

Alvo Department

Dr. Chas. Parrish, veterinarian, Elmwood, Nebraska, call day phone, 7, night, 53.

Mrs. Clarence Curvey and daughter, Miss Liliana, visited for over Sunday at the home of Mr. and Mrs. George W. Curvey, of Alvo.

Charles Heratls, Jr., recently purchased a new Fordson tractor which he is using for the harvesting of his one hundred acres of excellent wheat.

Uncle Willis Whitney who has been quite ill at his home near Alvo for some time past is so far recovered that he was able to be in town on last Thursday.

Joseph Armstrong has installed electric lights in his new filling station and is now equipped so as to care for the business that comes in the evening as well as during the day.

J. L. Pilkington, the mason, is getting along nicely with the brick work on the new home of Mr. Wm. Lau near Murdock and will have the home ready for occupancy before the coming of cold weather.

Uncle George W. Curvey departed last week for Kansas, where he went to assist in the harvesting of the grain of Clarence Curvey, of Lincoln. His son, who has a large acreage of excellent wheat in the good growing region of Kansas.

Will H. Warner who is a good worker in anything you may put him at and is now way afraid to do his full part has been assisting in the work of harvesting the wheat of Mr. E. C. Boyles during the past week. Will was driving the tractor which pulled the binder.

Carl D. Ganz of the Farmers' and Merchants bank of Alvo, and an attorney at law, and Hon. L. Appleman were looking after some business matters in O'Neill for a few days last week and found that the crops in Cass county were looking just as well as any they found and better than most places.

four of her young friends, her mother Mrs. Simon Rehmeyer entertaining for the young people. The day was spent in the playing of games and a general good time was had. Many wishes were extended for the happiness of the years to come, and for the enjoyment of the birthday which shall fall. Mrs. Rehmeyer served a most delightful luncheon at the close of the afternoon enjoyment by the young people and which added much to the pleasure of the occasion.

Peter Mick Loses Life.

Last Monday Peter Mick, who formerly lived just out of Alvo but who has been making his home near Chapell for several years, where he is engaged in farming, was occupied last Monday making hay and was hauling hay when the team which he was driving, becoming frightened ran away overturning the load of hay throwing him off with the result that he struck in such a way that his neck was broken. He died in a short time. Mrs. Mick is a sister of Messrs. Arthur Skinner and Alva Skinner and a daughter of Uncle Daniel Skinner. The funeral occurred.

Young People Married.

Robert L. Parmenter, a veteran of the World war, who was attending the vocational school at Bellevue, and Miss Violet Ough went to Sioux City where they were united in marriage and were visiting in Alvo for a short time. They will for the present make their home at Bellevue and will after the closing of this term of the vocational school which Mr. Parmenter is a student go to Farmington, Mo., where he will attend the coming year.

Clo O. Shaffer, Postmistress.

Mrs. Clo O. Shaffer who was recently appointed postmistress, has taken the postoffice over and assumed charge of the business last Wednesday morning, having the postoffice located at the drug store building. Mrs. Shaffer is a very competent woman and we are certain she will make a good official. Mrs. Vincent did good service during the years which she was the postmistress and during the time Mr. E. M. Coakman was acting postmaster he did good service and the settling of the matter putting Mrs. Shaffer in as the public official will insure good service during her occupancy of the office.

BUTLER REPORTS FIFTY THOUSAND IN G. O. P. FUND

Party to Place Reasonable Limit on Campaign Contributions, Chairman Informs Borah.

New York, July 16.—Replying to a letter from Senator Borah as head of the senatorial committee authorized to investigate and report on party financing of presidential campaigns, William Butler, chairman of the republican national committee, today announced that his organization had approximately \$50,000 on hand July 1, and that it expected to raise campaign funds by personal solicitation and correspondence.

The committee, Mr. Butler said, had decided how much it would raise and spend toward election of the republican ticket, but was preparing a budget. It further intended to place a "reasonable limit" upon contributions and did not propose to violate the law prohibiting the acceptance of funds from corporations.

