**MACHINE SHOP
HERE TO TAKE
ON NEW LIFE**

**UNDER NEW MANAGEMENT THE
FORMER SHARP MACHINE
PLANT TO START UP.**

AUTO SPECIALTIES FEATURED

**A. J. P. Birchey, New Manager, to
Also Handle a Large Number of
Other Devices in Production**

From Wednesday's Daily—
After a period of idleness covering a period of several months while the L. C. Sharp estate was being closed up, the machine shop and foundry here that was established by the late Mr. Sharp, as well as the Alfa-Maize mill will have a new lease of life and in very capable hands will once more be made an active institution in the city and one that will employ from twenty-five to thirty men in handling the affairs at the plant.

For the past ten days A. J. P. Birchey, the well known machine manufacturer of Omaha and who also has the reputation as one of the leaders in this line of work in the state of Iowa, has been here arranging the plant and having the machine shop and foundry arranged for the opening when it would resume its former activities on even a larger scale than it had in the hands of Mr. Sharp.

The machinery is being overhauled as rapidly as possible and put in first class shape and will when started out be in a position where it can turn out a great deal of work in the various lines of which it will be put.

The new manager of the plant, Mr. Birchey, has a large number of special articles that will be handled in the plant when reopened, for sale and these include a special gas saver for automobiles, welding apparatus of all kinds, non-mechanical vacuum cleaner for closed cars, all manner of machine models and other marketable features that can be handled in a plant of the size and capacity of the one in this city.

In connection with the machine shop there will be operated a foundry as an aluminum and brass foundry and which will be of great assistance in carrying out the general work required by an establishment of this kind.

One of the main industries that will be featured at the plant Mr. Birchey states will be that of the re-conditioning of automobile motors and which in the very capable hands of the new manager and his force will be a very pleasing institution to this part of the state and one that will save a great deal to the auto owners of the community. With the present plan and the success that has followed the trials of the work that Mr. Birchey is going to place as one of the leading features here, there is no doubt

that this will develop into a real big proposition. The local plant will be able to re-condition the motor and place it in first class shape and provide a new crankshaft that will be up to all standards and this will be at the most reasonable figure of \$55 which the plant and its condition here will permit of being given the public. This line of work has been in demand and it was at the price that it can be carried on here will work a great saving to the patrons. The prices in the different sizes of car, the new manager states, will be maintained at the same ratio as in the smaller cars and give the public a real piece of work and in this line there will be a demand from all over this part of the state and adjoining territory.

As the plant gets well under way there will be lines of manufactured articles to be turned out and the new manager hopes to be able to have one of the largest of the former machine shops in the state located here.

In the affairs of the plant, Mr. Alexander McLaren of Dayton, Ohio, one of the well known manufacturers of that city, is interested as he has been here frequently and was at the plant yesterday looking over the work of getting everything in readiness for work as soon as possible.

The use of the mill will require more time to develop but it is the intention to place this at some practical use and to add to the industries of the city in either its original purpose if the available material for grinding can be secured or divert it to other lines that can use a building of this kind.

Mr. and Mrs. Birchey are now moving to Plattsmouth and getting located and the new manager will be right on the job in directing the affairs of the machine shop and it is with pleasure that the Plattsmouth people extend him a hearty welcome to the city as a permanent resident.

**Jack, the Peeper, Falls from
His Perch in an Apple Tree**

A few evenings ago when the soft warm breezes of the summer season were inducing the householder to fling wide the portals of their windows and let the flower perfumed zephyrs of Nebraska toss to and fro through their home, one family residing in the south part of the city had an experience that at the time caused them a great deal of alarm and annoyance.

The lady of the house was busily engaged in her household work when she heard the old apple tree, of whose shade the poet and songwriter has raved, crackling, and the leaves stirring more than was caused by the wind and this being continued caused some little fright, as the tree commanded a view of the interior of the house and thoughts of burglars or midnight assassins were rapidly crowding through the mind of the lady when a sudden crash told of the hurling of some heavy body down through the tree and the cold, unfeeling thud that announced that it had arrived on earth.

From the facts the family surmised that the tree had better use the old fashioned step ladder or a periscope if they desire to gaze upon the scenes within this home, or profit by their experience in the old apple tree and stay clear of other peoples' domiciles.

In the future it is suggested that whoever was in the tree had better use the old fashioned step ladder or a periscope if they desire to gaze upon the scenes within this home, or profit by their experience in the old apple tree and stay clear of other peoples' domiciles.

DOING VERY NICELY

From Wednesday's Daily—
The many friends of Mr. and Mrs. Fritz A. Fricke of this city will be pleased to know that the little daughter, Emily, who was born on last Friday at the Methodist hospital in Omaha, is doing very nicely and the mother and little one are both progressing as well as could be asked and the little baby daughter is the subject of the greatest admiration from the attendants of the hospital.

HERE ON VISIT

George Melvin of Tacoma, Washington, was here today for a short visit, the first in twenty-four years that Mr. Melvin has been able to pay to his childhood home where he resided up to the time of going to Washington. Mr. Melvin is engaged in the dairy business and at which he has been most successful. The many old time friends were pleased to meet Mr. Melvin and he to see them and is anticipating a very pleasant visit.

