FRACTURES LEG TODAY

This morning a very serious accident occurred at the Coates block when Isaac Kline of Omaha, who was employed in washing the windows in the building, fell from a window and was just getting ready to start on his work when the accident occurred. He had just opened a rear window on the third floor of the building and was standing in the window when his foot slipped and he fell out, striking the ironwork of the fire escape on the old and had been a resident of the west for the greater part of his lifetime. Living in Mills county near Pacific Junction for many years and later moving to near Council Bluffs.

This loving mother leaves to mourn her loss four daughters and two sons, twenty-six grandchildren, six great-grandchildren. Sells a Good Cow
Robert R. Nickles who has concluded that he does not want to have the trouble of looking after a cow and preferring to purchase milk than to look after the animal, concluded that he would dispose of his cow which has been giving milk for two years and consequently disposed of her to C. M. Christwieser and while the cow was not in the best of flesh she weighed 1760 pounds and brought by the pound \$95 which we think a very good price for the animal.

Improvements Promised
The Murray Community club appointed a committee to meet with the Missouri Pacific delegation, which was in town Wednesday.
At that meeting the Missouri Pacific officials promised to install electric lights on the station platform, to construct suitable sidewalks to replace those now in use and to repair the well at the stockyards.
They also promised to recommend to headquarters that the road do its part toward graveling the street, which is being pushed by the Murray Community club.

Uncle Wm. Nickles has been very sick at his home southeast of Murray with an ulceration of his stomach and has suffered very much from the attack. All has been done for him possible in the way of medical attention and nursing and he has been relieved of considerable suffering but still is very sick and suffers much. His many friends hope that he will soon be able to be up again and that his health may soon return.

PROWLERS ARE REPORTED ABOUT THE CITY NOW

Man at Missouri Pacific Station and Also at Coronado Apartment House Last Night.

From Wednesday's Daily—

The members of the night police force were kept busy last night with reports from several widely separated portions of the city, of prowlers who were causing a great deal of annoyance to the residents of that section of the city and some apprehension to their intentions.

The first call came from the vicinity of the Coronado apartment house, where passersby reported that some person was lurking behind trees in that vicinity and acting in a manner decidedly strange for a person who was not up to something wrong. Officers Hinrichsen and Dellef were several of the night police who are the residents of that portion of the city and at once hastened to the scene where the party had been reported as being, but failed to find any trace of him, and he had evidently taken flight on being detected in his peeping.

Later in the night Officer William Hinrichsen was called to the Missouri Pacific passenger station by reports that some one was lurking around the depot and caused some alarm as to their intention and the night operator reported that from out of the darkness of the night a mysterious stranger had been seen peering into the windows of the offices, but not coming in or making any further demonstration.

When Officer Hinrichsen arrived at the station he did not find anyone at the depot, but parties were heard around the grain elevator just east of the station and accordingly Mr. Hinrichsen got out after them and the parties made a hurried get-away and in doing so the policeman took several shots in the vicinity of the fleeing parties, but without desire to injure them and the prowlers were evidently effectively scared away as there was no further report of them turned in during the remainder of the night.