Senator Borah had suggested that the republican national committee submit a financial report to the senatorial committee each 10 days of the campaign, beginning next September 1—names, addresses and amounts contributed.

Mr. Butler countered with a suggestion that such reports be made at 15-day intervals, beginning September 15, with each report covering the period ending 15 days prior to date.

"We are gratified to know that this investigation is to go forward," wrote Mr. Butler, replying to a letter Senator Borah addressed on July 2. "It is our desire to co-operate with you in every way in order that the purposes of your committee may be served to your satisfaction."

Senator Borah's letter suggested that Mr. Butler answer six definite queries. It called attention to the fact that the senatorial committee was authorized to "investigate and report to the senate upon campaign expenditures made by and on behalf of or in support of or in opposition to and all candidates for president and vice president and presidential electors and senators of the United States." Mr. Borah said a similar letter would be sent to each party chairman as soon as they were named.

Sexton a Useful Man, Rings Bell, Writes Boy

Munch.—Schooboy in a Munch suburb were instructed recently to write a composition about the sexton in the local church, and the following effort attracted so much attention that it is being reproduced in many Bavarian newspapers:

"The sexton is a useful man. He rings the bells at five in the morning so the people know they may sleep two hours longer. At eleven he rings the bells again, indicating to the farmers in the field that they should be more bell ringing, which indicates to small children that they will get their ears boxed if they do not run home rapidly. Sometimes the sexton is very troublesome, especially when he rings at night to announce a fire. The sexton thrives on weddings, christenings and the dead. He earns the most money through death. Therefore he is glad when many people die."

BISHOP SHAYLER BACK FROM MODERN CRUSADE

One of Two Bishops Heading Pilgrimage to Eastern Churches, Holy Land.

Bishop Ernest V. Shayler, Protestant Episcopal bishop of the diocese of Nebraska, returned yesterday from a three and one-half months trip which carried him to Palestine on a pilgrimage, and to most of the central and eastern European countries.

Bishop Shayler left Omaha March 31 for New York, and sailed April 5 for Liverpool. He proceeded to London, where he became the only American member, and one of two bishops, to join a pilgrimage to the Holy Land organized by the church Unity Society of England.

The two objectives of the pilgrimage were: first, to revive the spirit of the Crusades, by inducing the English or Greek church, to unite with the Church of England and the American Episcopal church; and second, to visit the places made sacred by the earthly life of Christ, Bethlehem, Nazareth, and Galilee, were visited.

Heard Dean Inge.

Before starting on the pilgrimage, Bishop Shayler stopped in London for Holy Week. He attended St. Paul's cathedral on Easter morning, and heard a sermon preached by Dean Inge, who has won the title of "England's gloomy dean." He also attended a service at Windsor castle, which the king and queen and Ramsay MacDonald, British premier, also attended. After the service he was presented to the English rulers and to more than 200 English laymen comprised the pilgrimage, which later went to Port Said and from Jaffa where they were met by the Archbishop of Jerusalem, went by train to Jerusalem.

Says Mission Successful.

"The crusade was very successful," said Bishop Shayler on his arrival in Omaha. "We were welcomed and received hospitably by the leading ecclesiastics of the eastern churches. The Greek, Armenian, Coptic and Latin patriarchs of Jerusalem all tendered us receptions, and we conferred with all of these dignitaries. At Alexandria we met the patriarch of the African church, and after the pilgrimage was finished, I met the Greek patriarch of Constantinople, Demetrius, who is now living in Athens, since his forced departure from Turkey."

At Athens, Bishop Shayler met Stephanos, the Metropolitan archbishop of Greece, and as the Greek patriarch of Constantinople, Demetrius, who is now living in Athens, since his forced departure from Turkey."

At Athens, Bishop Shayler met Stephanos, the Metropolitan archbishop of Greece, and as the Greek patriarch of Constantinople, Demetrius, who is now living in Athens, since his forced departure from Turkey."

REFUSE REQUEST FOR LOWER GRAIN FREIGHT RATES

Commerce Commission Denies Petition—Ten States Joined in Requesting Rate Cut

Washington, July 17.—Reductions in western railroad rates on grain, grain products and hay, brought by ten states of the Mississippi-Missouri valley cereal growing region under both issues were dismissed today by the interstate commerce commission.

