Many Nehawkans Visit Den.

Many of the people in Nehawka amounting to a little over fifty in number were in attendance at the Den at Omaha, and were given a most interesting evening by the Knight of Ar-Sar-Ben.

Celebrate at Nutzman's Grove.

A large number of people in and about Nehawka celebrated the Fourth at the Nutzman's Grove, south of Nehawka, here they gathered in the evening and had a picnic supper as well as a demonstration of fire works. The place was an ideal spot for a gathering of this kind and was most thoroughly enjoyed by all present.

The entire country, every man, woman and child, deeply sympathizes with President Coolidge and his wife over the loss of one of their boys, who, in the prime of life and with the enjoyment of everything that this country could afford a young man before him, was stricken down suddenly at a time when his father and mother could ill afford to lose their dear boy. Our prayer goes up to heaven that the good Lord may help and comfort them in this dark hour of grievance.

are expecting to make their home in the future.

STATIC SPOILS CONVENTION.

The weather conditions preceding the storm of early this morning, made the conditions for receiving the radio reports of the democratic national convention last evening far from pleasant and old man Static was found to be right on the job and while the anxious followers of the convention dope gathered early at the Weirich & Hadra's drug store where the large receiving set has been taking off the speeches and votes in fine shape, they found that the static was too strong for any intelligent receiving of the reports. Even the voice of the announcer and Senator Walsh was unable to compete with the air interference and the eager listeners were compelled to take it out in straining what the gathering of democrats was doing. This is the first time that the news of the convention has been interfered with to any serious extent by the static, although slight disturbances have marked several days of the meeting.

MACDONALD'S VISIT IS AID TO HERIOTT

Forestalls Poincare's Attack Scheduled for Today—Stirs Up Controversy.

Paris, July 7.—Former Premier Poincare's plans for a stinging attack on the Herriot government tomorrow on the policy regarding the reparations commission report have been sadly deranged by Prime Minister MacDonald's forthcoming visit, and after a meeting of the various opposition groups tonight, it was announced that nine hostile speeches scheduled for tomorrow will not be made.

M. Poincare's attack has been put off until Friday, as it would be impossible to discuss the government last night while the British prime minister was carrying on important conversations.

The opposition groups are working up steam now over the "trick" supposedly involved in Mr. MacDonald's visit to London. Herriot of arranging the affair in order to stave off the attack and possible defeat of the government. A violent controversy in the press and parliament is certain to be precipitated by this attitude, which the Poincarist press is endeavoring to exploit tomorrow morning as a result of tonight's meetings of the opposition forces.

Paris, July 7.—The swift maneuver of Premier Herriot of France in getting Prime Minister MacDonald to England to come to Paris tomorrow, thus forestalling former Premier Raymond Poincare and his other opponents in the senate, who are prepared to put him on the gridiron, has upset all calculations, in political and parliamentary circles.

The conviction that the Herriot cabinet was in danger had penetrated even government circles. Postponement of the debate in the senate, necessitated by the visit of the British prime minister, makes little change in the situation, but it gives M. Herriot time to make a further effort to come to an agreement with the British premier before he is interpolated in the upper house.

It is admitted that it will make an enormous difference if the premier is able when the debate comes up to pack the senate with a number of senators that Thursday, to tell the senators that France and Great Britain are finally in complete accord as to how the reparations plans should be put into effect.

ALL-AROUND BOY OR GIRL TO ATTEND INTERSTATE FAIR

Representative Must Be Enrolled in Agricultural Club—State Champion to National Fair.

Lincoln, July 7.—The outstanding boy or girl in the boys and girls' club work in Nebraska in 1924 will attend the Interstate fair at Sioux City, Ia., next fall as the guest of the Cudahy packing company, it was announced from the state agricultural college here. The company is offering \$25 toward the traveling expenses of this boy or girl "because it believes the work to be of special value to all farm youth in encouraging profitable production." The boy or girl will probably be a member of the state championship teams which will compete with teams from other central states for sectional honors.

The boy or girl to win the trip must be a member of one of the "standard 4H clubs," under the direction of the agricultural extension service. He or she must be enrolled in a livestock or crop project of these clubs. The winner is to be picked by a committee selected for this work. It is required that the winner write a story of the trip to the Interstate fair.

The representatives at the fair last year brought home good records. They were first in the livestock judging contest, second in the health contest and among the winners in every class of exhibits in which they entered their products.

The winner who is declared the state champion dairy calf club work or will receive as one of his or her awards a prize trip to the national dairy show at Milwaukee next fall. It was announced. The Blue Valley Creamery company is donor of this prize.

