Boy Suffers Fall from Stairway of the Wescott Building

Last evening, while the crowd from the first show at the Filmland open air theatre was moving out onto Fifth street, a sudden crash was heard in the direction of the stairway that leads to the apartments of F. R. Gobelman in the Wescott building and the form of a boy was seen to suddenly hurl out into space and land with a heavy thud on the cement sidewalk below.

The boy made a loud scream and cries and it was thought that he had probably sustained a broken limb or other severe injuries, and Ralph Allen, who was passing at the time, picked up the boy, who gave the name of Sid Davis, and carried him to the corner of Fifth and Main streets, where he subsided in his arms and after some urging was able to stand alone and walked to a car, which conveyed him to the office of a physician, where he received an examination, but no broken bones were discovered.

The boy with a number of companions, had been sitting on the roof of the Wescott building and was sitting on the railing at the top of the small flight of stairs that leads from the alley to the roof, when the railing gave way and caused him to fall to the ground, a distance of some twelve or fifteen feet.

The young lad is fortunate that the accident was not more severe. Companions of the boy last evening stated that a few nights ago he fell from the roof of the shed belonging to J. H. McMaken, just west of the Filmland, where he was located taking the roof of buildings.

The tops of buildings and other nearby points of vantage are in demand nightly by a group of boys, despite efforts of the police to keep them from climbing to such dangerous places, and the danger is not slight, though it did not prove serious, should be a lesson to parents not to let their boys run free and get into such places of danger. Last year a number of boys sustained minor injuries in falling or being pushed from the roof of buildings near the Armory and unless the practice of congregating there is stopped, this will be only the first of several such accidents this year.