At the same time the commission decided that the results of an independent investigation it had conducted into the level of rates on these same products in all sections of the United States had demonstrated no need for any changes, and proceedings before it hearing upon both issues were dismissed.

Railroad earnings in the western region from the Rocky Mountains to the Great Lakes and south as far as Texas would have been reduced about \$17,500,000 annually, had the rates of the producing states been granted.

The commission held the status of the carriers did not justify the step, while in general it held that the financial condition of the western grain farmers still showing a slow but steady improvement, and the necessity for the reduction.

Rate Lowered in 1922

The rates affected by the decision are those as applied to wheat throughout the growing territory where it constitutes the most important crop and has presented the most controversial and controversial problem before the interstate commerce commission in recent years.

The states which led in the presentation of the complaint denied today—Kansas, Nebraska, North and South Dakota, Iowa, Illinois, Oklahoma, Missouri, Minnesota and Louisiana—obtained in January, 1922, the first railroad rate reduction granted after the war, for the grain products concerned.

Later, in 1922, a general reduction of 10 per cent in all rates was granted by the commission, and early in 1923 the same western states promptly moved before the commission to obtain a secondary reduction on their own products. After the first hearing, the commission ordered a retrial of the issues, and instituted its own investigation into grain rates in all sections of the country.

C. M. Reed, chairman of the Kansas public utilities commission, for the states and farm organizations, contended that the depressed price of grain products required a new level of freight rates for all the commodities concerned. He held also that the financial condition of western railroads would justify the cuts demanded because the railroads properly used by them in rendering transportation service was less than the commission had hitherto calculated, and further, because the expenditures of railroads of the western mainline during 1923 were unduly swollen.

POSSIBLE PLAN FOR LA FOLLETTE TICKET

Contemplates Action by Henry Ford Which Might Tend to Injure President in Nebraska.

A method whereby the name of LaFollette can be placed on the Nebraska ballot as a candidate for president and at the same time obtain the selection of presidential electors has been found. As the state contemplates action on the part of Henry Ford which would tend to work against the interests of President Coolidge, it may have to be abandoned.

The plan is to have Ford withdraw from the ballot of the progressive party as a candidate for president, a position he occupies thru no action of his own. Ford was nominated by the progressive party at the last state wide primaries. If he can be induced to withdraw, the progressive state committee can legally place LaFollette in the vacancy and can also select presidential electors to fill a vacancy. The state progressive party held a convention but chose as presidential electors. It is argued that a state committee has the power to fill vacancies "on the ticket" and that it can select electors, so in the event LaFollette carries the state the governor could the law comply by appointing presidential electors chosen by a state convention.

F. H. Frickey of Lincoln, chairman of the legislative board of the brotherhood of locomotive firemen and engineer, is quoted as having said in a letter recently received that George Wiley of Fairbury, a member of the board, has gone to Chicago to line up affairs for LaFollette in Nebraska. While the state legislative board of this organization is said to be inclined to favor LaFollette, it has taken no action officially.

Head of Canadian Pacific Says It Has Fostered the Growth of That Country.

London, July 18.—Indicating how advertising had fostered the growth of the Canadian Pacific Railroad company, the head of the world's largest advertising club of the world today that since 1881 his road had spent \$67,000,000 on colonization in contrast to \$25,000,000 expended by the Canadian government.

These figures, he explained, include more than what might strictly be termed advertising, the colonization efforts having been directed at rather different types of settlers.

Tracing the part played by advertising in the building of Canada, which began with the Jesuit missionaries in the day of the French dominion, Mr. Beatty said it was not until the Canadian Pacific appeared on the scene that an aggressive, consistent and comprehensive advertising campaign for the colonization of Canada was planned and directed from Canada itself. In the last forty years a campaign of invitation and welcome had been conducted he asserted the example and set the pace.

