WE SELL BOTH THE 30 LINE AND THE 130 LINE

# New Perfection Oil Stoves!

The 30 line is the model stove that has been sold for many years—with the best of satisfaction.

The new 130 line—a faster and finer stove—is a 1924 model and has a much greater cooking speed and economy of operation which has no equal; a new beauty of design and more substantial construction.

## Kitchen Conveniences Never Before so Complete in a Moderate Priced Stove

It has an everlasting brass lower reservoir. This is the part that rusts out so soon on common make of stoves.

The new double wall blue chimney burner is another improved feature. It will throw a greater volume of heat against the cooking utensil, resulting in more rapid cooking and a minimum of fuel consumption. Very economically operated.

You owe it to yourself to see this New Perfection Line of Stoves at once. Summer heat is with us, so discard the old hot range and do your housework in comfort the rest of the summer.
