by a man hired for that purpose, and this man drives with the knowledge that the first thing is absolute safety for his passengers. He is not to take a chance to save time. He never will "run" a railroad crossing because there he takes a chance. Few persons can afford or desire to employ men to drive their cars. Every man who sits behind the wheel of an automobile should realize that the safety of the people in the car is his responsibility.

In striving to work on short business trips no man's time is so valuable that he cannot devote 30 seconds in the interest of safety. In a tour of 100 miles it is much better to start half an hour earlier or to be an hour behind schedule than to take a chance on each of half a dozen railroad crossings.

AN APPRECIATION

For the many kind expressions of sympathy in the loss of our beloved father and grandfather and for the thoughtful tribute of respect paid by the business houses of the city in closing for one hour, we desire to express our most heartfelt appreciation.