Canada's snow and hard winters are among its greatest assets, Mr. Beatty declared. "Without that winter we should not be able to grow the hard wheat of the Canadian west, depends, and which every miller in the United States desires. Without that winter we should not have the fur trade which for 300 years has been one of Canada's basic industries."

Charles Jelinek, who has been here visiting with relatives and friends, departed this morning on the early Burlington train for Omaha.

COMMERCE COMMISSION DENIES PETITION

Ten States Joined in Requesting Rate Cut

Washington, July 17.—Reductions in western railroad rates on grain, grain products and hay, brought by ten states of the Mississippi-Missouri valley cereal growing region under both issues were dismissed today by the interstate commerce commission.

At the same time the commission decided that the results of an independent investigation it had conducted into the level of rates on these same products in all sections of the United States had demonstrated no need for any changes, and proceedings before it hearing upon both issues were dismissed.

GOODHUE'S FIRM WILL GO ON WITH CAPITOL WORK

Commission Makes Arrangement for Completion of Work at \$80,000. Cost to Date \$280,000.

Lincoln, Neb., July 18.—For a flat sum of \$80 thousand dollars, he states what was heretofore paid to the late B. G. Goodhue, architect of the new state capitol here, and the amount due his widow under the terms of the contract, the state capitol commission is to secure services of Mr. Goodhue's architectural organization in New York for completion of the building.

This was tentatively agreed upon by representatives of the architect's firm and the commission at a recent conference, and the governor announced today that new contracts would go forward soon for the signature of the firm.

Architect Goodhue was paid a total of \$247,164 up to the time of his death for the capitol work, the governor said. Under the death clause in the contract his widow is entitled to further payment of \$22,816, or four per cent of the amount which would have been due Goodhue during the remainder of his five-year contract.

This makes the total amount due to the architect's firm for the capitol work \$270,000.

Under the new agreement with the architectural firm, Governor Bryan said he believed the state will save about 75 thousand dollars on the cost of the building, eighty thousand dollars to pay for all plans, specifications, construction work, supervision and travel carried out by the architects.

Experience demonstrates that it is wise to forego the use of extreme words. When we say we "never" shall do so and so, we mean we don't intend to do it until at least day after tomorrow. "Never" is a long time.

RAIN IS UNCERTAIN

Nothing is as uncertain as the weather. Despite this, various insurance companies write policies against rain interfering with such things as ball games, street fairs and circuses. Here in Plattsmouth the recent Fourth of July celebration was insured against rain.

The companies thought they had the rates figured out on a definite basis by the law of averages. But the freak weather of the last few years has caused unexpected losses to underwriters. Rates probably will be revised.

It's odd that individual gamblers, who'll take a chance on anything, don't bet on the weather.

A fellow the other day asked us the name of the democratic candidate for sheriff. We couldn't tell him on the spur of the moment and finally had to ask someone else. This should not be. Candidates must go around and see the people. He can't sit down and wait for people to come to him. He must also announce himself in the papers.

Nature was wise when she fixed men's arms so he couldn't pat himself on the back.

SOCIAL WORKERS FLOWER CLUB

The Social Workers Flower club will meet on Wednesday afternoon at the home of Mrs. Arthur Sullivan. All members are urged to be in attendance.

WANT TO RENT FARM

Would like to rent 160 to 200 acre farm. Have all my own help. Call at this office or address Joe Martin, Plattsmouth, Neb. 321-236-237

MANLEY NEWS ITEMS

John Stander was visiting with friends in Plattsmouth last Friday making the trip in his auto.

John Stander was fortunate in that he got his wheat out and all in the shock dry and nice before the rain.

R. Bergman and Herman Dall were looking after some business matters in Omaha on last Wednesday.

W. P. Cook of Plattsmouth was a visitor in Manley last Wednesday, looking after some matters which he was interested.

Edward Kelly was a visitor in Omaha for two days during the past week, driving over to the metropolis to look after some business matters.

Donald R. Hanta of Saint Charles, Iowa, was a visitor in Manley last Thursday looking after some matters relative to engaging in business here.

A Steinkamp has been busy trapping moles in his yard as they seem to take a delight in tearing up his lawn, to which he has serious objections.

