Harry Vantine, who is a radio fan, and one who understands the art and appreciates a good machine, on last Sunday, gave his many friends a most pleasant entertainment as he placed the loud speaker of his radio, which was an exceptionally good one as he was able to get from three tubes what is ordinarily received from eight in front of the telephone transmitter and thus broadcasted, with the assistance of the central, the concert and other entertaining features over the lines radiating from Nehawka.

The bill carries \$80,000,000 for road construction, an increase of \$41,000,000 over the 1925 appropriation. Regular expenses of the agriculture department were reduced \$2,712,439.

POSTPONED RATE DATE TWO MONTHS

Government Not Able to Get Tariffs Prepared in Time for Making Them Effective First of Year.

John E. Denton, representative at Washington of the association of state railway commissioners, which the state railway commission Monday that the effective date of the new schedule of express rates had been changed from January 1 to March 1, because of inability to get the tariffs in shape by that time. This postponement for two months the reduction of 11 per cent in rates that the state commission and other bodies had secured for this section of the country, which is known as Zone Three.

It is not certain that the new rates will go into effect on that date for the reason that the western and southern carriers, which will have their revenues reduced, have gone into the federal court at St. Paul and asked for an injunction on the ground that the class rates should not be reduced as provided in the order.

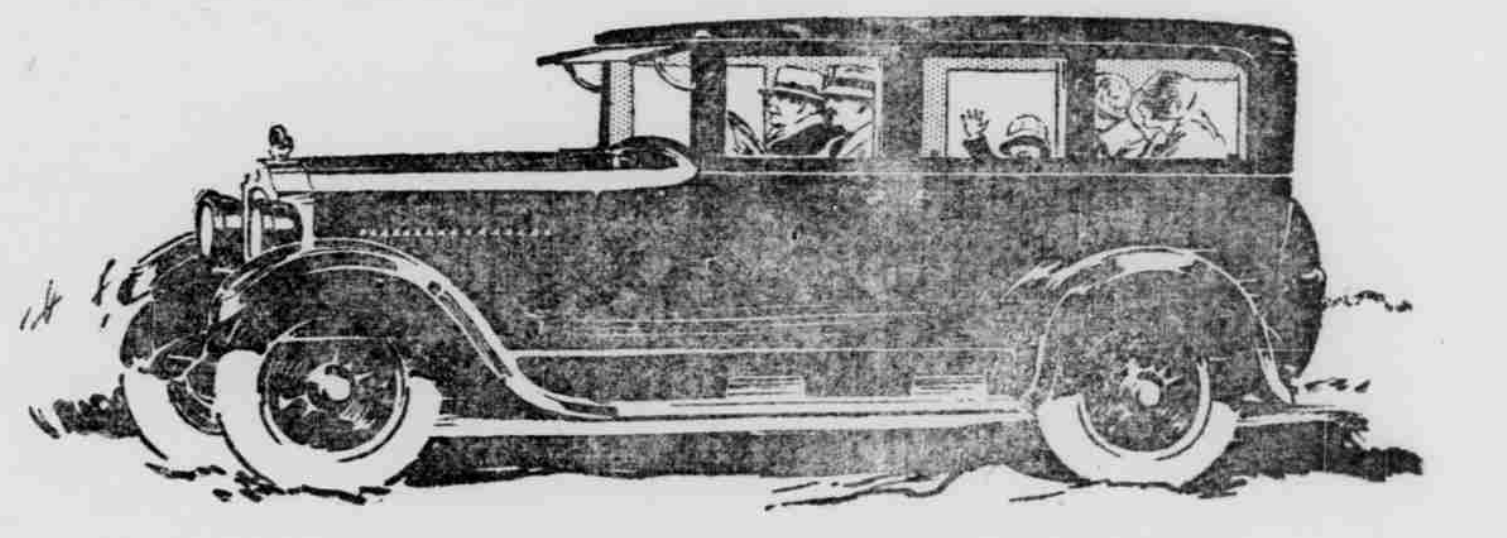

The west won a victory in the order as secured, but it is a question whether it can hold it. The eastern part of the country has been so favored the matter of rates that the west has been carrying a part of the burden, and the new order sought to equalize them. The injunction suit covers only the rates in the zone from two to five, which covers the west and south.

Mr. Denton thinks that the state commission should promptly intervene in the lawsuit, and make an effort there to retain the fruits of the victory won before the interstate commerce commission.
