Mrs. Eddie Craig has been kept at home with an attack of the Asthma, which has made her a sufferer for some weeks and has kept her at home and unable to do any work.

Mrs. Catherine Backemeyer, better known as Grandma Buckemeyer, is reported as being very sick at her home in Murdock, but is being given the best of nursing and medical treatment.

Miss Jessie Melvin, who has been at the hospital in Lincoln, where she is receiving treatment is now getting along nicely and will probably be able to come home in a short time. Her many friends are surely hoping for her former health as she has suffered much from poor health recently.

With the nearing of the completion of the additions and enlargement of the church in Murdock, the necessity of a pipe organ for the church is being felt by the members of the congregation and a move is on foot looking to supplying the want.

Henry Amzwert, who had his nose fractured in a game of basketball and was in Omaha to have the same fixed is back on his job again and looking after some business matters at the store again, but people who meet him think he has a mask on, on account of the manner in which his face is bound up.

J. E. McHugh and wife, who have been at the city of Lincoln for a few days last week, called there on account of the meeting of the retail merchants association which was held at the home of Mrs. McHugh, who accompanied her husband, was a guest at the home of her parents, Mr. and Mrs. George Towle while there.

Kenneth Sedman, who has been farming on one of the places of J. J. Leis have been constructing a fence around the school property and will be busy at it for a number of days yet to come.

Is Dangerous for Children  
The new buildings and the improvements at the school property, where the new building is to be erected, of course, attracts much interest, and all like to see the work progress, but it is a very unsafe place for children to go near. There are turks much danger to the pupils or children who go there and climb over piles of lumber and material and over the tools and machines which are there for work and are working. The danger of education and building committee feel that they do not want to assume the responsibility for any one who might get injured while trespassing on the grounds and are highly desirous that parents and guardians might see to it that the children be kept away from the grounds where the building is in progress. There will be plenty of opportunity for them to go there after it is done.

They are having the sympathy of their many friends in their loss.

The boys for the way, have been putting in some pretty good time at present, and the program was given at the ball on last Thursday and was well attended, notwithstanding the very bad condition of the roads which prevailed.