Carl Schlaphoff disposed of a ten foot cut binder last week to Mr. Carl Schlaphoff west of town on the highway, who then had some 80 acres of wheat yet to harvest.

R. Bergman the enterprising merchant and postmaster was making some improvements at his business property and home by the placing of a new roof on the building.

Elk Koehler who is working on the grader east of Weeping Water, was spending last Thursday and Friday at home on account of the continuation of rain so that the grader could not be run.

During the week there has been reported a little hail over the county and much damage done just outside of the month may slip by with out any great damage.

Messrs. Monroe Nelhart and Richard Fickard have been assisting in the harvest field during the rush period and have made excellent time for the work, they both taking hold of the work in fine shape.

Frank Bergman was fortunate in that he got all his harvesting done before the grain in shock before the heavy rain of last Wednesday night and is feeling pretty good over the matter, thank you.

John Crane was busy last Thursday morning making a drain to keep the water out of the timber sheds, as the rains had been coming regular every day of every night, and to care for this condition was what Mr. Crane was working for.

Wm. Reebner has been having a sore time with an obstinate molar, and with his wife were in Omaha last Wednesday to have the disturbing factor eliminated. He is suffering much from the ordeal, but is recovering from it after a noisy new, Arnold and York Schloffer, disposses of three thousand bushels of corn last Thursday which brought them one dollar per bushel. They also disposed of their wheat crop, which is to be delivered as soon as the threshing is done, getting for it \$1.07.

Rev. Herman Davis formerly pastor of the Christian church at Benson, and now representing a grocery house during his vacation, is also conducting a revival for the Christian church at Avoca, and was a visitor in Manley last Thursday looking after some business matters.

Messrs. Omar Coon, Herman Dall

and W. J. Rau, and the latter wife attended the Good Road meeting which was held at Elmwood last Monday and were loud in their praises of the treatment of the Elmwood commercial club, and the enthusiasm which was displayed for the Red Ball highway, and its care and markings.

The Gospel Car, which makes a tour each year from the home of those who are conducting the campaign, passed by Manley last week on its way to Avoca where they are conducting series of meetings after which they go to Nebraska City and then into Iowa. The preaching is done by Rev. J. I. Montgomery, and Arthur C. Mintz who have a musical team with them.

Many Having Boils.

There seems to be an epidemic of boils about Manley, for many are afflicted with them. Joseph Murphy having ten on the back of his neck, while others are not having quite so many. But they have been distributed around pretty well, Frank Bergman, Geo. Meyers, John Scheehan and Joseph Murphy having drawn a number.

BUILDING IN LOUISVILLE

Mr. and Mrs. Harold Brunson, who have recently moved here from Montana, this week purchased the Mrs. M. Peterson rental property on Walnut street, adjoining the fine new brick home of Mr. Brunson's step-father and mother, Mr. and Mrs. Philip Kahler, on the north. They expect to erect a modern home on this property in the near future. It is very likely that they will decide to use Louisville sand stone in the erection of this house and it will be of colonial design so popular at present and will be a decided addition to the neighborhood and Louisville people will welcome Mr. Brunson and wife in our midst.

Mr. Brunson has been at the head of the Montana state fisheries for years, but has returned to Nebraska to affiliate himself with the Kahler Pottery company as traveling representative. He has a substantial interest in the pottery and no doubt will be a valuable asset to the firm.

In closing the deal, an interesting matter was brought to light, it being discovered that the original deed from Harry Brown and wife, Mary Brown, was issued under the notarial seal of the late Squire C. G. Cleghorn on March 25, 1887, to Mrs. Marilda Peterson, and the present deed from Mrs. Peterson to Mr. and Mrs. Brunson is issued under the seal of Squire Cleghorn's son, W. A. Cleghorn, thirty-seven years later. There are two lots in this property, the other being deeded by Mrs. Ellen Neuner to Mrs. Peterson, under the notarial seal of Attorney S. F. Rockwell, long since deceased. These names will recall many memories in the minds of the early residents of this vicinity.—Louisville Courier.