The winner will not only get the trip to Milwaukee, but will have a day's sightseeing in Chicago at the expense of the company. The winners will travel and live comfortable while on their trips, the prize covering railway, Pullman dining car, hotel and other incidental expenses of the trip. The same requirements are made for this trip.

800 MILLION IN-COME TAX PAID FOR THE YEAR 1922

Salaries and Receipts Upon Which Levies Paid, \$21,336,212,530, Equals Gross Debt of Nation.

Washington, July 7.—A total net income of \$21,336,212,530 an amount equivalent to the gross debt of the nation—was reported subject to federal taxes by citizens of the United States for the calendar year 1922, it was disclosed in statistics of incomes for that year, made public by the treasury.

On this income the federal government received \$861,057,398 from the 5,787,481 persons who admitted tax liability. This shows an increase over 1921 of \$141,670,292 or 16.65 per cent in tax paid; of 125,305 in the number of returns filed; and of \$1,759,000,000 in total income subject to taxation.

The average net income per return for 1922 was \$3,143.26 per taxpayer, while each theoretically paid \$126.86 toward the upkeep of the government, and their taxes were at the rate of 4.04 per cent of their net incomes.

Average Income of \$194.72

Based on the 1920 census, 6.2 per cent of the total population paid taxes and by the basis of calculation, each American citizen, whether man, woman or child, had a net income for 1922 of \$194.72, just 10 higher than in 1921. The per capita tax by the federal government amounted to \$7.76—almost \$1 more than in the previous year, in which, however, a different schedule of tax levies was in effect.

The year 1922 produced returns for 67 net incomes of \$1,000,000 and over, the highest for this class since 1918, when a similar number were reported. There were 21 such incomes reported in 1921. In the class between \$500,000 and \$1,000,000 incomes there were 161 returns as compared with 63 for 1921.

There were fewer returns showing net income between \$400,000 and \$500,000 than between \$500,000 and \$1,000,000. One hundred and four returns in that class were reported, or 4 more than in the preceding year.

12,000 in \$50,000-\$100,000 Class

There were 12,000 persons reporting net incomes between \$50,000 and \$100,000, a gain of 4,000 over 1921. 2,171 with incomes between \$100,000 and \$150,000 and 763 with incomes between \$150,000 and \$200,000.

In the lower brackets the statistics show that 2,471,181 persons paid taxes on net incomes between \$1,000 and \$2,000, and 2,129,898 filed returns of incomes between \$2,000 and \$3,000. There were 785,267 returns in the class from \$3,000 to \$4,000; 404,898 between \$4,000 and \$5,000; 301,373 between \$5,000 and \$10,000, and 90,278 between \$10,000 and \$15,000.

In the classes between \$1,000 and \$10,000, the number filing tax returns was substantially the same as for previous years. In each case, however, the number was slightly larger in 1922 than in 1921. From this conclusion was drawn that the income of some 5,000,000 taxpayers remained relatively constant; the change in the average number over a period of four years being less than 6 per cent.

STORAGE WOULD AVERT CHANCES OF A COAL FAMINE

Urge Household and Others to Buy Coal on Uniform Demand System.

New York, July 7.—Danger of a coal famine would be eliminated, industry stabilized, railroads relieved and the consumer's coal bill ultimately cut by reasonable storage of coal, it is asserted in the report of the storage of coal committee of the American Engineering Council made public here today.

"The storage of coal," the report declares, "is essentially necessary as an aid to the solution of the national coal problem and is an economic and practicable means of insuring an adequate supply of coal as needed."

"If each coal consumer will adopt the policy of annually purchasing coal on a uniform monthly delivery basis, there will result automatically sufficient seasonal storage to guarantee coal to the consumer as needed. Furthermore, this policy will bring about uniform demand for coal whereby the coal producer and carrier may establish uniform and standard production and shipment schedules."

"It will also remove the evils of intermittent operation of coal mines, frequent panicky market conditions, and coal shortage due to inability of the carriers to meet peak demands."

"While this study refers primarily to industrial consumers of bituminous coal, yet householders also have a direct responsibility. Indeed the carriers are in a position to aid with the least cost, because no special equipment for storing and reclaiming is required."

The committee recommends that all coal consumers purchase their coal on an annual contract for yearly requirements with a provision that the coal be delivered monthly in equal allotments. It urges that consumers provide necessary storage facilities to meet the terms of such contracts.

Every day the democratic convention remained in session added just that many more votes to the LaFollette-for-President movement.

LOCAL NEWS
