"ON THE CORNER"

# Quality Field and Garden SEEDS!

We always select seeds of high test and purity and this way only are we able to offer seeds of Quality. We buy bulk garden seeds only and our stocks are not purchased before the first of February so we are sure to have the strictly fresh stocks to select from.

We are careful not to buy any jobber's old stock.

We are now taking orders for nursery stock. All kinds of fruit trees, also shrubbery, roses, vines and in fact anything you may want in this line.

We guarantee all trees and bushes to grow

if properly set out. Give us a trial order. We will be here next year to report to if not as represented.

Field seed season is just starting. We are prepared to show samples of all kinds and grades of grass seed, but our stock on hand is of the best brands only. Seed that we are staking our reputation on and bought from districts that produce seeds that are best adapted to this climate.

Remember that there are many kinds of seeds that do better here if they come from certain localities. That is our real special service—selecting only the kinds giving best results.