Many ills come from impure blood. Can't have pure blood with faulty digestion, lazy liver and sluggish bowels. Burdock Blood Bitters is recommended for strengthening the stomach, bowels and liver and purifying the blood.

**WEDDING BELLS
RING TODAY FOR
POPULAR COUPLE**

**Miss Kathryn Novatny United in
Marriage This Morning to
James Wooster of Sedalia.**

From Wednesday's Daily—
One of the most delightful of the weddings of the early summer season was celebrated this morning when Miss Kathryn Novatny of this city and Mr. James Wooster of Sedalia, Missouri, were joined in holy wedlock at the Holy Rosary church on West Pearl street.

The nuptial mass was celebrated at 9 o'clock and preceeding the ceremony as the bridal party entered the church the choir, with Mr. Cyril Janda at the organ, played and sang the bridal chorus from "Lohengrin." The bride entered on the arm of the best man, Mr. Frank Wooster, brother of the groom, while the groom was accompanied by Miss Agnes Benda of Omaha, the bridesmaid.

The bride made a very winsome picture of youth and beauty with her wedding dress of white satin and the flowing bridal veil of white that gave added charm and carried a bouquet of the bride roses and Lillies of the Valley. The bridesmaid, Miss Benda, a close friend of the bride, was gowned in peach colored satin and carried a basket of the roses and presented a very pleasing appearance. The groom and the best man were garbed in the conventional dark suits.

At the alter chancel, the bridal party were met by Rev. Father Ferdinand Suesser, rector of the church and who with the impressive nuptial mass of the Roman Catholic church joined the lives and hearts of these two estimable young people.

Following the wedding the bridal party and the relatives of the contracting parties were entertained at the home of the bride's parents, Mr. and Mrs. Joseph Novatny on West Oak street, a reception given for the happy young couple and followed at the noon hour by the luncheon to the members of the two families and the bridal party.

This evening a dance will be given at the platform at the park and to which the host of friends are invited to be present and spend a few hours with the bridal party. Mr. and Mrs. Wooster will depart at midnight for Kansas City and from there will go to California where

they will spend a three weeks honeymoon in the various places in the coast country.

On their return from the honeymoon they go directly to Sedalia, Missouri, where the groom has a very attractive home awaiting the coming of his bride.

Both of these very popular young people were born and reared in this city and received their education in the Plattsmouth schools, but in the last few years have made their homes elsewhere. The bride is the youngest daughter of Mr. and Mrs. Joseph Novatny and has for the past four years been employed in Omaha, where she occupied a very fine position that she is leaving to reside over her own home. The groom is a son of Mr. and Mrs. Frank Wooster of this city and at the present time is one of the employees of the Missouri Pacific railroad in their Sedalia shops. Mr. Wooster is one of the fine young men that have been produced in this community and with the bride has a host of friends in this community that join in wishing Mr. and Mrs. Wooster a long and happy wedded life with all the joy and sunshine that they so well deserve.

CALLED ON SAD MISSION.

T. W. Glen of this city departed yesterday afternoon for Orion, Ill., in response to a message announcing the death at that place of his only sister, Mrs. William Sterns, who passed away Monday at the advanced age of eighty-two years and after an illness of some duration from the infirmities of old age. The death of Mrs. Sterns leaves the last of a family of seven children and the parting with the sister has brought a deep grief to our fellow townsman.

SOME DELICIOUS BERRIES

From Wednesday's Daily—
The Journal publisher has been very fortunate in being remembered by the good friends with strawberries this season and which are certainly very much appreciated and today L. H. Peterson, one of the most extensive growers of the berries in this locality brought in two fine boxes of his delicious berries while last evening Mr. P. J. Vallery presented the publisher with some of his berries that are very fine and delicious.

After a hearty meal, take Doan's Regulets and assist your stomach, liver and bowels. Regulets are a mild laxative. 30c at all stores.

A few freckles are breaking ground.

SECURES MORE BOOZE
From Tuesday's Daily—
Yesterday afternoon Deputy Sheriff Alex Young paid another visit to Louisville and as the result of his visitation the booze cache in the vault at the office of County Attorney J. A. Capwell is enriched by the addition of two gallons of the combination alcohol and water which has been one of the popular drinks out in that part of the county.

There has been a large assortment of booze acquired in the last few days at the office of the county attorney and as soon as the cases are disposed of the "evidence" will be destroyed.

In marked difference to the disposal of confiscated liquor in the past, Sheriff E. P. Stewart is to have the hooch beer and alcohol brought out to the sewer in the street near the court house and publicly destroyed so that everyone who desires can view the passing of the joy water. This is the practice as set forth by law for the destruction of the liquor and will undoubtedly be more satisfactory to the general public than the more secretive method of destroying the booze.

Roy V. Pepperberg of Lincoln, a former Plattsmouth boy and representing his cigar factory in the capital city, was here today.

P. T. Becker returned home this morning from Pekin, Illinois, and other points in the east where he has been visiting for the past few weeks.

Jonas Johnson departed this morning for Mitchell, Nebraska, where he will visit for a short time with old friends in that city and vicinity.
